Relevant event:

The Football League (La Liga) engages Lleida.net Registered Delivery services for the audio-visual marketing rights outside Spain

Under the provisions of Article 17 of the Regulation (EU) No 596/2014 regarding market abuse and article 228 of the modified text of the Spanish Stock Market Act, approved by Spanish Royal Legislative Decree 4/2015, of 23 October and related provisions, as well as Circular 06/2018 of the Spanish Alternative Investment Market (MAB), we are hereby informing you of the following information relating to LLEIDANETWORKS SERVEIS TELEMÀTICS, S.A. (hereinafter, "Lleida.net" or the "Group").

The Football League (La Liga) engages the services of registered delivery of emails for the audio-visual marketing rights outside Spain.

Email registered delivery service allows you to prove the delivery and content of an email at a given time to a given address and it is built on a technology patented by Lleida.net globally.

This SaaS service is the result of the continuous effort in R & D & I that the company develops and, despite not being able to quantify at this stage the amount of the contract since the service is charged for units received, it opens up a new market, i.e. the tool for the audio-visual marketing rights, since so far the service is used in banking, insurance and state services.

We are available for any clarifications needed

Sincerely

Francisco Sapena Soler

CEO and Chairman of the Board of Directors
