**Credicorp Capital contracts Lleida.net eKYC onboarding, contracting and registered electronic notification services**

Under the provisions of Article 17 of the Regulation (EU) No 596/2014 regarding market abuse and article 228 of the modified text of the Spanish Stock Market Act, approved by Spanish Royal Legislative Decree 4/2015, of 23 October and related provisions, as well as Circular 6/2018 of the Spanish Alternative Investment Market (MAB), we are hereby informing you of the following information relating to LLEIDANETWORKS SERVEIS TELEMÀTICS, S.A.: (hereinafter, “Lleida.net” or the “Company”):

Credicorp Capital contracts Lleida.net eKYC onboarding, contracting and registered electronic notification services for its customers. Credicorp Capital is the result of the merger of three leading institutions in Latin America: Credicorp Capital Peru (former BCP Capital), Credicorp Capital Colombia (former Correval) and Credicorp Capital Chile (former IM Trust) forming a regional platform devoted to providing financial advisory services, especially in the areas of Corporate Finance, Asset and Wealth Management, and Capital Markets.

The eKYC onboarding (electronic Know Your Customer) service is a system developed by Lleida.net enabling the identification through video call via mobile or computer. It records the video session, requests the ID documents to the user, checks its integrity, fills out a document for instance, a contract, an affidavit or any other document, and finally it is electronically signed, generating the documentary evidence for the whole transaction with all its documents being able to simultaneously contrast the information provided by the client with the government databases.

The system is used and implemented in organizations with remote identification and contracting needs anywhere in the world, such as banks, insurance companies and regulatory bodies.

We remain at your disposal for any clarifications you may require.
