Lleida.net council, meeting online on February 26, has decided to create a second subsidiary in Dubai called 'Lleidonet SaaS Services' that will be responsible for the distribution of Lleida.net registered services in the African geographical area and the Middle East.

This new subsidiary, that will be launched immediately, will be the structuring of new contracts arising with large postal operators in North Africa, Sub-Saharan Africa, and the Middle East, which we are already actively working with.

The first subsidiary to be established in Dubai, called ‘Lleidonet Dubai LLC’ has been an exclusive contracted by Emirates Post for the distribution of Lleida.net services in the Emirates.

Lleida.net already has as clients 6 national postal operators in Latin America, South Africa, and the Middle East, since traditional postal operators are proving to be the great potential clients of Lleida.net technologies since they allow them to digitize their functions adapting them to the current environment and needs.

We are available for any clarifications needed.
