

RELEVANT EVENT
LLEIDANETWORKS SERVEIS TELEMÀTICS S.A.

Lleida.net's E-Delivery certified email system eIDAS-approved by European Union

27 December 18

Under the provisions of Article 17 of the Regulation (EU) No 596/2014 regarding market abuse and article 228 of the modified text of the Spanish Stock Market Act, approved by Spanish Royal Legislative Decree 4/2015, of 23 October and related provisions, as well as Circular 6/2018 of the Spanish Alternative Investment Market, we inform LLEIDANETWORKS SERVEIS TELEMÀTICS S.A.: (hereinafter “Lleida.net, or “the Company”) wishes to inform the following:

Lleida.net has been awarded the eIDAS type-approval on its qualified service on certified electronic delivery (E-delivery). It has become the first Spanish company to receive it, and the sixth in Europe to attain the aforementioned type-approval.

The type-approval results from efforts and investment in R+D that Lleida.net has been performing in recent years. Moreover, the system is based in a method for which Lleida.net has applied for a worldwide patent.

In addition, the type-approval means that it can be used at European level without any national restriction, and their certifications should be admitted by default by any European court or agency.

We look forward to being able to answer any appropriate question.

Sincerely,

Lleida, 27 December 2018.

Francisco Sapena Soler

CEO and chairman, Board of the Company
