RELEVANT EVENT

LLEIDANETWORKS SERVEIS TELEMÀTICS, S.A.

The Superintendency of Industry and Commerce of the Government of Colombia grants Lleida.net the patent for its Registered email method with qualified electronic signature.

Under the provisions of Article 17 of the Regulation (EU) > nº596/2014 regarding market abuse and article 228 of the modified text of the Spanish Stock Market Act, approved by Spanish Royal Legislative Decree 4/2015, of 23 October and related provisions, as well as Circular 6/2018 of the Spanish Alternative Investment Market (MAB), we hereby inform you of the following:

Lleida.net, the leading company in the field of electronic notification and certification, has received from the Superintendency of Industry and Commerce of Colombia the patent for its registered email with qualified electronic signature method formally known as "**METHOD FOR REGISTERED EMAIL WITH A QUALIFIED SIGNATURE BY A TELECOMMUNICATIONS OPERATOR**", number 35.683 and file number PCT/EP2016/082298.

The term of patent is currently in force for 20 years, it is Lleida.net third patent on registered methods as well as of digital witness for electronic contracting and electronic notification granted to Lleida.net by the Superintendency of Industry and Commerce of Colombia.

The granting of this patent will allow the company to expand its business in Colombia in the booming market of electronic contracting and notification in Latin America.

The Lleida.net method allows the sending of digitally signed registered email with a qualified signature without breaking that signature at the time of the certification, as in other methods, generating a certificate with legal validity that can be submitted as evidence in court to prove the sending, the content, delivery and non-manipulation of information.

We are available for any clarifications needed.

Sincerely,

Francisco Sapena Soler, CEO
