

Madrid, 25 October 2019.

Relevant event:

The company Portabilidad Españolas S.L., 100% subsidiary of Lleida.net, has been awarded the contract to be the exclusive official provider of information on the Spanish portability

Under the provisions of Article 17 of the Regulation (EU) No 596/2014 regarding market abuse and article 228 of the modified text of the Spanish Stock Market Act, approved by Spanish Royal Legislative Decree 4/2015, of 23 October and related provisions, as well as Circular 06/2018 of the Spanish Alternative Investment Market (MAB), we are hereby informing you of the following information relating to LLEIDANETWORKS SERVEIS TELEMÀTICS, S.A. (hereinafter, "Lleida.net" "The Company "or The "Group").

The company Portabilidad Españolas SL, a 100% subsidiary of Lleida.net, has been awarded the contract from the Association of Mobile Portability Operators (AOPM) and the Portability Operators Association (AOP) to be the exclusive provider over the next two years (renewable) of information on the Spanish portability to worldwide operators.

This service identifies the operator a number belongs to when making a phone call or when sending SMSs, it is used to properly route the service and to adjust the cost of the service. In addition, it is becoming increasingly important due to the increase use of devices on the existing networks, especially the internet of things (IoT) and to the implementation of 5G standards that allow a much higher density of terminals in a smaller space.

We are available for any clarifications needed

Sincerely,

Francisco Sapena Soler

CEO and Chairman of the Board of Directors
