Other relevant information

LLEIDANETWORKS SERVEIS TELEMÀTICS, S.A.
Lleida.net will provide Generali with electronic registered services to contract, manage and notify its insurance policies

Under the provisions of Article 17 of the Regulation (EU) No 596/2014 regarding market abuse and article 228 of the modified text of the Spanish Stock Market Act, approved by Spanish Royal Legislative Decree 4/2015, of 23 October and related provisions, as well as Circular 3/2020 of BME MTF Equity on information to be provided by Growing Companies, we are hereby informing you of the following information relating to LLEIDANETWORKS SERVEIS TELEMÀTICS, S.A.: (hereinafter Lleida.net, or the Company or the Company) brings to your attention the following information that has been prepared under the exclusive responsibility of the issuer and its administrators:

Grupo Generali España A.I.E. has engaged Lleida.net, electronic contracting and notification services for the contract management of its insurance services.

Generali is one of the main players in the Spanish insurance market with more than 2,000 employees and one of the largest networks of advisers in the country, with more than 1,600 service offices and 10,000 professionals. The insurance solutions offered by Generali cover both Life products (from savings insurances and pensions plans to Unit-Linked products) and Non-Life (Cars, Home, Accidents, death insurance, etc)

The new socio-economic environment and the new habits caused by the Covid-19 pandemic make it difficult to use classic delivery methods, signature of notifications and contracts due to the refusal to do it in person, therefore these are being replaced by telematic contracting and notification procedures, as those patented and developed by Lleida.net.

We are available for any clarifications needed

Sincerely,
Francisco Sapena Soler
CEO and Chairman of the Board of Directors
