PRODUCTION OF CLICK & SIGN STANDARD

CLICK & SIGN STANDARD

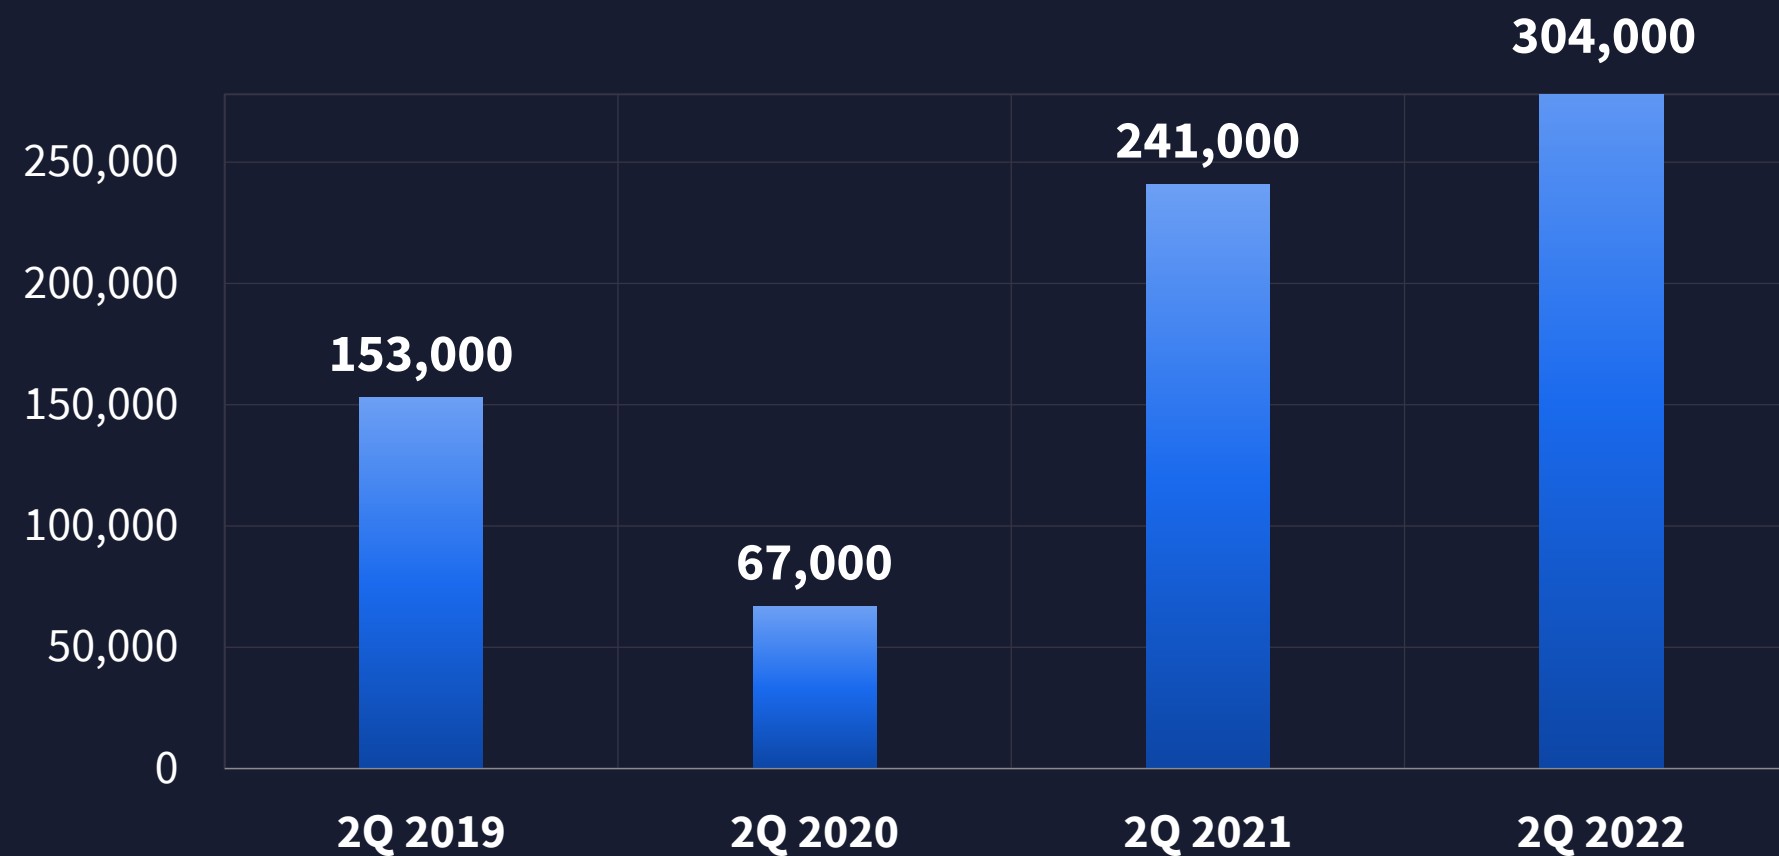

CLICK & SIGN STANDARD

Contract signature outputs generated by APIs remain on an upward trend with an increase of 71.5% compared to Q1 COVID. Most traffic comes from telco and insurance contracts in Europe, consumer finance in Latin America, Spain and Eastern Europe, loan services by fintech in Latin America and healthcare services in Latin America.

Enhancing the use of informed consent.

PRODUCTION OF CLICK & SIGN PRO

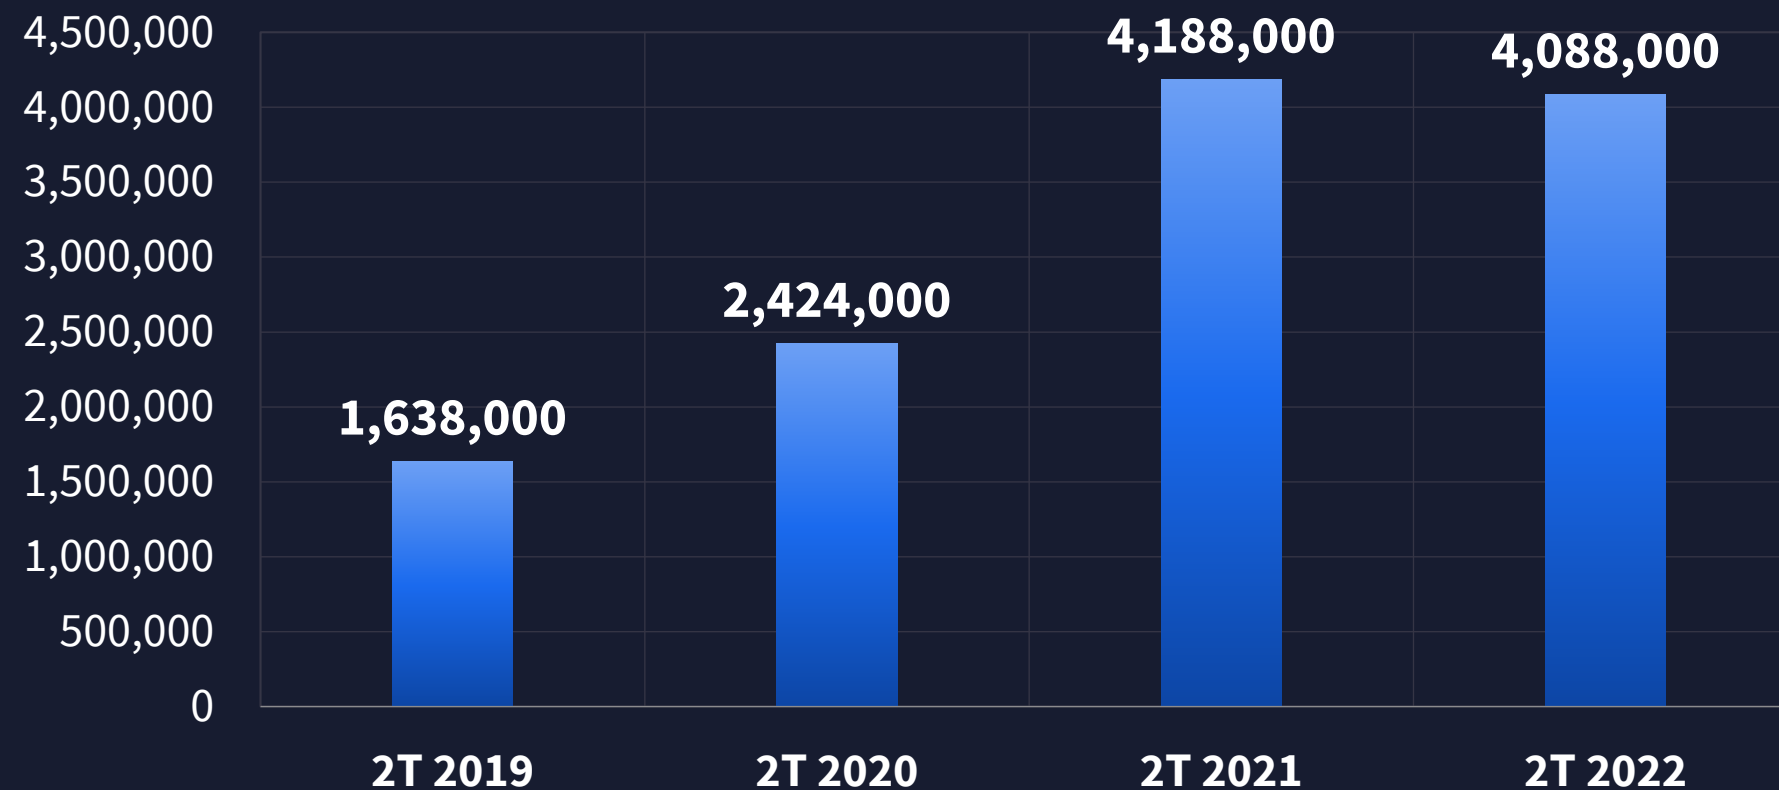

Click & Sign Pro

The so-called PRO workflows are complex contracting processes where several variables are analysed before contracting occurs. The rise in PRO circuits as compared to 2Q2021 stood at 26.14%, driven by the contracting of insurance in Europe and credit cards by Spanish banks, along with car rental compared to 2Q2021 stood at 26.14%, driven by the contracting of insurance in Europe and credit cards by Spanish banks, car rentals, and compliance with the GDPR.

PRODUCTION OF REGISTERED EMAIL

REGISTERED EMAIL

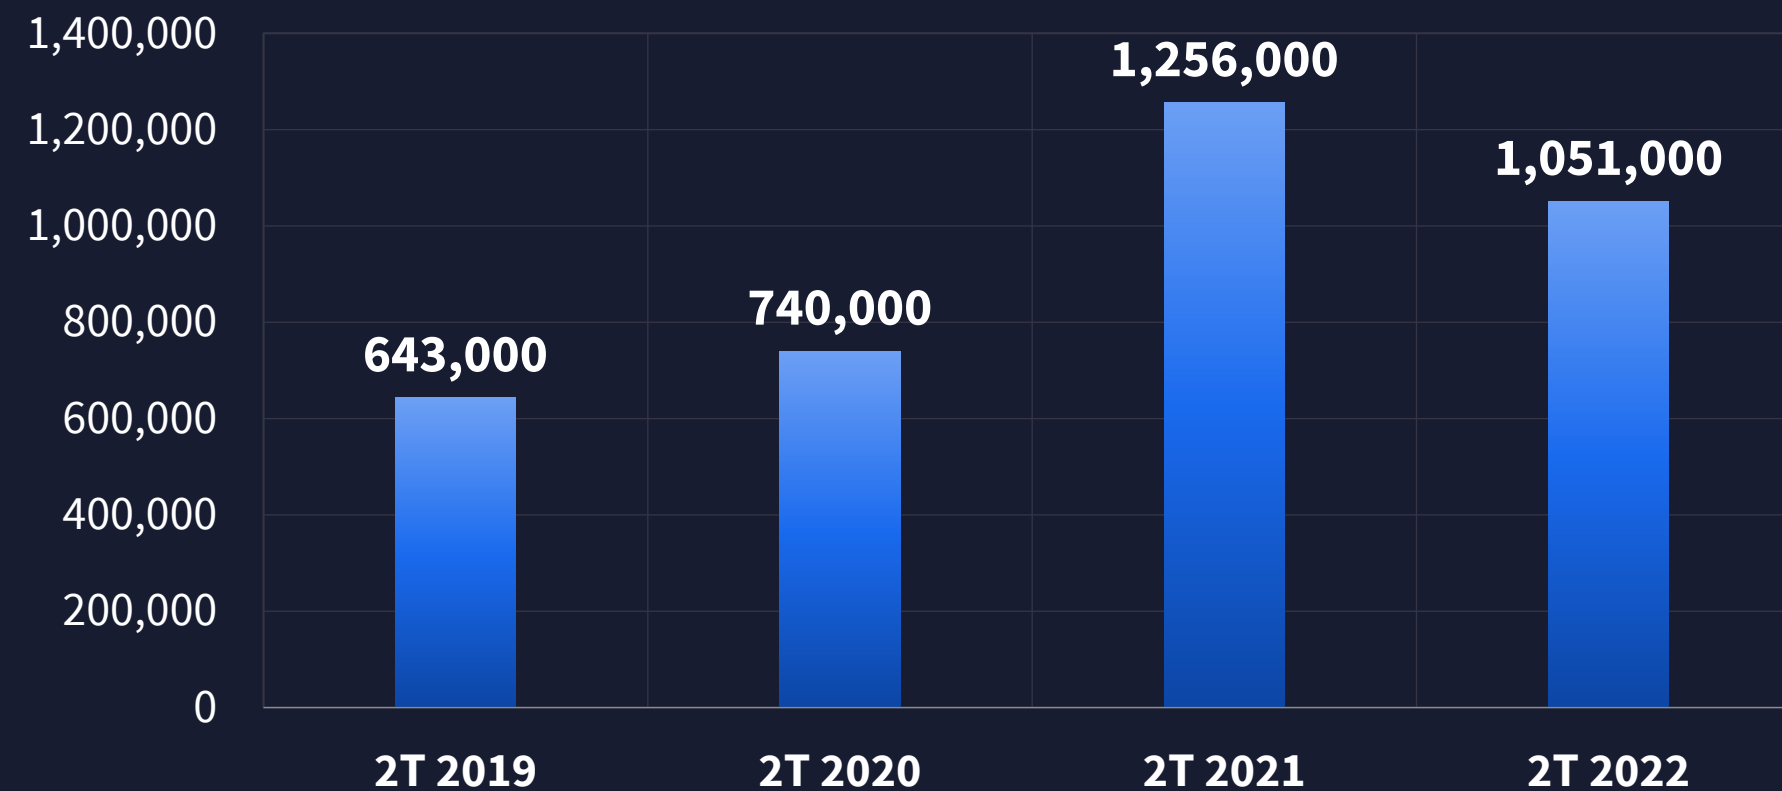

REGISTERED EMAIL

Similar email traffic was generated during 2Q2021. Traffic comes mainly from insurance companies in Latin America, utilities in Europe and Latin America, and notification from government services where Lleida.net provides services.

PRODUCTION OF REGISTERED SMS CONTRACT

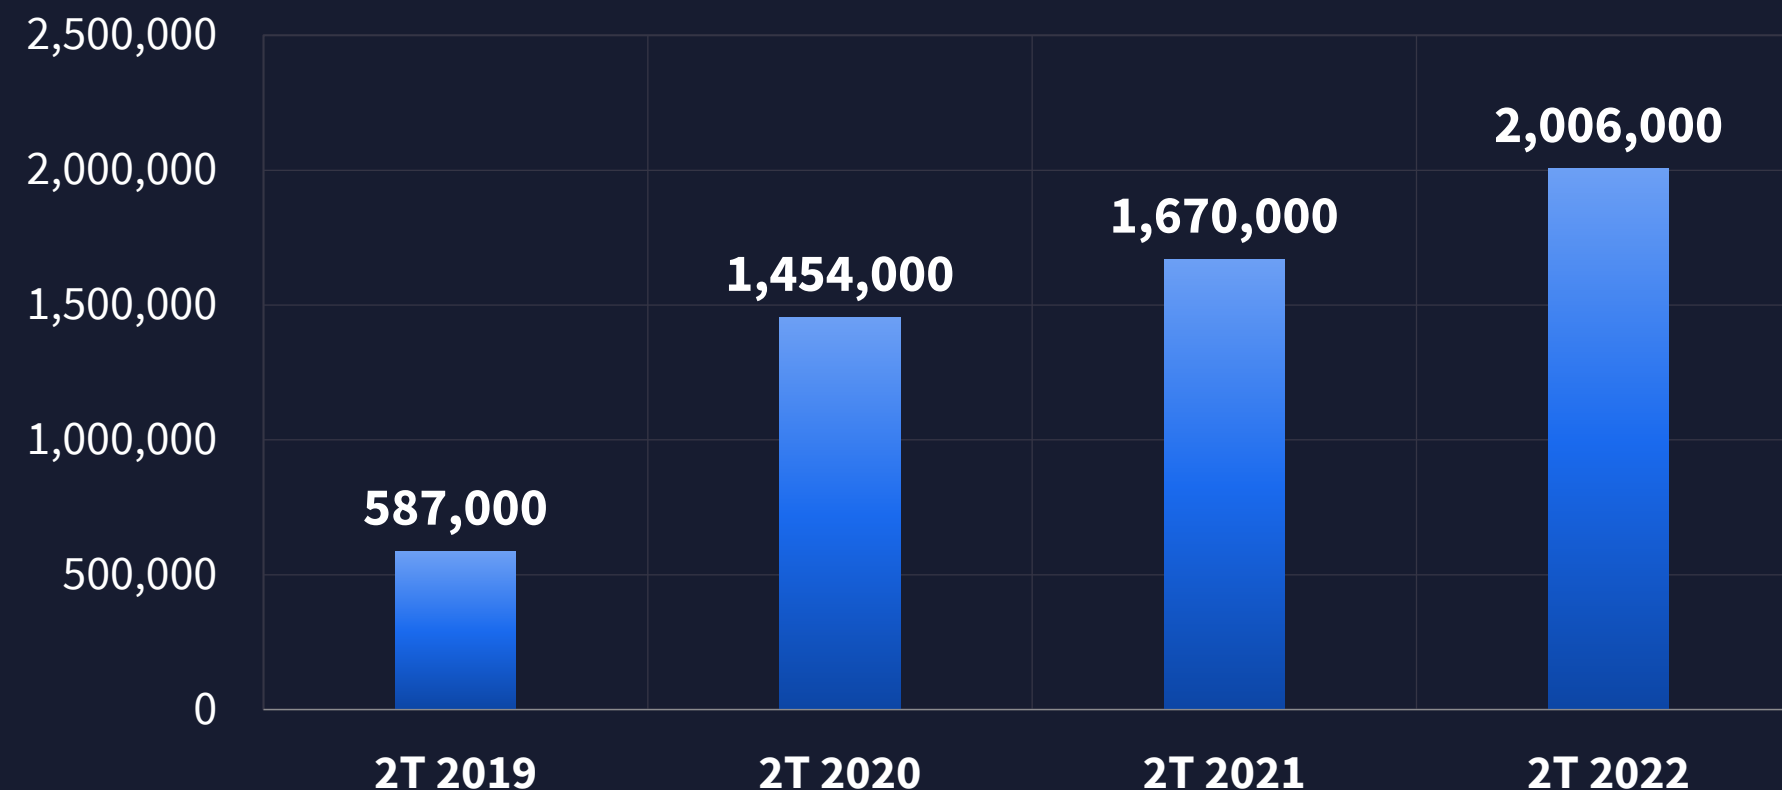

REGISTERED SMS CONTRACT

Registered SMS Contract traffic is slightly reduced in 2Q2022 due to its replacement by Click & Sign standard. Most of them are used to switch gas and electricity companies in Spain and Europe

PRODUCTION OF REGISTERED SMS

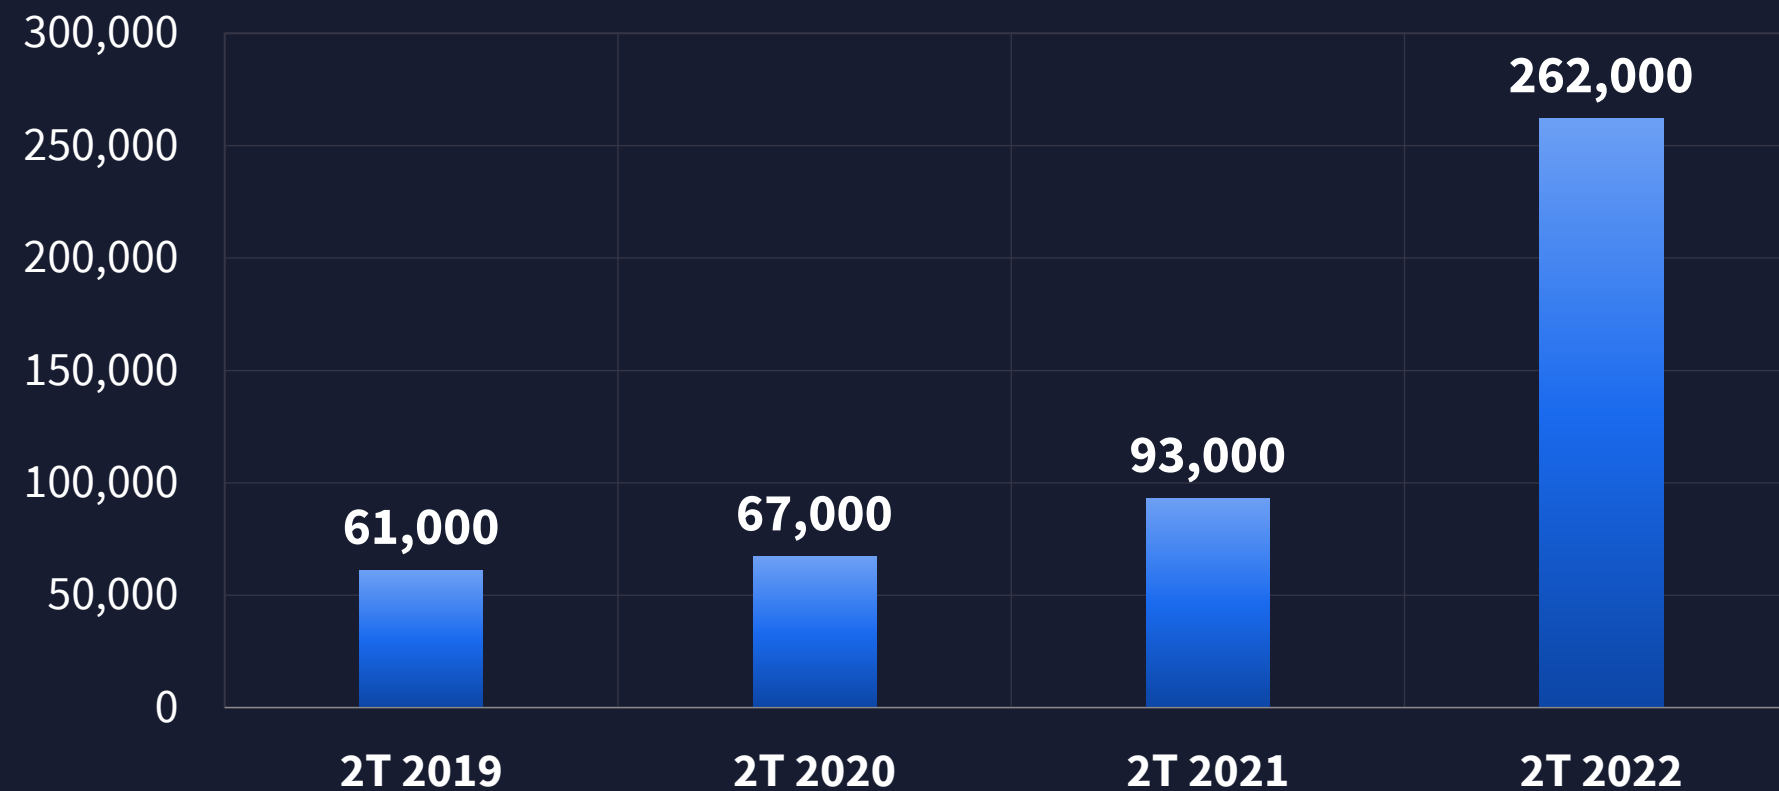

REGISTERED SMS

Registered SMS traffic in 2Q2022 was 20.11% above that generated in 2Q2021. Traffic came primarily from insurance and utility claims in Europe, debit balances in banking, financial defaults, insurance contracts in Europe, and insurance contracts in Europe financing contracts in Spain.

PRODUCTION OF WEB CERTIFICATE

WEB CERTIFICATE

Web Certificate traffic is almost tripled in 2Q2021 as it is used in multiple online insurance companies and online financing processes.

PRODUCTION OF eKYC

eKYC consists of a web-based service to identify and authenticate new users of financial services to submit their documentation and verify it online, along with face liveness detection in Spain and Latin America, increasing by 66% over 2Q2021 traffic.
