Other relevant information
LLEIDANETWORKS SERVEIS TELEMÀTICS, S.A.

The United States grants its fifth patent

Under the provisions of Article 17 of the Regulation (EU) No 596/2014 regarding market abuse and article 228 of the modified text of the Spanish Stock Market Act, approved by Spanish Royal Legislative Decree 4/2015, of 23 October and related provisions, as well as Circular 6/2018 of the Spanish Alternative Investment Market (MAB), we are hereby informing you of the following information relating to LLEIDANETWORKS SERVEIS TELEMÀTICS, S.A.: (hereinafter, “Lleida.net ”or the “Company”):

The US Patent Office has granted the Spanish listed company Lleida.net (BME: LLN; EPA: ALLLN) a new patent, a few weeks from its IPO in New York. The patent corresponds to the company's method for the Certification of email that contains a qualified electronic signature called **‘METHOD FOR THE CERTIFICATION OF ELECTRONIC MAIL CONTAINING A RECOGNISED ELECTRONIC SIGNATURE ON THE PART OF A TELECOMMUNICATIONS OPERATOR’** under the number **10.790.986**. The concession is for 20 years.

The method with a qualified electronic signature has the advantage of maintaining the integrity of qualified electronic signatures in the body of the email, which is not possible with traditional registered email methods.

This is the 186th worldwide patent granted to Lleida.net on online registration, notification, and contracting, being one of the biggest patent portfolios in the industry worldwide.

We remain at your disposal for any clarifications you may require.

Best regards,
Madrid, 6 October 2020.
