statements issued by an independent auditor**

To the Shareholders of **LLEIDANETWORKS SERVEIS TELEMÀTICS, S.A.:**

**Opinion**

We have audited the consolidated financial statements of **LLEIDANETWORKS SERVEIS TELEMÀTICS, S.A.** (the Parent) **AND ITS SUBSIDIARIES** (the Group), which comprise the consolidated balance sheet at December 31, 2019, the consolidated income statement, the consolidated statement of changes in equity, the consolidated statement of cash flows and the notes to the consolidated financial statements for the year then ended.

In our opinion, the accompanying consolidated financial statements give, in all material respects, a true and fair view of the Company's equity and financial position at December 31, 2019, as well as its consolidated results and cash flows for the financial year ending on said date, in accordance with the application of the regulatory framework of financial information (identified in note 2.a of the consolidated annual report) and, in particular, with the accounting principles and criteria contained therein.

**Basis of opinion**

We have performed our audit in accordance with the regulations governing the auditing of accounts in force in Spain. Our responsibilities under these standards are described below in the section on the auditor's responsibilities for the audit of the annual accounts in our report.

We are independent from the Group in accordance with the ethical requirements, including those of independence, which are applicable to our audit of the financial statements in Spain as required by the regulations governing the activity of auditing accounts. Accordingly, we have not provided services other than those of the audit of accounts nor have concurred situations or circumstances that, in accordance with the provisions of the aforementioned governing regulations, have compromised the necessary independence.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**Key audit issues**

The key audit matters are matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. Our audit procedures relating to these matters were designed in the context of our audit of the financial statements as a whole, and in the formation of our opinion on these and we do not express a separate opinion on those matters.

Key audit issues	Audit response
<p data-bbox="277 443 783 465">Valuation of capitalized research expenditures</p> <p data-bbox="277 499 783 913">As described in notes 3.b and 5 to the accompanying consolidated report, the Group has intangible assets for expenses on capitalised research projects of a significant amount. These expenses must be specifically individualised by project and have reasons of economic-commercial profitability, among other requirements in order to be capitalized in the Group's balance sheet. In addition, the assessment by the Parent's management and directors of their recoverable amount or the need for impairment involves value judgements and estimates. For these reasons, we have considered the valuation of these assets to be a key issue in our audit.</p>	<p data-bbox="810 443 1323 499">We have carried out the following audit procedures, among others:</p> <ul data-bbox="810 521 1323 1742" style="list-style-type: none"><li data-bbox="810 521 1323 611">- Understanding of the policies and procedures applied by the Group for the capitalization of research expenses.</li><li data-bbox="810 633 1323 801">- We have analysed a sample of activations of the projects during the year, obtaining evidence such as the hours and cost of the same incurred by the workers in the different projects and the cost of external collaborations.</li><li data-bbox="810 824 1323 936">- We have obtained the certificates issued by an independent third party on the projects regarding the validity of the capitalised amounts.</li><li data-bbox="810 958 1323 1361">- We have obtained a detail of the book value of the research expenses individualized by projects, and analysed the sales projections for the different projects, profitability and real sales for the year, goodness of the data, the reasonableness of the hypotheses, the degree of compliance to date, revision of the arithmetic calculation, analysis of the discount rate, sensitivity to the variation of hypothesis and deviations in past estimates in order to evaluate the reasonableness of the recoverable value of the research expenses.</li><li data-bbox="810 1384 1323 1496">- We have verified the correct amortization of the different projects capitalised on the basis of the current regulations applied by the Group.</li><li data-bbox="810 1518 1323 1742">- Finally, we have verified that the notes to the accompanying consolidated financial statements include the related disclosures required by the applicable financial reporting framework. In this respect, Notes 3.b and 5 to the accompanying consolidated annual accounts include the aforementioned disclosures.</li></ul>

**Other information: Management report**

The other information comprises exclusively the management report for the financial year 2019, the formulation of which is the responsibility of the Parent's directors and does not form an integral part of the consolidated financial statements.

Our audit opinion on the consolidated annual accounts does not cover the consolidated annual report. Our responsibility over the consolidated management report, in accordance with what is required by the regulations governing the audit activity, consists of evaluating and reporting on the consistency of the consolidated management report with the consolidated financial statements, based on the knowledge of the Entity obtained in performing the audit of the aforementioned consolidated accounts and without including information other than that obtained as evidence during the same. Likewise, our responsibility is to evaluate and report that the content and presentation of the management report are in accordance with the applicable regulations. If, based on the work we have performed, we conclude that there are material misstatements, we are obliged to report this.

Based on the work performed, as described in the preceding paragraph, the information contained in the consolidated management report agrees with that in the consolidated financial statements for financial year 2019 and its content and presentation are in accordance with the applicable regulations.

**The responsibility of the management and the audit in the respect committee of the consolidated financial statements**

The management of the Parent Company are responsible for formulating the accompanying the accompanying financial statements so that they give a true image of the consolidated assets, the consolidated financial situation and the consolidated results of the Company, in accordance with the regulatory framework on financial information applicable to the Entity in Spain, and of the internal control that they consider necessary to allow the preparation of the financial statements free of material misstatement, due to fraud or error.

In the preparation of the consolidated financial statements, the management are responsible for assessing the Company's ability to continue as a going concern, revealing, as appropriate, the matters related with a company in operation and using the accounting principle of a going concern except if the management intend to liquidate the Company or cease operations, or if there is no other realistic alternative.

The Parent's audit committee is responsible for supervising the preparation and presentation of the consolidated financial statements.

**The auditor's responsibility for the audit of the consolidated financial statements**

Our objectives are to obtain reasonable assurance that the consolidated financial statements as a whole are free from material misstatement, due to fraud or error, and to issue an audit report that contains our opinion.

Reasonable assurance is a high level of assurance, but it does not guarantee that an audit conducted in accordance with the regulations governing the audit activity in force in Spain will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the regulations governing the account auditing activity in Spain, we exercise professional judgment and maintain an attitude of professional scepticism throughout the entire audit. Also:

- We identify and assess the risks of material misstatement in the consolidated financial statements, due to fraud or error, design and perform audit procedures to respond to those risks and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or circumvention of internal control.
- We obtain knowledge of the internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- We evaluate the appropriateness of accounting policies used and the reasonableness of the accounting estimates and disclosures by the Parent's directors.
- We conclude whether the use, by the Parent's directors, of the accounting principle of the Group as a going concern is adequate and, based on the audit evidence obtained, we conclude on whether or not there is material uncertainty related to events or conditions that can generate significant doubts about the ability of the Group to continue as a going concern. If we conclude that there is material uncertainty, we are required to draw attention in our audit report to the corresponding information disclosed in the financial statements or, if such disclosures are not adequate, we express a modified opinion. Our conclusions are based on the audit evidence obtained at the date of our audit report. However, future events or conditions may cause the Group to cease to be a going concern
- We evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We are required to communicate with the Parent's audit committee regarding, amongst other matters, the planned scope and timing of the audit and significant findings, including any significant deficiencies in internal control that we identify during the course of the audit.

We also required the Parent's audit committee with a statement that we have complied with the relevant ethical requirements, including those of independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Among the matters that have been communicated to the Group's audit committee, we determine those that have been of the greatest significance in the audit of the financial statements for the current period and that are, consequently, the key issues of the audit.

We describe these matters in our audit report unless legal or regulatory provisions prohibit public disclosure of the matter.

#### **Report on other legal and regulatory requirements**

##### *Additional report to the Parent's Audit Committee*

The opinion expressed in this report is consistent with that expressed in our additional report to the Parent's Audit Committee dated April 29, 2020.

##### **Contract period**

The Extraordinary General Shareholders' Meeting held on June 10, 2019 appointed us as the Group's auditors for a period of three years, starting from the year ended December 31, 2019.

Previously, we were appointed by resolution of the General Shareholders' Meeting for the three-year period and we have been auditing the accounts uninterruptedly since the year ended December 31, 2007, and the Parent Company has been a Public Interest Entity (PIE) since 2015.

##### **Services provided**

The services, other than the audit of accounts, provided to the Group are detailed in Note 20 to the consolidated financial statements.

## **NOTE 2. PRESENTATION BASIS OF INTERIM CONSOLIDATED FINANCIAL STATEMENTS**

### **a) True and Fair View**

The accompanying Consolidated Annual Accounts for the year 2018 were prepared with the accounting records of the different constituent companies of the Group, whose respective annual statements were prepared in accordance with the applicable commercial law currently in force and according to the General Accounting Plan approved by Spanish Royal Decree 1514/2007, 16 of November, in the case of Spanish companies, and in accordance with the applicable legislation in the other countries in which the companies that are part of the Consolidated Group are located, and are submitted as provided by the Royal Decree 1159/2010 of 17 September, so as to provide a true and fair view of the net worth, financial situation, results and accuracy of the cash flows included in the Consolidated Cash Flow Statement.

**b) Presentation Currency**

In accordance with the applicable laws and regulations on accounting, the Consolidated Annual Accounts are expressed in euros.

**c) Critical Aspects of Uncertainties Valuation and Estimation**

There are no significant uncertainties or aspects about the future that could lead to a significant risk that could lead to significant changes in the value of assets and liabilities in the following year.

**d) Comparison of the Information**

The directors present, for comparison purposes, with each of the items in the consolidated balance sheet, the consolidated profit and loss account, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year, in addition to the figures for 2019 those corresponding to the previous year. The items for both years are comparable and homogeneous.

**e) Changes in Accounting Standards**

As indicated in the foregoing section, this is the first year in which the Group voluntarily prepares consolidated financial statements, and therefore no changes in its own accounting policies have been made and no related adjustments are included as a result of errors.

**f) Responsibility for the Information given and the Estimates made**

For the preparation of the Consolidated Annual Accounts estimates have been used in order to value some of the assets, liabilities, incomes, expenses and compromises that are registered, and that, basically, these estimations are referred to the evaluation of losses by impairment of certain assets, the useful life of non-current assets and the probability of occurrence of provisions.

Notwithstanding that these estimates were made according to the best information available at the time of the preparation of these Consolidated Annual Accounts, it is possible that future events may occur that require their amendment for the next financial years; which would be carried out prospectively, taking account of the effects of the estimate change on the corresponding profit and loss accounts.

### **NOTE 3. RECOGNITION AND VALUATION STANDARDS**

The principal valuation standards used by the Group in the drafting of its Consolidated Annual Accounts, in accordance with those established by the General Accounting Plan, were as follows:

#### **a) Consolidation Principles**

The consolidation of the Annual Accounts of Lleidanetworks Serveis Telemàtics, S.A. with the Annual Accounts of its investee companies mentioned in Notes 1.1 and 2, was carried out using the following methods:

1. Application of the global integration method for all Group companies, i.e. those over which it as effective control.
2. Application of the equity method as equivalence for associated companies, i.e. those over which a notable influence is exercised in terms of management but in which there is no majority vote or joint management with third parties.

The consolidation of the operations of **Lleidanetworks Serveis Telemàtics, S.A.** with those of the aforementioned subsidiaries was performed according to the following basic principles:

- The criteria used in formulation of the Balance Sheets, the Profit and Loss Account and the Statement of Changes in Equity and Cash-Flow Statements for each one of the consolidated companies are, generally, and in their basic aspects, homogenous.
- The Consolidated Balance Sheet, the Consolidated Profit and Loss Account, the Consolidated Statement of Changes in Equity and Consolidated Statements of Cash Flow include all adjustments and eliminations of the consolidation process, as well as relevant valuation homogenizations to reconcile balances and transactions between the consolidating companies.
- Balances and transactions between consolidated companies were eliminated in the consolidation process. The credits and debts with group, affiliated and associated companies which have been excluded from the consolidation are presented in the corresponding headings of the assets and liabilities headings of the Consolidated Balance Sheet.
- The deletion of Subsidiary equity investment was conducted by compensating the shareholding of the Parent Company with the proportional part of the net equity of the subsidiaries which is represented by the shareholding on the date of the first consolidation. The first consolidation differences were treated as follows:
  - a) Positive differences which cannot be allocated to the equity elements of the Subsidiaries were included in the "Consolidation Goodwill" heading of the Consolidated Balance Sheet. The impairment losses must be recognized in the Consolidated Profit and Loss Account and are irreversible
  - b) Negative differences, obtained as first consolidation, are recognized as reserves for the year considering that the group already existed previously in the different subgroups contributed to the Parent Company.

- The consolidated income for the financial year shows the part that may be attributed to the Parent Company, comprised of the income obtained by the latter plus the corresponding part, by virtue of the financial shareholding, of the income obtained by the invested companies
- The shareholding value of the minority interests in the equity and the attribution of income in the consolidated subsidiaries is presented in the "Minority Interest" heading of the Equity of the Consolidated Balance Sheet. The value breakdown of these shareholdings is presented in Note 4.

### **b) Intangible Fixed Assets**

Assets included in intangible fixed assets are valued by their cost, whether purchase price or production cost, reduced by the corresponding accumulated amortization and losses from any impairment which, where appropriate, has occurred.

The depreciable amount of an intangible asset is allocated on a systematic basis over its useful life. The amortisation charge for each period is recognised in profit or loss.

### **Research and Development Costs**

Capitalized research and development costs are specifically individualized for projects and their costs are clearly established so they can be spread over time. Similarly, Management the Group has substantial grounds for expecting the technical success and the financial and commercial profitability of these projects

Research and development costs that appear as assets are amortized on a straight-line basis over their useful life, at an annual rate of 20%, and always within a period of 5 years.

As soon as there are reasonable doubts over the technical success or financial and commercial profitability of a project, the values recorded in the asset that apply to it are directly allocated to the financial year's losses.

### **Computer Applications**

Licenses for computer applications purchased from third parties are capitalized on the basis of the costs incurred for purchasing.

Computer applications are amortized on a straight-line basis throughout their useful lives, at an annual rate of 33%.

Maintenance expenses for computer applications incurred during the financial year are recognized in the Consolidated Profit and Loss Account.

### **Industrial Property**

Corresponds to the capitalized development expenses for which the relevant patent or similar has been obtained, and includes the registration and formalization costs for the industrial property, as well as the costs for purchasing the corresponding rights from third parties.

During all these years, the Group has been able to develop methods and unique technologies in its sector by continuous investment in research and development. The result of this effort has been the publication of patents at European, American and PCT levels, putting in value the effort developed during these last years. These patents allow the Group to license this technology to third parties and protect it against possible copies of other actors in the sector, less scrupulous when creating original models.

### c) **Tangible Fixed Assets**

Tangible fixed assets are valued by their acquisition price or production cost, net of the corresponding accumulated amortization and, where appropriate, of the accumulated value of the recognized allowances for impairment.

Repair and maintenance expenses incurred during the financial year are debited in the Consolidated Profit and Loss Account. Costs for renovating, extending or improving intangible fixed assets, representing an increase in capacity, productivity or lengthening of useful life, are capitalized as a higher value of the corresponding assets, once the book values of the replaced items have been de-recognized.

Tangible fixed assets, net of their residual value, where appropriate, are amortized by a straight-line-basis distribution of the various items that constitute these fixed assets over the years of estimated useful life making up the period in which the Group hopes to use them, according to the following table:

	Annual Percentage	Estimated Years of Useful Life
Buildings	2,50	40
Technical facilities	8 - 10	12,50 - 10
Machinery	20 - 25	5 - 4
Other installations	10	10
Furniture	10 - 15	10 - 6,67
Computer equipment	25 - 50	4 - 2
Other tangible fixed assets	15	6,67

The book value of a tangible fixed-asset item is de-recognized in the accounts through its alienation or disposal by other means; or where no future economic benefits or profits are expected to be obtained for its use, alienation or disposal by other means.

The loss or profit resulting from writing-off a tangible fixed-asset item is determined as the difference between the net values, where appropriate, of the sales costs resulting from its alienation or disposal by other means, where available, and the item's book value, and is allocated to the Consolidated Profit and Loss Account for the financial year in which this occurs.

At the financial year's closure, the Group, assesses whether there are signs of impairment in a tangible fixed-asset item or any cash-generating unit, in which case the recoverable amounts are estimated and the necessary allowances are made.

An impairment loss is deemed to have occurred in a tangible fixed-asset item where its book value exceeds its recoverable value, this being understood as the higher value between its fair value less the sales costs and its value in use.

Allowances for impairment in the tangible fixed-asset items, as well as their reversals where the circumstances producing them cease, are recognized as an expense or income respectively in the Consolidated Profit and Loss Account.

**d) Leases and Other Transactions of a Similar Nature**

Operating-lease expenses incurred during the financial year are debited in the Consolidated Profit and Loss Account.

**e) Financial Instruments**

The Group determines the classification of its financial assets on their initial recognition and, where permitted and appropriate, this classification is re-assessed on each closing of the consolidated balance sheet.

Financial instruments, for the purposes of their valuation, are classified in any of the following categories:

**Loans and Receivable Items and Debts and Payable Items**

**Loans and Receivable Items**

The following are classified under this category:

- a) Trade credits: financial assets arising from the sale of assets and the provision of services for commercial transactions, and
- b) Non trade credits: financial assets which, being neither equity instruments nor derivatives, have no commercial origins, whose payments are for a fixed or determinable amount, and which are not traded in an active market. They do not include those financial assets for which the Group cannot recover substantially all the initial investments, owing to circumstances unrelated to credit impairment. The latter are classified as available for sale.

**Debts and Payable Items**

The following are classified under this category:

- a) Trade debts: financial debts arising from the purchase of assets and services through commercial transactions, and
- b) Non trade debts: financial liabilities which, not being derivative instruments, have no commercial origins.

Initially, financial assets and liabilities included in this category are valued by their fair value, which is the price of the transaction and which is equivalent to the fair value of the consideration paid plus the transaction costs which are directly attributable to it.

Notwithstanding what is stated in the above paragraph, loans and debts through commercial transactions with a maturity not greater than one year and which do not have a contractual rate of interest, as well as, where appropriate, advances and loans made to staff, receivable dividends and called payments on equity instruments, the amounts for which are expected to be received in the short term, and payments called by third parties on holdings, the amounts for which are expected to be paid in the short term, are valued by their nominal value where the effect of not updating the cash flows is of no significance.

In subsequent valuations, both assets and liabilities are valued by their amortized cost. Accrued interest is recognized in the Consolidated Profit and Loss Account by applying the effective interest rate method. Notwithstanding the above, loans and debts with a maturity no greater than one year which are initially valued by their nominal value, remain valued by this amount unless, in the case of loans, they have been impaired.

At the year end, the necessary allowances are made where there is objective evidence of value of a credit having been impaired, i.e. where there is evidence of a reduction or delay in estimated future cash flows corresponding to that asset.

An impairment loss in the value of loans and receivable sums corresponds to the difference between their book value and the current value of the estimated future cash flows to be generated, deducted at the effective interest calculated on their initial recognition.

Allowance for impairment of debts as of December 31, 2019, has been estimated on the basis of the analysis made on each of the individualized outstanding receivables on that date.

### **De-recognition of Financial Assets**

A financial asset, or part of it, is de-recognized where the contractual rights over the cash flows of the financial asset have expired or been assigned, and the risks and benefits attaching to its ownership have been substantially transferred.

### **De-recognition of Financial Liabilities**

A financial liability is de-recognized where the corresponding obligation ceases.

### **Interest Received from Financial Assets**

Interest from financial assets accrued subsequent to their purchase are recognized as income in the Consolidated Profit and Loss Account.

Interests are recognized by using the effective interest rate method. For these purposes in the initial valuation of the financial assets, both the value of the explicit interest, accrued and non-matured at that time, and the value of the dividends agreed to by the competent body on acquisition, are recognized independently, bearing in mind their maturity.

### **Guarantees Given**

Guarantees given and received through operating leases and provision of service are valued by the amount paid out and received respectively.

#### **f) Transactions in Foreign Currencies**

Transactions in foreign currencies are recognized by their exchange value in Euros, by using the spot exchange-rate for the dates on which they occur.

On the close of each financial year, monetary items are valued by applying the average spot exchange-rate on that date. Exchange differences, both positive and negative, which result from this process, as well as those generated on selling off equity items, are recognized in the Consolidated Profit and Loss Account for the financial year in which they arise.

#### **g) Profit Tax**

Profit tax is recognized in the Consolidated Profit and Loss Account or directly in the Consolidated Equity depending on where the gains or losses giving rise to it are recognized. Profit tax for each financial year includes both current and deferred taxes, where appropriate.

The current tax amount is the sum to be paid by the companies as a result of the assessment notices for the tax.

Differences between the book value of assets and liabilities, and their tax base, generate the deferred tax asset or liability tax balances which are calculated using the expected tax rates at the time of their reversal, and under the method in which it can be reasonably expected to recover or pay the asset or liability.

Variations arising during the financial year in deferred tax asset or liability are recognized either in the Consolidated Profit and Loss Account or directly in the Consolidated Equity, as appropriate.

Deferred tax assets are only recognized insofar as it is probable that the company will have future tax gains that allow these assets to be applied.

In each closing balance sheet the book value of the recognized deferred tax assets is analyzed and the necessary adjustments are made insofar as there are doubts over their future tax recoverability. Likewise, in each closing non-recognized deferred taxes are assessed in the balance sheet and these are subject to recognition to the extent that their recovery with future tax benefits is probable.

#### **h) Income and Expenses**

Income and expenses are allocated according to the accrual basis, i.e. where the real flow of goods and services occurs which these represent, irrespective of when the monetary or financial flow deriving from them occurs.

Income resulting from the sale of goods and provision of services is valued by the fair value of the consideration, received or to be received, that derives from these, which, unless there is evidence to the contrary, is the agreed price for these goods or services, less the amount of any discount, reduction or other similar items, as well as the interest incorporated into the face value of the credits.

Income from services is recognized when the result of the transaction can be estimated reliably, considering the percentage of completion of the service at the year-end date. Consequently, only income from the provision of services is accounted for when all and each of the following conditions:

- a) The amount of the income can be reliably valued.
- b) It is probable that the Group receives financial benefits or profits arising from the transaction.
- c) The extent of the transaction carried out, on the date of closure of the financial year, can be reliably valued, and
- d) The costs already incurred in the service's provision, as well as those that are yet to be incurred up to its completion, can be reliably valued.

**i) Provisions and Contingencies**

Debentures existing at the close of the financial year, resulting from past events which may occasion loss in equity for the Group, and whose value and time of cancellation are indeterminate, are recognized on the consolidated balance sheet as provisions and are valued by the current value of the best possible estimate for the amount necessary to cancel the obligation or transfer it to a third party.

**j) Grants, Donations and Legacies**

Non-refundable capital grants, as well as donations and legacies, are valued by the fair value of the amount granted or of the goods received. They are initially allocated directly as income in the Consolidated equity and recognized in the Consolidated Profit and Loss Account in proportion to the amortization undergone over the period by the assets financed through these grants, unless these are non-depreciable assets, in which case they will be allocated to the earnings of the financial year in which their alienation or de-recognition takes place.

Grants intended for cancelling debts are allocated as income for the financial year in which the cancellation occurs, unless they are received for a specific financing, in which case the allocation is made according to the item that is financed.

Refundable grants are recognized as long-term debt convertible into subsidies until they become non-refundable.

Operation grants are credited to the earnings of the financial year when they accrue.

**k) Related-Party Transactions**

In general, items forming the subject matter of a related-party transaction are initially recognized by their fair value. The subsequent valuation is made in accordance with the provisions laid down in the corresponding regulations.

## **I) Cash-Flow Statements**

Cash-flow statements use the following expressions according to the meanings given below:

**Cash and Equivalents:** Cash is both cash in hand and demand deposits. Cash equivalents are financial instruments forming part of the Group's normal cash management, are convertible into cash, have initial maturities no greater than three months and are subject to little significant risk of change in their value.

**Cash Stream-flows:** inflows and outflows of cash or other equivalent resources, with the latter being understood as investments having terms under three months, high liquidity and low risk of changes in value.

**Operating Activities:** these are the activities that make up the principal source of the Group's ordinary income, as well as other activities that cannot be classified under investment or financing.

**Investment Activities:** acquisition, alienation or disposal by other means of long-term assets and other investments not included in cash or cash equivalents.

**Financing Activities:** activities that lead to changes in the size and composition of the equity and financial liabilities.

## **NOTE 4. MINORITY INTEREST**

### b) Breach of Contractual Obligations

No incidence has been produced in breach of the obligations relating to the loans received from third parties.

## 9.3) Guarantees

The Group has contracted guarantees with a financial institution for a total amount of 406.505,06 euros, a standard instrument when signing an interconnection agreement.

**NOTE 10. INFORMATION ON THE DEFERMENT OF PAYMENTS MADE TO SUPPLIERS. THIRD ADDITIONAL PROVISION. "DUTY TO INFORM" OF LAW 15/2010, OF JULY 5**

As indicated in the third additional provision. Duty to inform of Law 15/2010, of July 5 (modified by Law 31/2014), to amend Law 3/2004 of December 29, by which are established measures to combat late payment in commercial transactions and with regard to the resolution January 29, 2016, of the Institute of Accounting and Audit Statements, about the information to include in the Notes to the Annual Accounts with regard to the average payment period to suppliers in commercial transactions, is as follows:

**NOTE 11. INFORMATION ON THE NATURE AND LEVEL OF THE RISK FROM FINANCIAL INSTRUMENT**

Group activities are exposed to various types of financial risk, most especially credit, liquidity and market risks (exchange rate, interest rate and other price risks).

**11.1) Credit Risk**

The Group's main financial assets are cash and cash balances, trade and other receivables and investments, which represent the Group's maximum exposure to credit risk in relation to financial assets.

The Group's credit risk is attributable mainly to its commercial debts. The amounts are reflected in the net balance of provisions for bad debts, estimated by the Parent Company's management based on the experience of previous years and its assessment of the current economic environment.

**11.2) Liquidity Risk**

The general situation of financial markets, especially the banking market, has been particularly unfavourable for credit claimants. The Group pays constant attention to the evolution of the different factors that can help to solve liquidity crises, and especially to the sources of financing and their characteristics.

### **11.3) Market Risk**

The general market situation during the last years has been unfavourable due to the difficult economic situation of the environment.

### **11.4) Exchange Rate Risk**

The Group is not exposed to a significant exchange rate risk and therefore does not trade in hedging instruments.

### **11.5) Interest Rate Risk**

Changes in interest rates modify the fair value of assets and liabilities bearing a fixed interest rate as well as the future flows of assets and liabilities referenced to a variable interest rate.

The objective of interest rate risk management is to achieve a balance in the debt structure that will minimize the cost of debt over the multiannual horizon with a reduced volatility in the Profit and Loss Account.

## **NOTE 12. EQUITY**

### **12.1) Share Capital of Parent Company**

#### **12.1) Share Capital**

### Tax Situation

In accordance with current legislation, tax payments cannot be considered final until they have been inspected by the tax authorities, or until the statute barring period of four years has passed. In consequence, for the purposes of subsequent inspections, liabilities may arise additional to those recorded by the Group.

As of December 31, 2019, the Group has open to tax inspection all the taxes to which it is subject from the financial year 2016 to the 2019 financial year. Consequently, as a result of possible inspections, additional liabilities could arise to those registered by the Group. However, the Directors of the Parent Company and its tax advisors consider that such liabilities, if they occur, would not be significant on the annual accounts taken as a whole.

#### **NOTE 16. INFORMATION ON THE ENVIRONMENT**

The Group has no assets, nor has it incurred expenses, aimed at minimizing the environmental impact and protecting and improving the environment. There are likewise no provisions for risks and expenses and no contingencies relating to protection and improvement of the environment.

#### **NOTE 17. SUBSEQUENT EVENTS**

Since December 2019, COVID-19 a new strain of Coronavirus spread too many countries, including Spain as of January 2020. This situation has a great impact on the global economic activity and as a result on the operations and financial results of the Group.

The extent to which the Coronavirus will impact results will depend on future developments that cannot be reliably forecasted; inter alia, the steps taken to contain coronavirus disease and to mitigate its economic impact in affected countries.

The Group has taken measures to limit exposure by switching to remote work and its operations are fully and effectively developed in this environment. The impact on the business will depend on the duration of this public emergency and on future events, although so far it is estimated that the impact during the extension of this exceptional situation is near zero, mainly focused on the SMS business line. Sales of registered electronic communications are experiencing an increase due to the new demand that has arisen as a result of the country's lockdown and the recommendation of telecommuting. The global effect of this pandemic on the results of the financial year 2020 will depend on how long this situation will take as well as on the subsequent resilience of the markets.

Since this is a temporary situation, and taking into account the scenarios based on current estimates and the cash position to date, the directors consider they do not compromise the ongoing concern principle and its potential impact, if any, it will be prospectively recorded in the annual accounts for the financial year 2020.

**CONSOLIDATED DIRECTORS' REPORT FOR**  
**THE FINANCIAL YEAR 2019**

In compliance with the provisions of the Corporations Law, the directors present below the management report for the year, in order to complement, expand and comment on the balance sheet, the profit and loss account and the report corresponding to fiscal year 2019.

**1. EVOLUTION OF RESULT AND NET TURNOVER**

In 2019, sales increased by 11% to 13.6 million euros. The growth is marked by the SMS Wholesale line, which aggregates SMS sales to carriers and aggregators. The 14% increase, with a volume of 7.5 million euros, is due to the new agreements signed with Asian customers, as well as the increase in the historical product lines.

In relation to the SaaS line, which encompasses both certification, contracting and data validation, we have an increase of 469 thousand euros. The year 2018 was marked by the implementation of the new RGPD regulations, which led to an extraordinary peak in all the company's sales.

SMS sales are the ones that leave the company with the lowest margins, therefore, the most important weight of sales of the SaaS line has led, that the increase in sales of 11% has translated into an increase in the margin of 17%, one million euros in absolute variation.

In terms of SaaS sales, the company is making a major effort to recruit both technical and commercial staff. The aim is to provide an outlet for more complete standard products, which will enable exponential growth in sales. The current time of maturation of a complex circuit can be extended up to 6 months. The new functionalities that we are introducing to the standard products meet the expectations of a greater number of potential customers who are put into production immediately, instead of going through customised processes.

We have increased the number of staff in order to increase our productivity. Specifically the area of R+D+i and project management with the aim of improving both the processes and the functionalities of the products. The search for talent is an indispensable feature within the company's growth project and is also reflected in the investment it is making in R&D&I at a cost of 934,000 euros. The investment in R&D is aimed at strengthening the range of products we offer in order to continue being a key player in the sector, differentiating us by our innovation, adaptability to customer needs and reliability.

Increase of 8% in the costs of external services, derived from the expenses inherent in the incorporation of personnel, and for the participation in a greater number of international events.

The company, continuing with its growth plans and implementing the necessary expansion strategies that we have mentioned, has managed to increase its EBIDTA by 34% thanks to the increase in sales and margin.

## **2. SUBSEQUENT EVENTS**

Since December 2019, COVID-19 a new strain of Coronavirus spread too many countries, including Spain as of January 2020. This situation has a great impact on the global economic activity and as a result on the operations and financial results of the Group.

The extent to which the Coronavirus will impact results will depend on future developments that cannot be reliably forecasted; inter alia, the steps taken to contain coronavirus disease and to mitigate its economic impact in affected countries.

The Group has taken measures to limit exposure by switching to remote work and its operations are fully and effectively developed in this environment. The impact on the business will depend on the duration of this public emergency and on future events, although so far it is estimated that the impact during the extension of this exceptional situation is near zero, mainly focused on the SMS business line. Sales of registered electronic communications are experiencing an increase due to the new demand that has arisen as a result of the country's lockdown and the recommendation of telecommuting. The global effect of this pandemic on the results of the financial year 2020 will depend on how long this situation will take as well as on the subsequent resilience of the markets.

Since this is a temporary situation, and taking into account the scenarios based on current estimates and the cash position to date, the directors consider they do not compromise the ongoing concern principle and its potential impact, if any, it will be prospectively recorded in the annual accounts for the financial year 2020.

### **3. PROBABLE EVOLUTION OF THE GROUP**

The forecasts for 2019 are to increase the company's gross margin by amounts, reinforcing sales of certified products through the consolidation of products at an international level.

### **4. RESEARCH ACTIVITIES**

In 2019, the Company invested 935 thousand euros in research activities aimed mainly at the company's certification line.

### **5. OPERATIONS WITH OWN SHARES**

In accordance with the regulations of the Alternative Stock Market, the company signed a liquidity agreement with the placing bank as part of its market launch. This agreement establishes both the delivery of a certain amount of own shares and the deposit of an amount of cash. The objective of this contract is to allow investors to trade the company's shares, ensuring that any interested person has the possibility of buying or selling shares.

On August 12, 2016, the Board of Directors approved the acquisition of own shares for a maximum amount of 200 thousand euros. The programme was extended until 1 June 2020 following the agreement of the Board of Directors on 30 July 2019.

On June 19th, the company Eiffel Investment Group bought 1,215% of Lleida.net shares at a price of 0.90 euros per share. Likewise, 75 thousand treasury shares were sold at a price of 0.90 euros per share to GVC Gaesco.

As of 31st December 2019, the company had 729.869 shares with a valuation on that date of 730.862,48 euros, which represented 4,55% of Lleidatnetworks Serveis Telemàtics, S.A. shares.

## **6. FINANCIAL INSTRUMENTS**

During 2019, the Company has not used instruments related to financial derivatives.

## **7. DEFERMENT OF PAYMENT TO SUPPLIERS**

The information relating to deferrals of payment to suppliers is shown in the consolidated annual accounts in Note 10.
