operators.**

Under the provisions of Article 17 of the Regulation (EU.) No 596/2014 regarding market abuse and article 228 of the modified text of the Spanish Stock Market Act, approved by Spanish Royal Legislative Decree 4/2015, of 23 October and related provisions, as well as Circular 3/2020 of BME MTF Equity on information to be provided by Growing Companies, LLEIDANETWORKS SERVEIS TELEMÀTICS, SA: (hereinafter "Lleida.net", or the "Company" or the "Enterprise") brings to your attention the following information that has been prepared under the exclusive responsibility of the issuer and its administrators:

The technology services company Lleida.net (BME:LLN) (EPA:ALLLN) (OTCQX:LLEIF) has signed agreements with the national postal operators of Gambia, Ivory Coast, Djibouti, Equatorial Guinea and Madagascar under the framework agreement with the Pan African Postal Union, which allows the 55 national postal operators on the African continent to offer digital postal services with Lleida.net's registered communications technology.

Lleida.net has signed the agreement through its subsidiary Lleidanet SaaS Middle East and Africa DMCC and the support of eGate, the company's partner in North Africa.

Founded in 1980, the Pan African Postal Union, under the umbrella of the African Union, was created 40 years ago to coordinate Africa's 55 national postal operators and attract postal innovations to the continent.

The agreement with these five national postal operators almost doubles the number of Lleida.net's postal operator clients (previously, the company had a contract with six of them). The existing ones generate 70% of the total registered email traffic and 25% of the total SaaS services, so these five new ones are expected to double these figures within three years.

We remain at your disposal for any further clarifications you may require.

Sincerely,
Madrid, 16 August 2021.

CEO and Chairman of the Board of Directors
