Two new awards confirm the relevance of Lleida.net's notification services in administrations

Under the provisions of Article 17 of the Regulation (EU) No 596/2014 regarding market abuse and article 228 of the modified text of the Spanish Stock Market Act, approved by Spanish Royal Legislative Decree 4/2015, of 23 October and related provisions, as well as Circular 3/2020 of BME MTF Equity on information to be provided by Growing Companies, we are hereby informing you of the following information relating to LLEIDANETWORKS SERVEIS TELEMÀTICS, S.A.: (hereinafter "Lleida.net", or the "Company "or the "Enterprise") brings to your attention the following information that has been prepared under the exclusive responsibility of the issuer and its administrators:

Lleida.net has been the successful bidder for the notification services of Unión de Mutuas (MCSS nº 267) and Asepeyo (MCSS nº 151). Both Mutual Societies should now use the company's communications services to notify mutual members on any information related to the services they provide.

These awards confirm the trend in the use of registered electronic services by companies that provide public services, where dynamic communication is necessary and where the communication need to be proved. The company expects that the registered services used by public companies or public services may multiply by four this year in the markets where Lleida.net provides services globally.

We remain at your disposal for any clarifications you may require.

Sincerely,

Madrid, 15 March 2021.

Francisco Sapena, CEO

Chairman of the Board of Directors
