

Madrid, April 29, 2024

Other Relevant Information

LLEIDANETWORKS SERVEIS TELEMÀTICS S.A.

Comparison with data from 2022, presentation of audit and consolidated financial statements 2023, presentation of audit and individual parent company accounts 2023, and presentation of the organizational structure.

In accordance with the provisions of Article 17 of Regulation (EU) No. 596/2014 on market abuse and Article 227 of Law 6/2023, of 17 March, on Securities Markets and Investment Services, and concordant provisions, as well as Circular 3/2020 of the BME Growth segment of BME MTF Equity on information to be provided by Companies in Expansion, hereby LLEIDANETWORKS SERVEIS TELEMÀTICS S. A.: (hereinafter "Lleida.net, or the "Company" or the "Company") hereby informs you of the following information, which has been prepared under the sole responsibility of the issuer and its directors. The information detailed in this report is a summary of Lleida.net's Consolidated Income Statement for 2023 and has been prepared on the basis of audited accounting information available to the Board of Directors.

Lleida.net (BME:LLN) (EPA:ALLLN) (OTCQX:LLEIF) sales declined by 20 percent in 2023 as a result of the negative evolution of the company's activity in Latin America and the change of trend in the SMS market.

In the year, the company sold €16.4 million, compared to €20.6 million at year-end 2022, or a reduction of €4.2 million. The only business line that grew was that of certified electronic contracting.

In financial terms, the company recorded an after-tax result of 2.65 million euros loss in 2023, compared to the 515,000 lost in 2022.

Last November 3rd, the company announced a restructuring plan, which included the dismissal of a significant part of its workforce, and the announcement of significant cuts in external suppliers, marketing, production, and the closure and sale of several subsidiaries.

The company attaches presentation of 2023 audited data with comparative 2022 data as well as:

- Audit Report and Consolidated Financial Statements 2022.
- Audit Report and Individual Financial Statements 2022.
- Report on organizational structure and internal control system.

We remain at your disposal for any further clarification you may require.

Sincerely,

In Madrid, April 29, 2024

Francisco Sapena Soler

CEO and Chairman of the Board

2023 RESULTS PRESENTATION

DISCLAIMER

Pursuant to the provisions of Article 17 of Regulation (EU) No. 596/2014 on market abuse and Article 227 of Law 6/2023, of 17 March, on Securities Markets and Investment Services, and concordant provisions, as well as Circular 3/2020 of the BME Growth segment of BME MTF Equity on information to be provided by Companies in Expansion, hereby LLEIDANETWORKS SERVEIS TELEMÀTICS S. A.: (hereinafter "Lleida.net, or the "Company" or the "Company") hereby informs you of the following information which has been prepared under the sole responsibility of the issuer and its directors. The information detailed in this report constitutes a summary of the Consolidated Income Statement of Lleida.net for the third quarter and the accumulated data for 2023 and has been prepared on the basis of the audited accounting information available to the Board of Directors.

Overall, 2023 was not a good year for Lleida.net.

- ✘ 2023 finished on negative terms, with a 20% loss in sales. That is consistent with the quarterly results disclosed during the year.**
- ✔ We were affected by a tech change (a drop in the SMS consumption rate), by a commercial problem (we cut-off 4-72's service as a consequence of their delayed payment) and by an overrun of expenses that we had to cut.**

- ✘ In terms of **gross margin, we lost 1.575 million euros** (15%) compared to the same period of the previous year.
- ✘ **EBIDTA fell sharply** to 84,000 euros.
- ✘ Income before taxes was a **loss of 2.72 million euros**.

Overall, 2023 was not a good year for Lleida.net.

In prevention, we started taking measures last November.

LAST NOVEMBER WE ANNOUNCED:

Labor force layoffs at the Lleida and Madrid centers.

Personnel cuts in international subsidiaries: PKI, Peru and Colombia.

Reduced participation in fairs and events.

Significant reduction of external contracting.

WE ALSO CHANGED SHIFTED OUR FOCUS:

Increasing Profitability Through Process Optimization, automating procedures and focusing sales on standard products.

Focus on Standard Products to Reduce Technical Development Time, and maximize the profitability scope of our R&D.

Focus on standard solutions beyond tailor-made projects

Redesign of Commercial Verticals, focus on EU and Latam markets.

And we modified our international strategy

SUBSIDIARIES

Closure of unprofitable subsidiaries. United Kingdom, Costa Rica and South Africa would be closed. The offices in the United States and the United Arab Emirates (Dubai) would be become virtual offices.

OPERATORS

Closure of operators in countries with low traffic: United Kingdom and France.

FOCUS

Focus SaaS sales in countries with a solid customer base: Peru, Colombia, Dominican Republic.

EUROPE

More and more focus on developing new larger SaaS contracts in Europe.

By the last quarter of 2023 we already started to implement changes:

- **Adjustments of expenses in the group after ERE in December 2023 and layoffs in Latin America.**
- **Complete review of expense items.**
- **Increased sales by more consumption of regular customers and attracting new accounts.**
- **Launch of new hybrid products with Lleida.net PKI, S.L.U. technology.**

**We stand by our Recovery Plan,
to be executed in two years**

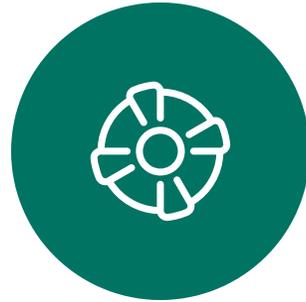

2023-2025

Reminder: Our strategy for 2023-2025.

Streamlining our operations

Following the appointment of new division managers, the focus is on optimizing teams and internal processes, automating procedures, and promoting technology to increase sales and margins;

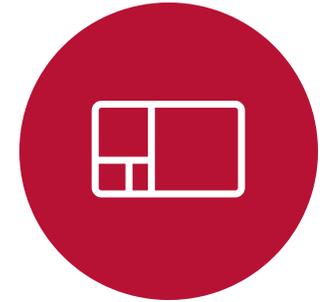

Focus on Profitability

Concentrate our efforts on the business areas that generate the most profitability, and on the markets where we have the greatest penetration;

Recovering our value

To recover the company's value in the capital markets and regularly communicate our progress to investors;

Rational for the Restructuring

We have restructured to improve cash generation, smooth financing, optimize operating performance and improve cash position.

Thank you.

**AUDIT REPORT ON THE CONSOLIDATED ANNUAL ACCOUNTS
ISSUED BY AN INDEPENDENT AUDITOR**

Audit report on the consolidated financial statements issued by an independent auditor

To the Shareholders of LLEIDANETWORKS SERVEIS TELEMÀTICS, S.A.:

Opinion

We have audited the consolidated financial statements of **LLEIDANETWORKS SERVEIS TELEMÀTICS, S.A.** (the Parent) **AND ITS SUBSIDIARIES** (the Group), which comprise the consolidated balance sheet as of December 31, 2023, the consolidated income statement, the consolidated statement of changes in equity, the consolidated statement of cash flows and the notes to the consolidated financial statements for the year then ended.

In our opinion, the accompanying consolidated financial statements give, in all material respects, a true and fair view of the Company's equity and financial position at December 31, 2023, as well as its consolidated results and cash flows for the financial year ending on said date, in accordance with the application of the regulatory framework of financial information (identified in note 2.a of the consolidated annual report) and, in particular, with the accounting principles and criteria contained therein.

Basis of opinion

We have performed our audit in accordance with the regulations governing the auditing of accounts in force in Spain. Our responsibilities under these standards are described below in the section on the *Auditor's responsibilities for the audit of the consolidated annual accounts in our report*.

We are independent from the Group in accordance with the ethical requirements, including those of independence, which are applicable to our audit of the financial statements in Spain as required by the regulations governing the activity of auditing accounts. Accordingly, we have not provided services other than those of the audit of accounts nor have concurred situations or circumstances that, in accordance with the provisions of the aforementioned governing regulations, have compromised the necessary independence.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Key audit issues

The key audit matters are matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. Our audit procedures relating to these matters were designed in the context of our audit of the financial statements as a whole, and in the formation of our opinion on these and we do not express a separate opinion on those matters.

Key audit issues	Audit response
<p data-bbox="256 376 782 425">Valuation of capitalized research and development expenditures</p> <p data-bbox="256 465 782 779">As described in notes 3.b and 5 to the accompanying consolidated financial statements, the Group has intangible assets for capitalized research and development project expenses amounting to 2.502 thousand euros. These expenses must be specifically individualised by project and have reasons of economic-commercial profitability, among other requirements in order to be capitalized in the Group's balance sheet. In addition, the assessment by the Parent's management and directors of their recoverable amount or the need for impairment involves value judgements and estimates. For these reasons, we have considered the valuation of these assets to be a key issue in our audit.</p>	<p data-bbox="782 376 1327 425">We have carried out the following audit procedures, among others:</p> <ul style="list-style-type: none"> <li data-bbox="805 465 1327 533">- Understanding of the policies and procedures applied by the Group for the capitalization of research and development expenses. <li data-bbox="805 555 1327 667">- We have analysed a sample of activations of the projects during the year, obtaining evidence such as the hours and cost of the same incurred by the workers in the different projects and the cost of external collaborations. <li data-bbox="805 689 1327 779">- We have obtained the certificates issued by an independent third party on the projects regarding the tax validity of the capitalised amounts. <li data-bbox="805 801 1327 1003">- We have obtained a detail of the book value of research and development expenses individualized by projects and have analysed the reasonableness of the recoverable value of these by reviewing the reasonableness of the assumptions, reviewing the arithmetic calculation, analysing the sales projections, their profitability and checking for deviations from past estimates. <li data-bbox="805 1025 1327 1093">- We have verified the correct amortization of the different projects activated based on the useful life of the projects. <li data-bbox="805 1115 1327 1272">- Finally, we have verified that the notes to the accompanying consolidated financial statements include the related disclosures required by the applicable financial reporting framework. In this respect, Notes 3.b and 5 to the accompanying consolidated annual accounts include the aforementioned disclosures.
<p data-bbox="256 1310 782 1339">Valuation of goodwill on consolidation</p> <p data-bbox="256 1379 782 1518">The accompanying consolidated balance sheet as of December 31, 2023 shows an amount 3.501 thousand Euros in intangible assets, corresponding to the goodwill arising from the acquisition of Lleidanet PKI, S.L. (before Indenova, S.L.) during the year 2021.</p> <p data-bbox="256 1541 782 1675">We focus on this area, due to the amount of its net book value over total assets, and because the assessment by the Group's management and the Parent Company's Board of Directors of its recoverable value or need for impairment involves judgements and estimates.</p> <p data-bbox="256 1697 782 1765">For these reasons, we have considered the recoverable amount of goodwill as a key issue in our audit.</p>	<p data-bbox="782 1310 1327 1361">We have carried out the following audit procedures, among others:</p> <ul style="list-style-type: none"> <li data-bbox="805 1379 1327 1447">- Understanding of the policies and procedures applied by the Group for the valuation of a consolidation goodwill. <li data-bbox="805 1469 1327 1738">- We have assessed the estimates made by the Group's management and by the Parent Company's Board of Directors to determine the recoverable value of the cash generating unit to which the goodwill belongs by reviewing the impairment test provided, analyzing the assumptions contained therein, the methodology applied, the reasonableness of the discount rate used and the reasonableness of the arithmetic calculations, as well as the business plan, to determine the reasonableness of the expected future cash flows. <li data-bbox="805 1760 1327 1917">- Lastly, we have verified that the notes to the accompanying consolidated annual accounts include the related disclosures required by the applicable financial reporting framework. In this regard, notes 3.b. and 5 to the accompanying consolidated annual accounts include the aforementioned disclosures.

Key audit issues	Audit response
<p>Application of the going concern principle</p> <p>Given that the Group has losses at year-end 2023 and 2022 amounting to Euros 2,65 million and Euros 514 thousand, respectively, negative working capital at year-end 2023 amounting to Euros 2,09 million and given the level of indebtedness at year-end of 51% of total liabilities and equity (45% in 2022), it is necessary for the Company to comply with its business plan and cash budget, as well as to obtain new financing in order to be able to continue with its operations. As described in note 2.c of the notes to the consolidated financial statements, the Group has obtained new sales contracts in 2024 with respect to 2023 that will allow it to increase sales in 2024. In addition, certain cost reduction policies were initiated in 2023 that will have their full impact in 2024.</p> <p>These circumstances are factors causing and mitigating doubts regarding the application of the going concern principle in the preparation of the consolidated financial statements, the assessment of which involves making value judgements and estimates. For these reasons, we have considered the application of the going concern principle as a key audit matter.</p>	<p>We have carried out the following audit procedures, among others:</p> <ul style="list-style-type: none"> - Understanding of the policies and procedures applied by the Group in the process of estimating the Business Plan and Cash Budget. - Obtaining the Business Plan and Cash Budget prepared by the Group's management. - Obtaining the supporting documentation relating to the renewal of credit facilities upon maturity. - We have analysed the reasonableness of the estimates and assumptions of the Business Plan and the Cash Budget, made by the directors, by means of meetings with the Management and verification of verifiable data. - We have analysed the degree of compliance with the Cash Budget and the Group's financial position up to the date of this report. - Finally, we have verified that the notes to the accompanying consolidated annual accounts include the related disclosures required by the applicable financial reporting framework. In this regard, note 2.c of the accompanying notes to the consolidated financial statements includes the aforementioned disclosures.

Other information: Management report

The other information comprises exclusively the management report for the financial year 2023, the formulation of which is the responsibility of the Parent's directors and does not form an integral part of the consolidated financial statements.

Our audit opinion on the consolidated annual accounts does not cover the consolidated directors' report. Our responsibility for the consolidated directors' report, as required by the regulations governing the audit activity, is to assess and report on the consistency of the consolidated directors' report with the consolidated annual accounts, based on our knowledge of the Group obtained in the course of the audit of the consolidated annual accounts, and to assess and report on whether the content and presentation of the consolidated directors' report are in accordance with the applicable regulations. If, based on the work we have performed, we conclude that there are material misstatements, we are required to report them.

Based on the work performed, as described in the preceding paragraph, the information contained in the consolidated management report agrees with that in the consolidated financial statements for financial year 2023 and its content and presentation are in accordance with the applicable regulations.

The responsibility of the management and the audit in the respect committee of the consolidated financial statements

The management of the Parent Company are responsible for formulating the accompanying financial statements so that they give a true image of the consolidated assets, the consolidated financial situation and the consolidated results of the Company, in accordance with the regulatory framework on financial information applicable to the Entity in Spain, and of the internal control that they consider necessary to allow the preparation of the financial statements free of material misstatement, due to fraud or error.

In the preparation of the consolidated financial statements, the management are responsible for assessing the Company's ability to continue as a going concern, revealing, as appropriate, the matters related with a company in operation and using the accounting principle of a going concern except if the management intend to liquidate the Company or cease operations, or if there is no other realistic alternative.

The Parent's audit committee is responsible for supervising the preparation and presentation of the consolidated financial statements.

The auditor's responsibility for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance that the consolidated financial statements as a whole are free from material misstatement, due to fraud or error, and to issue an audit report that contains our opinion.

Reasonable assurance is a high level of assurance, but it does not guarantee that an audit conducted in accordance with the regulations governing the audit activity in force in Spain will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the regulations governing the account auditing activity in Spain, we exercise professional judgment and maintain an attitude of professional scepticism throughout the entire audit. Also:

- We identify and assess the risks of material misstatement in the consolidated financial statements, due to fraud or error, design and perform audit procedures to respond to those risks and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or circumvention of internal control.
- We obtain knowledge of the internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- We evaluate the appropriateness of accounting policies used and the reasonableness of the accounting estimates and disclosures by the Parent's directors.
- We conclude whether the use, by the Parent's directors, of the accounting principle of the Group as a going concern is adequate and, based on the audit evidence obtained, we conclude on whether or not there is material uncertainty related to events or conditions that can generate significant doubts about the ability of the Group to continue as a going concern. If we conclude that there is material uncertainty, we are required to draw attention in our audit report to the corresponding information disclosed in the financial statements or, if such disclosures are not adequate, we express a modified opinion. Our conclusions are based on the audit evidence obtained at the date of our audit report. However, future events or conditions may cause the Group to cease to be a going concern.

- We evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- We obtain sufficient appropriate evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated annual accounts. We are responsible for the direction, supervision and performance of the Group audit. We are solely responsible for our audit opinion.

We are required to communicate with the Parent's audit committee regarding, amongst other matters, the planned scope and timing of the audit and significant findings, including any significant deficiencies in internal control that we identify during the course of the audit.

We also required the Parent's audit committee with a statement that we have complied with the relevant ethical requirements, including those of independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Among the matters that have been communicated to the Group's audit committee, we determine those that have been of the greatest significance in the audit of the financial statements for the current period and that are, consequently, the key issues of the audit.

We describe these matters in our audit report unless legal or regulatory provisions prohibit public disclosure of the matter.

Report on other legal and regulatory requirements

Additional report to the Parent's Audit Committee

The opinion expressed in this report is consistent with that expressed in our additional report to the Parent's Audit Committee dated April 29, 2024.

Contract period

The Extraordinary General Shareholders' Meeting held on November 25, 2022 appointed us as auditors for a period of 3 years from the year ended December 31, 2022.

Previously, we were appointed by resolution of the General Shareholders' Meeting for the three-year period and we have been auditing the accounts uninterruptedly since the year ended December 31, 2007, and the Parent Company has been a Public Interest Entity (PIE) since 2015.

Services provided

The services, other than the audit of accounts, provided to the Group are disclosed in Note 21 to the consolidated financial statements.

LLEIDANETWORKS SERVEIS TELEMÀTICS, S.A.
AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED ANNUAL ACCOUNTS
FOR THE FINANCIAL YEAR 2023

NOTE 1. INCORPORATION, ACTIVITIES AND LEGAL SYSTEM OF THE PARENT COMPANY

a) Incorporation and registered Office of the Parent Company

LLEIDANETWORKS SERVEIS TELEMÀTICS, S. A. (hereinafter "the Company"), was incorporated in Lleida on 30 January 1995. On October 7, 2017, the Company approved the change of its registered office located in General Lacy, number 42, Planta Baja - Local I, Madrid. In the previous year its registered office was located in the Parc Científic i Tecnològic Agroalimentari de Lleida, Edificio H1, Planta 2, in Lleida. On 26 October 2021, the board of directors resolved to transfer the company's registered office to Calle Téllez, 56 Local C in Madrid.

On June 30, 2011, the General Shareholders' Meeting resolved the transformation from a Limited Company to a Public Limited Company. On December 12, 2011, the agreement reached at the aforementioned meeting was submitted to the Mercantile Registry on February 17, 2012.

b) Activity of the Parent Company

Its activity consists of acting as a teleoperator of short message service (SMS) management services via the Internet, notification and electronic contracting services, as well as any other activity related to the aforementioned corporate purpose.

c) Activities of the Group Companies

Main activity of the subsidiaries consists in the provision of telecommunications services, the development of programs, the sending of text messages and electronic mail, and the provision of study services and analysis of computer processes in general.

d) Legal System of the Parent Company

Parent Company is governed by its Articles of Association and by the current Corporate Enterprises Act.

e) Quotation in Stock Markets

On June 1st, 2015, the Parent Company approved at the Shareholders' Meeting the request for incorporation into the Alternative Stock Market, currently called BME Growth, of all the shares of the Parent Company.

On October 7th, 2015, the Board of Directors of Bolsas y Mercados Españoles, Sistemas de Negociación, S.A., approved the incorporation of 16.049.943 shares of 0,02 euros nominal value each into the segment of companies in expansion of the Alternative Stock Market, effective as of October 9, 2015. On November 7, 2015, the Parent Company changed its Registered Advisor, appointing GVC GAESCO VALORES SV, S.A. On December 19, 2018, the Company was listed on Euronext Growth Paris under the dual listing system, with Invest Securities being the Listing Sponsor. On November 2, 2020, the Company was listed on the OTCQX market in New York. On September 29, 2021, the company changed its liquidity provider, naming Solventis A.V., S.A.

f) Effect of the conflict in Ukraine

Since February 2022, there has been a conflict in Europe between the nations of Russia and Ukraine. In this sense, the possible effects on the economy in general and on the Group in particular that this conflict may have must be taken into account. The Board of Directors of the Parent Company considers that the main effect that this event has had on the Company's figures has been the increase in electricity prices, whose impact on the company's figures has been an increase of 45 thousands of euros on the expenses during the year 2022. However, in 2023, the company implemented corrective measures by reviewing the corresponding prices, resulting in a reduction of 37 thousand compared to the consumption levels in 2022. Additionally, although the Board of Directors of the Parent Company does not consider that there is a risk of continuity in its activity at the close of December 31, 2023 it must constantly be aware of their evolution and their economic effects in the evaluation of future estimates, the effects of which would be recorded prospectively.

1.1) Group Companies

The Parent Company holds, directly, investments in different national and international companies, and controls, directly, these companies. On January 1st, 2016 the first consolidation of the Group Companies was carried out.

In accordance with the applicable laws and regulations on accounting, the Consolidated Annual Accounts are expressed in euros.

c) Critical Aspects of Uncertainties Valuation and Estimation

In preparing the accompanying consolidated annual accounts, estimates were made by the Parent Company's Board of Directors in order to measure certain of the assets, liabilities, income and expenses reported herein. The estimates and criteria relate to:

- Going concern evaluation:
 - o The Group, as of December 31, 2023, presents a negative working capital of 2.1 million euros, and a debt that represents approximately 83% of its liabilities. To reverse this situation, the Group implemented an intensive cost reduction policy in 2023 which included:
 - Reduction of personnel expenses. In December 2023, the parent company implemented an employment regulation plan, resulting in the reduction of 17 jobs. Additionally, individual dismissals were carried out in the company in Peru and in the branch of Lleida.net PKI in Colombia, as well as in Lleida SAS.
 - Reduction of external service costs, eliminating physical offices, foreign advisors, fairs, business trips, and internal events.
 - Enhancement of the commercialization of standard products for 2024, with lower development costs and higher margins.
 - Focus on international expansion territories, targeting countries where we already have a recurring commercial presence, specifically Spain, Europe, Colombia, Peru, the Dominican Republic, and Peru.

The estimated cost reduction at a consolidated level resulting from all cost adjustments was disclosed in a relevant fact and amounts to 1.380 million euros annually.

The Group's Business Plan, considering all these reductions, aims to achieve a positive EBITDA.

At the beginning of 2024, significant contracts that were not in the sales budget for 2024 were published via a relevant fact, such as the award of lots by Santander Global Technology & Operations S.L for an annual amount of 650 thousand euros for 3 years.

Additionally, on a financial level, the Group has implemented the following measures:

- Renovation of short-term credit lines with banking entities. To date, the Group has renewed 4 of the short positions that were due before the annual accounts were prepared. Efforts are being made to renew the lines that expire in the following months.
- Request for loans from public entities for the financing of R&D projects being carried out for the development of new products.

Furthermore, in current liabilities, there is a debt of 378 thousand euros with former partners which will be paid in the Group's own shares that the parent company has already acquired and are reflected in the company's equity.

At the end of the current financial year, the Group has incurred significant losses amounting to 2.6 million euros, due to a decrease in activity. This fact, combined with the presence of a negative working capital, could indicate uncertainty about the application of the going concern principle in accounting and, consequently, the Group's ability to realize its assets, and liquidate its liabilities, for the amounts stated in the attached balance sheet. However, as described in this same note, the Group has implemented an intensive cost reduction policy in the 2023 financial year, which will have its full effect in 2024, and has also obtained new contracts compared to the previous year that lead them to expect a recovery of income.

Therefore, the Group's administrators have prepared these Annual Consolidates Accounts under the going concern principle, considering that the business plan's compliance and obtaining new financing will allow the Group to address any cash flow tensions that may arise during 2024.

- Reasonableness of capitalisation and recoverability of research projects.
- Reasonableness of the recognition and recoverability of the goodwill arising from the acquisition of Lleida.net PKI, S.L.U. (see note 2.e)
- Patent valuation.
- Recoverability of deferred tax assets.

Although these estimates have been made on the basis of the best information available at year-end 2023, it is possible that future events may make it necessary to change these estimates (upwards or downwards) in future years, which would be done prospectively, recognising the effects of the change in estimate in the corresponding income statement.

The Parent Company's Board of Directors considers that there are no significant uncertainties or aspects about the future that could entail a significant risk that could lead to significant changes in the value of assets and liabilities in the following year.

d) Comparison of the Information

The Directors present, for comparative purposes, with each of the items of the Consolidated Balance Sheet, the Consolidated Profit and Loss Account, the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year, in addition to the figures for the year 2023 those corresponding to the previous year. The items of both exercises are comparable and homogeneous.

e) Responsibility for the Information given and the Estimates made

For the preparation of the Consolidated Annual Accounts estimates have been used in order to value some of the assets, liabilities, incomes, expenses and compromises that are registered, and that, basically, these estimations are referred to the evaluation of losses by impairment of certain assets, the useful life of non-current assets and the probability of occurrence of provisions (see section c).

In November 2021, following the acquisition of the company Lleidanet PKI S.L.U, goodwill of 4,7 million euros has been generated. Indenova's main assets are its assets, as reflected in its balance sheet. Lleidanet PKI has a brand image that is recognised both nationally and internationally, and a recurring customer base that values its services. Its R&D developments will enable new uses of its services, not only for its customer base, but will also be a differentiating element in the Group's R&D strategy. They have key personnel, that is maintained within the Lleida.net Group and are members of the management committee and help to achieve the objectives set by the Board of Directors of the Parent Company of the Group. With the acquisition of Lleidanet PKI, synergies in sales are achieved, given that Lleida.net PKI S.L.U and the other companies of the Group have very few shared customers. Lleidanet PKI will be able to increase its sales by selling its products to Lleida.net customers.

The Parent Company's Board of Directors has performed the analysis of the recoverability of the aforementioned goodwill on consolidation, using cash flows based on sales projections for the period 2023-2027. According to management, these projections are based on the budget for 2023, the degree of compliance with the budget at the date of formulation of these Consolidated Financial Statements and management's best expectations for the business until 2028 for the corresponding analysis of possible impairment at 31 December 2023. A sales growth of 13.2%, 20%, 17.5%, 15%, and 13% has been estimated for each of the successive 5 years. Likewise, cash flows have been discounted using the average cost of resources after taxes. The discount rate used has been 15.3% and a perpetual income of 2% has been estimated.

With regard to the above, the Board of Directors of the Parent Company has decided not to impair the consolidation goodwill in the current fiscal year based on the expected cash flow generation for the upcoming fiscal years by the subsidiary company.

In the previous fiscal year, the Board of Directors of the Parent Company decided to impair the consolidation goodwill by an amount of 190 thousand euros (see Note 5).

Notwithstanding that these estimates were made according to the best information available at the time of the preparation of these Consolidated Annual Accounts, it is possible that future events may occur that require their amendment for the next financial years; which would be carried out prospectively, taking account of the effects of the estimate change on the corresponding profit and loss accounts.

f) Correction of Errors

The 2022 Annual Accounts do not include related adjustments as a result of errors detected in previous years' annual accounts.

g) Fair value

It is the price that would be received to sell an asset or paid to transfer or settle a liability in an orderly transaction between market participants at the measurement date. The fair value shall be determined without any deduction for transaction costs that might be incurred due to disposal or disposition by other means. In no case shall the fair value result from a forced or urgent transaction or as a consequence of an involuntary liquidation situation.

Fair value is estimated for a particular date and, because market conditions may change over time, that value may be inappropriate for another date. In addition, in estimating fair value, an enterprise should take into account the conditions of the asset or liability that market participants would take into account in pricing the asset or liability at the measurement date.

In estimating fair value, it is assumed that the transaction to sell the asset or transfer the liability is carried out:

- a) Between interested and duly informed parties, in an arm's length transaction,
- b) In the main market of the asset or liability, understood as the market with the highest volume and level of activity, or
- c) In the absence of a principal market, in the most advantageous market to which the company has access for the asset or liability, understood as the one that maximizes the amount that would be received for the sale of the asset or minimizes the amount that would be paid for the transfer of the liability, after taking into account transaction costs and transportation expenses.

In general, fair value is calculated by reference to a reliable market value.

For those items for which there is no active market, the fair value will be obtained, where appropriate, through the application of valuation models and techniques.

The fair value of a financial instrument must consider, among other things, the credit risk and, in the specific case of a financial liability, the company's default risk, which includes, among other components, its own credit risk. However, no adjustments for volume or market capacity should be made to estimate the fair value.

NOTE 3. RECOGNITION AND VALUATION STANDARDS

The principal valuation standards used by the Group in the drafting of its Consolidated Annual Accounts, in accordance with those established by the General Accounting Plan, were as follows:

a) Consolidation Principles

The consolidation of the Annual Accounts of Lleidanetworks Serveis Telemàtics, S.A. with the Annual Accounts of its investee companies mentioned in Notes 1.1 and 2, was carried out using the following methods:

1. Application of the global integration method for all Group companies, i.e. those over which it as effective control.
2. Application of the equity method as equivalence for associated companies, i.e. those over which a notable influence is exercised in terms of management but in which there is no majority vote or joint management with third parties.

The consolidation of the operations of **Lleidanetworks Serveis Telemàtics, S.A. group** with those of the aforementioned subsidiaries was performed according to the following basic principles:

- The criteria used in formulation of the Balance Sheets, the Profit and Loss Account and the Statement of Changes in Equity and Cash-Flow Statements for each one of the consolidated companies are, generally, and in their basic aspects, homogenous.
- The Consolidated Balance Sheet, the Consolidated Profit and Loss Account, the Consolidated Statement of Changes in Equity and Consolidated Statements of Cash Flow include all adjustments and eliminations of the consolidation process, as well as relevant valuation homogenizations to reconcile balances and transactions between the consolidating companies.
- Balances and transactions between consolidated companies were eliminated in the consolidation process. The credits and debts with group, affiliated and associated companies which have been excluded from the consolidation are presented in the corresponding headings of the assets and liabilities headings of the Consolidated Balance Sheet.
- The deletion of Subsidiary equity investment was conducted by compensating the shareholding of the Parent Company with the proportional part of the net equity of the subsidiaries which is represented by the shareholding on the date of the first consolidation. The first consolidation differences were treated as follows:
 - a) Positive differences which cannot be allocated to the equity elements of the Subsidiaries were included in the "Consolidation Goodwill" heading of the Consolidated Balance Sheet. The impairment losses must be recognized in the Consolidated Profit and Loss Account and are irreversible.
 - b) Negative differences, obtained as first consolidation, are recognized as reserves for the year considering that the group already existed previously in the different subgroups contributed to the Parent Company.
- The consolidated income for the financial year shows the part that may be attributed to the Parent Company, comprised of the income obtained by the latter plus the corresponding part, by virtue of the financial shareholding, of the income obtained by the invested companies
- The shareholding value of the minority interests in the equity and the attribution of income in the consolidated subsidiaries is presented in the "Minority Interest" heading of the Equity of the Consolidated Balance Sheet. The value breakdown of these shareholdings is presented in Note 4.

b) Intangible Fixed Assets

Assets included in intangible fixed assets are valued by their cost, whether purchase price or production cost, reduced by the corresponding accumulated amortization and losses from any impairment which, where appropriate, has occurred.

The depreciable amount of an intangible asset is allocated on a systematic basis over its useful life. The amortisation charge for each period is recognised in profit or loss.

Research and Development Costs

Capitalized research and development costs are specifically individualized for projects and their costs are clearly established so they can be spread over time. Similarly, Management the Group has substantial grounds for expecting the technical success and the financial and commercial profitability of these projects.

Research and development costs that appear as assets are amortized on a straight-line basis over their useful life, at an annual rate of 20%, and always within a period of 5 years.

As soon as there are reasonable doubts over the technical success or financial and commercial profitability of a project, the values recorded in the asset that apply to it are directly allocated to the financial year's losses.

Computer Applications

Licenses for computer applications purchased from third parties are capitalized on the basis of the costs incurred for purchasing.

Computer applications are amortized on a straight-line basis throughout their useful lives, at an annual rate of 33%.

Maintenance expenses for computer applications incurred during the financial year are recognized in the Consolidated Profit and Loss Account.

Industrial Property

Corresponds to the capitalized development expenses for which the relevant patent or similar has been obtained, and includes the registration and formalization costs for the industrial property, as well as the costs for purchasing the corresponding rights from third parties.

During all these years, the Group has been able to develop methods and unique technologies in its sector by continuous investment in research and development. The result of this effort has been the publication of patents at European, American and PCT levels, putting in value the effort developed during these last years. These patents allow the Group to license this technology to third parties and protect it against possible copies of other actors in the sector, less scrupulous when creating original models.

Consolidation Goodwill

This item includes positive differences between the equity of subsidiaries attributable to the Parent Company and the equity interest in the Parent Company at the date of first consolidation, which could not be attributed to specific assets and liabilities of the subsidiaries.

Goodwill is amortised over ten years and is recovered on a straight-line basis. In addition, goodwill is reviewed annually for impairment and is recognised in the balance sheet at cost less amortisation and, where applicable, accumulated impairment losses.

In order to check for impairment, at the end of each year an analysis is made of the value of each of the investees that have generated them, based on discounted expected cash flows.

c) Tangible Fixed Assets

Tangible fixed assets are valued by their acquisition price or production cost, net of the corresponding accumulated amortization and, where appropriate, of the accumulated value of the recognized allowances for impairment.

Repair and maintenance expenses incurred during the financial year are debited in the Consolidated Profit and Loss Account. Costs for renovating, extending or improving intangible fixed assets, representing an increase in capacity, productivity or lengthening of useful life, are capitalized as a higher value of the corresponding assets, once the book values of the replaced items have been de-recognized.

Tangible fixed assets, net of their residual value, where appropriate, are amortized by a straight-line-basis distribution of the various items that constitute these fixed assets over the years of estimated useful life making up the period in which the Group hopes to use them, according to the following table:

	Annual Percentage	Estimated Years of Useful Life
Buildings	2,50	40
Technical facilities	8 10	12,50 10
Machinery	20 25	5 4
Other installations	10	10
Furniture	10 15	10 – 6,67
Computer equipment	25 50	4 2
Other tangible fixed assets	15	6,67

The book value of a tangible fixed-asset item is de-recognized in the accounts through its alienation or disposal by other means; or where no future economic benefits or profits are expected to be obtained for its use, alienation or disposal by other means.

The loss or profit resulting from writing-off a tangible fixed-asset item is determined as the difference between the net values, where appropriate, of the sales costs resulting from its alienation or disposal by other means, where available, and the item's book value, and is allocated to the Consolidated Profit and Loss Account for the financial year in which this occurs.

At the financial year's closure, the Group, assesses whether there are signs of impairment in a tangible fixed-asset item or any cash-generating unit, in which case the recoverable amounts are estimated and the necessary allowances are made.

An impairment loss is deemed to have occurred in a tangible fixed-asset item where its book value exceeds its recoverable value, this being understood as the higher value between its fair value less the sales costs and its value in use.

Allowances for impairment in the tangible fixed-asset items, as well as their reversals where the circumstances producing them cease, are recognized as an expense or income respectively in the Consolidated Profit and Loss Account.

d) Leases and Other Transactions of a Similar Nature

Operating-lease expenses incurred during the financial year are debited in the Consolidated Profit and Loss Account.

e) Financial Instruments

The Company records under financial instruments those contracts that give rise to a financial asset in one company and, simultaneously, to a financial liability or equity instrument in another company.

A financial asset is any asset that is: cash, an equity instrument of another company, or involves a contractual right to receive cash or another financial asset (a debt instrument), or to exchange financial assets or liabilities with third parties on potentially favourable terms.

Financial assets are classified for valuation purposes in the following category:

- Financial assets at amortised cost.

Financial instruments issued, incurred or assumed are classified as financial liabilities, in whole or in part, if, based on their economic substance, they create a direct or indirect contractual obligation for the Company to deliver cash or another financial asset, or to exchange financial assets or financial liabilities with third parties on potentially unfavourable terms.

Financial liabilities are classified for measurement purposes as follows:

- Financial liabilities at amortised cost.

This treatment applies to the following financial instruments:

a) Financial assets:

- Cash and cash equivalents;
- Trade receivables: trade receivables and sundry debtors;
- Receivables from third parties: such as financial loans and receivables, including those arising from the sale of non-current assets;
- Other financial assets: such as deposits with credit institutions, loans and advances to employees, guarantees and deposits given, dividends receivable and payments due on own equity instruments.

b) Financial liabilities:

- Debts from commercial operations: suppliers and sundry creditors;
- Debts with credit institutions;
- Other financial liabilities: debts to third parties, such as financial loans and credits received from persons or companies other than credit institutions, including those arising from the purchase of non-current assets, guarantees and deposits received and disbursements required by third parties on shareholdings.

Financial assets at amortised cost

A financial asset is included in this category, even when it is admitted to trading on an organised market, if the Company holds the investment for the purpose of receiving cash flows from the performance of the contract and the contractual terms of the financial asset give rise, at specified dates, to cash flows that are solely collections of principal and interest on the principal amount outstanding.

Contractual cash flows that are solely collections of principal and interest on the principal amount outstanding are inherent in an arrangement that is in the nature of an ordinary or common loan, notwithstanding that the transaction is arranged at a zero or below-market interest rate.

The following are classified in this category:

- a) Trade receivables: financial assets arising from the sale of goods and the rendering of services in connection with the sale of goods and the provision of services in the ordinary course of business; and
- b) Non-trade receivables: financial assets, other than equity instruments and derivatives, that are not of a commercial substance and for which the amount receivable is fixed or determinable.

Financial liabilities at amortised cost

The following are classified in this category:

- a) Trade payables: financial liabilities arising from the purchase of goods and services in connection with trading transactions; and
- b) Non-trade payables: financial liabilities which, not being derivative instruments, do not arise from trade transactions, but arise from loans or credits received by the Company.

Initial measurement

The financial assets and liabilities included in this category are initially measured at fair value, which is the transaction price and is equal to the fair value of the consideration given plus directly attributable transaction costs.

Notwithstanding the above, trade receivables and payables maturing in less than one year that do not bear contractual interest rates, as well as, where applicable, advances and loans to employees, dividends receivable and payments required on equity instruments, the amount of which is expected to be received in the short term, and payments required by third parties on equity investments, the amount of which is expected to be paid in the short term, are measured at nominal value when the effect of not discounting cash flows is not significant.

Subsequent valuation

In subsequent valuations, both assets and liabilities are measured at amortised cost. Accrued interest is recognised in the profit and loss account using the effective interest method. Notwithstanding the above, receivables and payables maturing within one year that were initially measured at nominal value continue to be measured at nominal value, unless, in the case of receivables, they are impaired.

Impairment of financial assets at amortised cost

At least at year-end, the necessary impairment losses are recognised whenever there is objective evidence that a financial asset, or a group of financial assets with similar risk characteristics measured collectively, is impaired as a result of one or more events that occurred after its initial recognition and that cause a reduction or delay in the estimated future cash flows, which may be caused by the insolvency of the debtor.

The impairment loss on these financial assets is the difference between their carrying amount and the present value of future cash flows, including, where applicable, those from the realisation of collateral and personal guarantees, estimated to be generated, discounted at the effective interest rate calculated at the time of initial recognition. For floating rate financial assets, the effective interest rate at the reporting date is used in accordance with the contractual terms.

Impairment losses, as well as reversals of impairment losses when the amount of the impairment decreases due to a subsequent event, are recognised as an expense or income, respectively, in the income statement. The reversal of impairment is limited to the carrying amount of the asset that would have been recognised at the date of reversal had no impairment loss been recognised.

Reclassification of Financial Assets

When the Group changes the way in which it manages its financial assets to generate cash flows, it reclassifies all affected assets in accordance with the criteria outlined above. The reclassification is not a derecognition but a change in valuation criteria.

Financial assets at fair value through equity

A financial asset is included in this category when the contractual terms of the financial asset give rise, at specified dates, to cash flows that are solely payments of principal and interest on the outstanding principal amount and is not held for trading or classified as financial assets at amortized cost.

For equity instruments that are not held for trading or should be measured at cost, the Company may make an irrevocable election at the time of initial recognition to present subsequent changes in fair value directly in equity.

Initial valuation

Financial assets included in this category are initially valued at their fair value, which, unless evidence to the contrary exists, is the transaction price, which is equivalent to the fair value of the consideration given, plus any directly attributable transaction costs. The initial valuation includes the amount of any preferential subscription rights and similar rights that may have been acquired, if applicable.

Posterior valuation

Financial assets included in this category are valued at fair value, without deducting transaction costs that may be incurred in their sale. Changes in fair value are recorded directly in equity, until the financial asset is derecognized from the balance sheet or impaired, at which point the amount recognized is charged to the income statement.

However, impairment corrections and gains and losses resulting from exchange rate differences on monetary financial assets in foreign currency are recorded in the income statement.

The amount of interest calculated using the effective interest rate method, and accrued dividends are also recorded in the income statement. When a value must be assigned to these assets due to derecognition from the balance sheet or other reasons, the weighted average value method for homogeneous groups is applied.

Impairment of value

At least at the end of the financial year, necessary revaluations are made whenever there is objective evidence that the value of a financial asset, or group of financial assets included in this category with similar risk characteristics collectively valued, has deteriorated as a result of one or more events that have occurred after its initial recognition, and that result in:

- a) In the case of acquired debt instruments, a reduction or delay in estimated future cash flows, which may be caused by the insolvency of the debtor; or
- b) In the case of investments in equity instruments, the lack of recoverability of the carrying amount of the asset, evidenced, for example, by a prolonged or significant decline in its fair value.

The impairment loss for these financial assets is the difference between their cost or amortized cost less, if any, any impairment loss previously recognized in the income statement and the fair value at the time of valuation.

Accumulated losses recognized in equity due to a decrease in fair value, provided there is objective evidence of impairment in the value of the asset, are recognized in the income statement.

If the fair value increases in subsequent years, the impairment loss recognized in previous years is reversed with a credit to the income statement for the year. However, if the fair value corresponding to an equity instrument increases, the impairment loss recognized in previous years will not reverse with a credit to the income statement and the increase in fair value is recorded directly against equity.

Derecognition of Financial Assets

The Company derecognises a financial asset, or part of a financial asset, when the contractual rights to the cash flows from the financial asset expire or have been transferred and substantially all the risks and rewards of ownership have been transferred, in circumstances that are assessed by comparing the Company's exposure, before and after the transfer, to changes in the amounts and timing of the net cash flows of the transferred asset. Substantially all the risks and rewards of ownership of the financial asset are deemed to have been transferred when its exposure to such changes is no longer material in relation to the total change in the present value of the future net cash flows associated with the financial asset.

When the financial asset is derecognised, the difference between the consideration received net of attributable transaction costs, taking into account any new asset obtained less any liability assumed, and the carrying amount of the financial asset determines the gain or loss arising on derecognition and forms part of the profit or loss for the period in which the gain or loss arises.

The Company does not derecognise financial assets and recognises a financial liability for an amount equal to the consideration received in transfers of financial assets in which it has retained substantially all the risks and rewards of ownership, such as in bill discounting, factoring with recourse, sales of financial assets under repurchase agreements at a fixed price or at the sale price plus interest and securitisations of financial assets in which the transferor retains subordinated financing or other types of guarantees that absorb substantially all the expected losses.

Derecognition of financial liabilities

The Company derecognises a financial liability, or part of a financial liability, when the obligation has been extinguished, i.e. when it has been satisfied, cancelled or has expired. It also derecognises its own financial liabilities that it acquires, even if it intends to reposition them in the future.

The difference between the carrying amount of the financial liability or part of the financial liability derecognised and the consideration paid, including any costs or fees incurred and including any asset transferred other than cash or liability assumed, is recognised in the income statement in the period in which it occurs.

In the case of an exchange of debt instruments that do not have substantially different terms, the original financial liability is not derecognised. Any transaction costs or fees incurred adjust the carrying amount of the financial liability. From that date, the amortised cost of the financial liability is determined by applying the effective interest rate that matches the carrying amount of the financial liability with the cash flows payable under the new terms.

Own equity instruments

An equity instrument is any legal transaction that evidences, or reflects, a residual interest in the assets of the issuing company after deducting all its liabilities.

In the event that the company enters into any transaction with its own equity instruments, the amount of these instruments is recorded in equity, as a change in shareholders' equity, and in no case may they be recognised as financial assets of the company and no profit or loss is recorded in the profit and loss account.

Expenses arising from these transactions, including the costs of issuing these instruments, such as lawyers', notaries' and registrars' fees; printing of reports, bulletins and securities; taxes; advertising; commissions and other placement expenses, are recorded directly in equity as a reduction in reserves.

Deposits given and received

Deposits or guarantees provided as security for certain obligations are measured at the amount actually paid, which does not differ significantly from their fair value.

In the case of deposits given or received for operating leases or for the provision of services, the difference between their fair value and the amount paid (e.g. because the deposit is long-term and is not remunerated) is treated as an advance payment or collection for the lease or provision of the service, which is taken to profit or loss over the period of the lease in accordance with the standard on leases and similar transactions or over the period in which the service is rendered in accordance with the standard on revenue from sales and services.

In estimating the fair value of the collateral, the remaining period is taken to be the minimum committed contractual period during which the collateral cannot be repaid, without taking into account the statistical behaviour of repayment.

Where the guarantee is short-term, discounted cash flows are not required if their effect is not significant.

f) Transactions in Foreign Currencies

Transactions in foreign currencies are recognized by their exchange value in Euros, by using the spot exchange-rate for the dates on which they occur.

On the close of each financial year, monetary items are valued by applying the average spot exchange-rate on that date. Exchange differences, both positive and negative, which result from this process, as well as those generated on selling off equity items, are recognized in the Consolidated Profit and Loss Account for the financial year in which they arise.

g) Profit Tax

Profit tax is recognized in the Consolidated Profit and Loss Account or directly in the Consolidated Equity depending on where the gains or losses giving rise to it are recognized. Profit tax for each financial year includes both current and deferred taxes, where appropriate.

The current tax amount is the sum to be paid by the companies as a result of the assessment notices for the tax.

Differences between the book value of assets and liabilities, and their tax base, generate the deferred tax asset or liability tax balances which are calculated using the expected tax rates at the time of their reversal, and under the method in which it can be reasonably expected to recover or pay the asset or liability.

Variations arising during the financial year in deferred tax asset or liability are recognized either in the Consolidated Profit and Loss Account or directly in the Consolidated Equity, as appropriate.

Deferred tax assets are only recognized insofar as it is probable that the company will have future tax gains that allow these assets to be applied.

In each closing balance sheet the book value of the recognized deferred tax assets is analysed and the necessary adjustments are made insofar as there are doubts over their future tax recoverability. Likewise, in each closing non-recognized deferred taxes are assessed in the balance sheet and these are subject to recognition to the extent that their recovery with future tax benefits is probable.

h) Income and Expenses

The main services offered by the Group consist of SMS, notification, signature and electronic contracting services.

Revenue recognition for sales and services rendered

The Company recognises revenue in the ordinary course of business when (or as) control of the committed goods or services is transferred to the customer. At that time, the Company measures revenue at the amount that reflects the consideration to which it expects to be entitled in exchange for the goods or services.

Control of a good or service (an asset) refers to the ability to decide fully on the use of that item of property, plant and equipment and to obtain substantially all of its remaining benefits. Control includes the ability to prevent other entities from deciding on the use of the asset and obtaining its benefits.

In order to apply this fundamental approach to revenue recognition, the Company follows a comprehensive process consisting of the following successive steps:

- a) Identify the contract(s) with the customer, understood as an agreement between two or more parties that creates enforceable rights and obligations for the parties.
- b) Identify the obligation(s) to be fulfilled in the contract, representing commitments to transfer goods or provide services to a customer.
- c) Determine the transaction price, or contract consideration, to which the firm expects to be entitled in exchange for the transfer of goods or provision of services committed to the customer.
- d) Allocate the transaction price to the obligations to be performed on the basis of the individual selling prices of each separate good or service committed to in the contract or, where appropriate, on the basis of an estimate of the selling price when the selling price is not independently observable.
- e) Recognise revenue when (as) the company satisfies a committed obligation through the transfer of a good or the rendering of a service; such satisfaction occurs when the customer obtains control of that good or service, so that the amount of revenue recognised is the amount allocated to the contractual obligation satisfied.

For each obligation to be fulfilled (delivery of goods or provision of services) identified, the Company determines at the beginning of the contract whether the commitment undertaken is fulfilled over time or at a specific point in time. As specified in note 15, the invoicing issued by the Company is based on customer consumption of each product. In this regard, for all of the Company's business lines, revenue is also recognised on a monthly basis based on the consumption of each customer during the corresponding month.

Fulfilment of the obligation at a specific point in time

In cases where the transfer of control over the asset does not occur over time, the Company recognises revenue using the criteria established for obligations that are discharged at a point in time. To identify the specific point in time at which the customer obtains control of the asset (generally an asset), the Company considers, among others, the following indicators:

- a) The customer assumes the significant risks and rewards of ownership of the asset. In assessing this, the Company excludes any risk that gives rise to a separate obligation other than a commitment to transfer the asset.
- b) The Company has transferred physical possession of the asset.
- c) The customer has received (accepted) the asset in accordance with the contractual specifications.
- d) The company has a collection right for transferring the asset.
- e) The customer has ownership of the asset.

Valuation

Revenue from the sale of goods and the rendering of services is measured at the monetary amount or, where appropriate, the fair value of the consideration received or expected to be received, which, in the absence of evidence to the contrary, is the agreed price of the assets to be transferred to the customer, less: the amount of any discounts, rebates or other similar items that the company may grant; and interest included in the nominal amount of the receivables.

However, embedded interest on trade receivables maturing in less than one year that do not have a contractual interest rate is included when the effect of not discounting cash flows is not material. If applicable

Taxes levied on the delivery of goods and services that the company must pass on to third parties, such as value added tax and excise duties, as well as amounts received on behalf of third parties, are not part of revenue.

Where variable consideration exists, the Company takes into account in the measurement of revenue the best estimate of the variable consideration if it is highly probable that there will not be a significant reversal of the amount of revenue recognised when the uncertainty associated with the consideration is subsequently resolved.

i) Provisions and Contingencies

Debentures existing at the close of the financial year, resulting from past events which may occasion loss in equity for the Group, and whose value and time of cancellation are indeterminate, are recognized on the consolidated balance sheet as provisions and are valued by the current value of the best possible estimate for the amount necessary to cancel the obligation or transfer it to a third party.

j) Grants, Donations and Legacies

Non-refundable capital grants, as well as donations and legacies, are valued by the fair value of the amount granted or of the goods received. They are initially allocated directly as income in the Consolidated equity and recognized in the Consolidated Profit and Loss Account in proportion to the amortization undergone over the period by the assets financed through these grants, unless these are non-depreciable assets, in which case they will be allocated to the earnings of the financial year in which their alienation or de-recognition takes place.

Grants intended for cancelling debts are allocated as income for the financial year in which the cancellation occurs, unless they are received for a specific financing, in which case the allocation is made according to the item that is financed.

Refundable grants are recognized as long-term debt convertible into subsidies until they become non-refundable.

Operation grants are credited to the earnings of the financial year when they accrue.

k) Related-Party Transactions

In general, items forming the subject matter of a related-party transaction are initially recognized by their fair value. The subsequent valuation is made in accordance with the provisions laid down in the corresponding regulations.

l) Cash-Flow Statements

Cash-flow statements use the following expressions according to the meanings given below:

Cash and Equivalents: Cash is both cash in hand and demand deposits. Cash equivalents are financial instruments forming part of the Group's normal cash management, are convertible into cash, have initial maturities no greater than three months and are subject to little significant risk of change in their value.

Cash Stream-flows: inflows and outflows of cash or other equivalent resources, with the latter being understood as investments having terms under three months, high liquidity and low risk of changes in value.

Operating Activities: these are the activities that make up the principal source of the Group's ordinary income, as well as other activities that cannot be classified under investment or financing.

Investment Activities: acquisition, alienation or disposal by other means of long-term assets and other investments not included in cash or cash equivalents.

Financing Activities: activities that lead to changes in the size and composition of the equity and financial liabilities.

NOTE 4. MINORITY INTEREST

The breakdown of the value of minority interests in the equity of the consolidated subsidiaries as the end of the financial year 2023, is as follows, in Euros:

Group Company	Percentage of minority interests shareholders (holdings)	Equity	Others	Period results	Total Minority interests
Lleidanet Guatemala	20%	4.042,50	(263,84)	-	755,73
Lleidanet Honduras	30%	-	-	-	-
Lleidanet Brasil	0,01%	(42.849,13)	619,11	777,39	(4,15)
Lleidanet República Dominicana	0,02%	(7.703,67)	2.440,44	10.000,98	0,95
Lleida Information Technology Network Services (*)	51%	(176.699,76)	11.553,95	(83.549,55)	(126.834,63)
					(126.082,10)

(*) Shareholders' Equity includes a portion of outstanding disbursements that correspond mainly to the Parent Company, which is why the total of Minority Interests does not correspond exactly to 49% of the total Shareholders' Equity shown in the table below.

The breakdown of the value of minority interests in the equity of the consolidated subsidiaries as the end of the financial year 2022, is as follows, in Euros:

Group Company	Percentage of minority interests shareholders (holdings)	Equity	Others	Period results	Total Minority interests
Lleidanet Guatemala	20%	4.042,50	(263,84)	-	755,73
Lleidanet Honduras	30%	-	-	-	-
Lleidanet Brasil	0,01%	(41.163,82)	2.869,63	(1.685,31)	(4,00)
Lleidanet República Dominicana	0,02%	(8.772,98)	2.446,88	1.069,31	(1,17)
Lleida Information Technology Network Services (*)	51%	(74.803,17)	(5.976,14)	(101.896,59)	(93.164,71)
					(92.414,15)

(*) Shareholders' Equity includes a portion of outstanding disbursements that correspond mainly to the Parent Company, which is why the total of Minority Interests does not correspond exactly to 49% of the total Shareholders' Equity shown in the table below.

NOTE 5. INTANGIBLE FIXED ASSETS

The details and changes in intangible fixed assets throughout the financial year 2023 were as follows, in euros:

	31/12/2022	Additions	De-Recognition	Transfers	Exchange rate differences	31/12/2023
Cost:						
Goodwill on consolidation	4.688.429,58	-	-	-	-	4.688.429,58

Goodwill on consolidation	(190.207,60)	-	-	-	-	(190.207,60)
Intangible Fixed Assets, Net	10.376.306,13	(839.498,83)	-	-	-	9.536.807,30

The additions in the year mainly relate to the R&D developments that the Company has made in its SaaS product lines as well as the investments made in patents to register the methodology of these new products. The amount of work done by the Group for its intangible assets has amounted to 863 thousand in the current year (1,156 thousand in the previous year).

During the current year, the Group has carried out an evaluation of some of its patents, which has not resulted in any impairment at the closing.

The details and changes in intangible fixed assets throughout the financial year 2022 were as follows, in euros:

	31/12/2021	Additions	De-Recognition	Transfers	31/12/2022
Cost:					
Goodwill on consolidation	4.688.429,58	-	-	-	4.688.429,58

Goodwill

On 30 November 2021 the Group acquired 100% of the shares of Lleidanet PKI, S.L. for a cost of 7.100.000,00 euros.

In 2022, the Company has recognised goodwill on consolidation in the amount of 190 thousand euros (see Note 2.e and Note 21).

This goodwill is amortised on a straight-line basis over a period of 10 years.

Fully-amortized and in-use items

The breakdown, by epigraphs, of the most significant assets which were fully-amortised and in use as of December 31, 2023 and 2022, is the following, stating their cost values in Euros:

	31/12/2023	31/12/2022
Research	10.124.956,16	9.263.012,85
Patents	196.149,07	108.806,51
Computer applications	2.596.805,77	1.404.021,42
	12.917.911,00	10.775.840,78

NOTE 6. TANGIBLE ASSETS

The details and changes in tangible fixed assets throughout the financial year 2023 were as follows, in euros:

	31/12/2022	Additions	De-recognitions	Regulations	Exchange rate differences
					31/12/2023
Cost:					
Land and buildings	203.095,54	-	-	-	203.095,54

Fully-Amortized and in-Use Items

The breakdown, by epigraphs, of the most significant assets which were fully-amortised and in use as of December 31, 2023 and 2022, is shown below stating their cost values in Euros:

	31/12/2023	31/12/2022
Technical installations and machinery	249.269,45	229.435,65
Other facilities and furniture	263.305,08	260.121,63
Data processing equipment	916.206,47	878.394,67
Other fixed assets	3.087,87	3.087,87
	1.431.868,87	1.371.039,82

NOTE 7. LEASES AND OTHER OPERATIONS OF SIMILAR NATURE

7.1) Financial Leases (the Company as Lessee)

The Company has no assets financed by finance leases at 31 December 2023.

7.2) Operating Leases (the Company as Lessee)

The amount of the contingent payments recognized as an expense in the year 2023 is 170.266,53 euros (308.075,17 euros in the previous year). Corresponds basically to office rentals and vehicle rentals.

The following is the breakdown of the total amount of the minimum future payments corresponding to the non-cancellable operating leases:

	2023	2022
Up to 1 year	162.830,50	205.494,97
Between 1 and 5 years	51.263,76	129.638,34
More of 5 years	505.126,72	538.947,98
Total	719.220,98	874.081,29

NOTE 8. FINANCIAL ASSETS

The following is the breakdown of the long-term financial assets, in Euros:

	Equity instruments 31/12/2023	Equity instruments 31/12/2022	Credits and Other Financial Assets 31/12/2023	Credits and Other Financial Assets 31/12/2022
Financial assets at amortised cost (Note 8.2)	-	-	80.837,16	72.796,13
Financial assets at fair value through equity (Note 8.3)	10.497,91	10.497,91	-	-
Total	10.497,91	10.497,91	80.837,16	72.796,13

The breakdown of the short-term financial assets, is as follows, in euros:

	Credits and Other Financial Assets 31/12/2023	Credits and Other Financial Assets 31/12/2022
Assets at fair value through the profit and loss:	1.017.223,87	1.660.467,79
Cash or other liquid assets (Note 8.1)	1.017.223,87	1.660.467,79
Financial Assets at Amortised Cost (Note 8.2)	4.315.003,37	5.280.989,93
Total	5.332.227,24	6.941.457,72

8.1) Assets at Fair Value through the Profit and Loss

Cash and other Equivalent Liquid Assets

The detail of this assets as of December 31, 2023 and 2022 is as follows, in euros:

	Balance at 31/12/2023	Balance at 31/12/2022
Short-term highly liquid investments	170.556,13	-
Current Accounts	841.075,26	1.654.851,90
Cash	5.592,48	5.615,89
Total	1.017.223,87	1.660.467,79

8.2) Financial Assets at Amortised Cost

The composition of loans and receivable items as of December 31, 2023 and 2022 is as follows:

	Balance at 31/12/2023		Balance at 31/12/2022	
	Long-Term	Short-Term	Long-Term	Short-Term
Loans and receivables items for commercial transactions				
Costumers	-	3.862.974,13	-	4.358.192,14
Debtors	-	89.464,46	-	107.359,36
Total loans and receivables items for commercial transactions	-	3.952.438,59	-	4.465.551,50
Loans and receivables for non-commercial transactions				
Staff	-	174,03	-	3.065,42
Short-term deposits (*)	-	362.390,75	-	812.373,00
Securities and deposits	80.837,16	-	72.796,13	-
Total loans and receivables for non-commercial transactions	80.837,16	362.564,78	72.796,13	815.438,42
Total	80.837,16	4.315.003,37	72.796,13	5.280.989,92

(*) Short-term deposits have a maturity to short-term and accrue a market interest rate.

Trade and other receivables include impairments due to insolvency risks, as detailed below:

	Amount
Accumulated impairment January 1, 2021	618.834,03
Impairment losses on trade receivables	4.652,52
Accumulated impairment end of financial year 2022	623.486,55
Impairment losses on trade receivables	57.984,08
Accumulated impairment end of financial year 2023	681.470,63

Additionally, the Group has impaired 93.711,52 euros, derecognising them directly from the balance sheet.

The detail of the age of the financial assets and their impairment at the end of the 2023 fiscal year is shown below:

	Not due	Due between			TOTAL
		Due, less than 90 days	90 and 180 days	Due, more than 180 days	
Credits for commercial operations	3.039.945,91	290.632,37	165.902,31	1.137.428,63	4.633.909,22
Impaired balance				(681.470,63)	(681.470,63)
TOTAL	3.039.945,91	290.632,37	165.902,31	455.958,00	3.952.438,59

The detail of the age of the financial assets and their impairment at the end of the 2022 fiscal year is shown below:

	Not due	Due, less than 90 days	Due between 90 and 180 days	Due, more than 180 days	TOTAL
Credits for commercial operations	3.786.359,34	52.834,26	326.417,23	923.427,22	5.089.038,05
Impaired balance				(623.486,55)	(623.486,55)
TOTAL	3.786.359,34	52.834,26	326.417,23	299.940,67	4.465.551,50

8.3) Financial Assets at Fair Value through Shareholders' Equity

Corresponds to an investment made by the Group in previous years in IBAN Wallet, a global platform, which links investors and loan applicants, with leading rates for both. The investment amounts to 10.497,91 euros and corresponds to 0,38% of the capital stock.

There are no assets as collateral for loans.

NOTE 9. FINANCIAL LIABILITIES

Detail of long-term financial liabilities, is as follows, in euros:

	Debts with credit institutions		Other liabilities		Total	
	31/12/2023	31/12/2022	31/12/2023	31/12/2022	31/12/2023	31/12/2022
Financial liabilities at amortised cost (Note 9.1)	4.491.564,12	5.741.553,69	989.522,83	1.072.069,31	5.481.086,95	6.813.623,00

Detail of short-term financial liabilities, is as follows, in euros:

	Debts with credit institutions		Other liabilities		Total	
	31/12/2023	31/12/2022	31/12/2023	31/12/2022	31/12/2023	31/12/2022
Debts and payable Items at amortised cost (Note 9.1)	4.488.668,55	3.187.612,02	3.535.134,26	3.618.746,58	8.022.802,81	6.806.358,60

9.1) Debits and Payable Items

The breakdown as of December 31, 2023 and 2022 is as follows, in euros:

	Balance as of 31/12/2023		Saldo a 31/12/2022	
	Long-Term	Short-Term	Long-Term	Short-Term
For commercial transactions:				
Suppliers	-	1.987.124,34	-	1.968.970,04
Creditors	-	375.595,06	-	373.998,82
Advances from costumers	-	275.317,82	-	158.997,27
Total balances for commercial transactions	-	2.638.037,22	-	2.501.966,13
For non-commercial operations:				
Debts with credit institutions	4.491.564,12	4.488.668,55	5.741.553,69	3.187.612,02
Other debts	989.522,83	868.628,26	1.072.069,31	1.099.157,63
Debits and payable items	5.481.086,95	5.357.296,81	6.813.623,00	4.286.769,65

Credit Lines

As of December 31, 2023, the Group has credit policies granted with a total limit amounting to 2.573.500,00 euros (2.504.000 euros at the end of the previous year), which amount drawn at the aforementioned date is amounting 2.413.155,92 euros (1.216.116,30 euros euros at the end of the previous year).

Lines of Effects and Import Advances

As of December 31, 2023, the Company has granted trade discount policies with a total limit amounting to 700,000.00 euros (575,000 euros in the previous year), of which the Company has used 149,297.31 at the end of this 2023 fiscal year.

9.1.2) Other Financial Liabilities

Deferred payment for the acquisition of Lleida.net PKI, SL

On November 30, 2022, the Company acquired 100% of the shares of Lleida.net PKI, S.L.U for a price of 7,100,000.00 euros, making an initial payment of 4,010,387.67 euros, with the remaining amount of 3,089,612.33 euros deferred. A payment schedule has been established, with dates on November 30, 2022, 2023, 2024, and 2025 in cash, and another payment schedule with dates on November 30, 2023, 2024, and 2025 consisting of a fixed amount to be paid with the delivery of shares of Lleidanetworks Serveis Telemàtics, S.A. (own shares).

As of the closing of the 2023 fiscal year, there are outstanding payments totaling 1,696,516.05 euros, of which 485,884.33 euros have been included with a maturity date of 2028. The Company included a payment retention option in the purchase agreement with the sellers for any issues that may arise after the purchase is formalized.

Due to issues identified in previous financial statements, the Company has notified and withheld payments from buyers in the amount of 486,000 euros. The Company believes it has substantial grounds for not paying these amounts. However, as a prudent measure, it has decided to keep them on the balance sheet and will reverse these amounts when there is sufficient evidence that there are no future adjustments. On January 5th, 2024, the Company proceeded to pay 209 thousand euros corresponding to November 30th, 2023, by delivering company shares.

Other debts

Other debts mainly comprise two loans held by the Company with the Institut Català de Finances (ICF), CDTI and former members of Indenova, S.L. The detail of these at the close of fiscal year 2023 is as follows, in euros:

Entity	Last Maturity	Amount granted	Pending at closure
Loan 3	31/03/2024	199.151,00	25.889,63
Loan 4	23/01/2024	672.672,92	40.458,13
Loan 5	31/12/2023	217.000,00	63.568,43
Loan 6	31/12/2023	290.000,00	10.548,00
Loan 7	31/12/2023	162.000,00	12.893,31
		1.540.823,92	153.357,50

The detail at the close of fiscal year 2022 was as follows, in euros:

Entity	Last Maturity	Amount granted	Pending at closure

b) Breach of Contractual Obligations

No incidence has been produced in breach of the obligations relating to the loans received from third parties.

9.3) Guarantees

The Group has contracted guarantees with several financial institutions for a total amount of 563.000 euros (475.000 euros in 2022), a standard instrument when signing an interconnection agreement.

The Group does not have guarantees for loans except for Lleidanet PKI, S.L.U, where the former partners of the company appear as guarantors for certain loans.

NOTE 10. INFORMATION ON THE DEFERMENT OF PAYMENTS MADE TO SUPPLIERS. THIRD ADDITIONAL PROVISION. "DUTY TO INFORM" OF LAW 15/2010, OF JULY 5

As indicated in the third additional provision. Duty to inform of Law 15/2010, of July 5 (modified by Law 31/2014), to amend Law 3/2004 of December 29, by which are established measures to combat late payment in commercial transactions and with regard to the resolution January 29, 2016, of the Institute of Accounting and Audit Statements, about the information to include in the Notes to the Annual Accounts with regard to the average payment period to suppliers in commercial transactions, is as follows:

	Payments made and pending payment on the balance sheet date	
	Days Financial year 2023	Days Financial year 2022
Average payment period to suppliers	35,95	29,68
Ratio paid operations	37,46	29,99
Ratio of outstanding payment transactions	29,72	28,05
	Financial year Amount 2023	Financial year Amount 2022
Total payments	9.514.230,81	12.529.440,21
Total outstanding payments	2.300.174,52	2.381.552,03
	Financial year Amount 2023	Financial year Amount 2022
Monetary Volume Paid	4.879.900,65	7.319.503,23
% of total payments made	47,98%	58,41%
Number of invoices	2.368	3.011
% of total invoices	60,27%	69,10%

NOTE 11. INFORMATION ON THE NATURE AND LEVEL OF THE RISK FROM FINANCIAL INSTRUMENT

Group activities are exposed to various types of financial risk, most especially credit, liquidity and market risks (exchange rate, interest rate and other price risks).

11.1) Credit Risk

The Group's main financial assets are cash and cash balances, trade and other receivables and investments, which represent the Group's maximum exposure to credit risk in relation to financial assets.

The Group's credit risk is attributable mainly to its commercial debts. The amounts are reflected in the net balance of provisions for bad debts, estimated by the Parent Company's management based on the experience of previous years and its assessment of the current economic environment.

11.2) Liquidity Risk

The treasury department has a daily overview of the actual cash position and compares it with weekly forecasts. The Group has ample short-term financial capacity, as reflected in the positive balances on credit accounts.

11.3) Market Risk

Possible market risks are described in note 1.e.

11.4) Exchange Rate Risk

The Group's main exchange rate risks are with the US dollar and the Colombian peso. The Group does not currently operate with exchange rate insurance, although it is a variable that is being analysed for the future. The risk is low in the group, as the Group has both expenses and revenues in these currencies, and therefore uses current accounts in these currencies to be able to match payments in foreign currency with receipts in foreign currency. When there is a currency mismatch, the Group uses the spot market, always analysing the evolution of the currency one month in advance in order to be able to take advantage of the best moment for the exchange.

11.5) Interest Rate Risk

Changes in interest rates modify the fair value of assets and liabilities bearing a fixed interest rate as well as the future flows of assets and liabilities referenced to a variable interest rate.

The objective of interest rate risk management is to achieve a balance in the debt structure that will minimize the cost of debt over the multiannual horizon with a reduced volatility in the Profit and Loss Account.

NOTE 12. EQUITY

12.1) Share Capital of Parent Company

12.1) Share Capital

As of December 31, 2022 and 2021, the share capital amounts to 320.998,86 euros and is represented by 16.049.943 registered shares of 0,02 euros nominal each, fully subscribed and paid up. These holdings enjoy equal political and economic rights.

As of December 31, 2022, as well as of December 31, 2021, there were no companies with a direct or indirect holding equal to or greater than 10% of the Company's share capital.

Capital Increase

By virtue of the admission to trading on the Alternative Stock Market, the Parent Company carried out the following transactions in its share capital:

- On June 1, 2015, a General Shareholders' Meeting resolved to split the shares of the Parent Company by reducing the par value of the shares by 60,10 euros at a nominal value of 0,02 euros per share. In this operation, 3.005 shares were generated for each old share, with the capital stock being formed by 11.812.655 shares with a nominal value of each share at nominal 0,02 euros each.
- On June 1, 2015, it was agreed by the General Shareholders' Meeting to modify the system of representation of the shares, transforming the nominative securities representing the shares in which the Parent Company's capital is divided into account entries.
- On June 1, 2015, it was resolved by means of a General Meeting of Shareholders to modify the transmission regime of the shares of the Parent Company, passing this transfer of shares to be free and not subject to consent or authorization by the Company nor by shareholders
- On June 1, 2015, it was agreed by the General Meeting of Shareholders to request the incorporation in the segment of Companies in Expansion of the Alternative Stock Market of all the shares representing the Parent Company.
- On September 30, 2015, it was agreed to increase the Parent Company's Capital Stock by 84.745,78 euros through the issuance of 4.237.288 shares with a nominal value of 0,02 euros and an issue premium of 1,16 euros per share. This extension is fully subscribed and disbursed.

12.2) Reserves

The breakdown for Reserves is as follows, in euros:

	31/12/2023	31/12/2022
Legal Reserve	64.199,77	64.199,77
Other Reserves	1.453.021,09	2.318.707,70
	1.517.220,86	2.382.907,47

12.3) Issue Premium

This reserve amounted to 5.244.344,28 euros, of which 329.090,20 euros arose as a result of the capital increase carried out in 2007 and 4.915.254,08 euros arose as a result of the capital increase carried out in the 2015 exercise for the departure of the Parent Company to the Alternative Stock Market. It has the same restrictions and can be used for the same purposes as voluntary reserves, including their conversion into share capital.

12.4) Own Shares

On 1 June 2015, the Company's shareholders' meeting resolved to authorise the Board of Directors to derivatively acquire treasury shares under the terms provided for in current legislation. These acquisitions of treasury shares were made through the liquidity provider GVC Gaesco Valores SV, S.A. At the shareholders' meeting on 7 June 2021, the allocation of funds for the treasury stock programme is approved. ANDBANK SAU was appointed as manager for the acquisition of the first 500,000 euros, to allocate it to Lleidanet contractual obligations with respect to the acquisition of Indenova. whereby it was agreed to pay part of the deferred purchase price in shares of the parent company. Subsequently, on 23 July 2021, a new allocation of a further 500 thousand euros was made, and all in all, 175,534 shares were purchased at an average price of 5.53 euros per share.

On 29 September 2021, the company changed its liquidity provider, appointing Solventis A.V., S.A. in which 30 thousand shares were transferred from the former liquidity provider Gaesco, and an additional 150 thousand euros were provided for the management of the company's treasury shares.

As of December 31, 2023, the Parent Company holds own shares for an amount of 1.448.058,19 euros (1.731.481,07 euros in the previous year) at an average cost price of 2,75 euros per share (3,93 euros per share in the previous year). As a result of the sale of shares in the current year, there has been a negative impact on the Company's reserves of 402 thousand euros, which is explained by the decrease in the share price during 2023. At the end of the fiscal year, the Parent Company had 526,398 treasury shares with a nominal unit value of 0.02 euros per share. During the year 2023, the Parent Company acquired 1,127,067 shares for a total of 1,738,382.87 euros and sold 1,034,026 shares for a total of 1,608,955.45 euros in the markets where it is listed. The purpose of holding treasury shares is to provide liquidity through agreements with liquidity providers and to cover deferred payments for the purchase of Lleida.net PKI, S.L.U in shares.

NOTE 13. FOREIGN CURRENCY

The most significant foreign currency balances at the end of the year 2023, totalled in euros and broken down into their foreign currency equivalent, are as follows:

NOTE 14. TAX SITUATION

The following is the breakdown of the balances with the Tax Authorities as of December 31, 2023 and December 31, 2022, in euros:

	31/12/2023		31/12/2022	
	Receivable	Payable	Receivable	Payable
Non-current:				
Deferred Tax Assets	595.580,62	-	474.315,13	-
Deferred tax liabilities	-	25.162,21	-	-
	595.580,62	25.162,21	474.315,13	-
Current:				
Value Added Tax	32.162,58	296.269,27	136.963,24	198.312,54
Subsidies receivable (*)	1.089,00	-	37.748,96	-
Income Tax retentions	-	174.943,25	-	173.376,77
Company Tax	1.158.179,03	-	841.283,22	-
Social Security bodies	3.470,00	142.096,02	12.080,90	131.346,13
	1.194.900,61	613.308,54	1.028.076,32	503.035,44

Tax Situation

In accordance with current legislation, tax payments cannot be considered final until they have been inspected by the tax authorities, or until the statute barring period of four years has passed. In consequence, for the purposes of subsequent inspections, liabilities may arise additional to those recorded by the Group.

As of December 31, 2023, the Group has open to tax inspection all the taxes to which it is subject from the financial year 2019 to the 2022 financial year. Consequently, as a result of possible inspections, additional liabilities could arise to those registered by the Group. However, the Directors of the Parent Company and its tax advisors consider that such liabilities, if they occur, would not be significant on the annual accounts taken as a whole.

Profit Tax

The conciliation of the net amount of income and expenses for the year 2023 of the Parent Company with the taxable income tax base is as follows:

Profit and Loss Account			
Financial year's earnings (After taxes)			(2.748.268,36)
	Increases	Decreases	Net effect
Profit tax	-	(104.399,12)	(104.399,12)
Permanent differences	1.738.964,65	(132.840,74)	1.606.123,91
Taxable income (tax result)	1.738.964,65	(237.239,86)	(1.246.543,57)

Permanent differences mainly correspond to impairments of investments and loans.

The conciliation of the net amount of income and expenses for the year 2022 of the Parent Company with the taxable income tax base is as follows:

Profit and Loss Account			
Financial year's earnings (After taxes)			(222.921,22)
	<i>Increases</i>	<i>Decreases</i>	<i>Net effect</i>
Profit tax	89.990,06	(146.582,99)	(56.592,93)
Permanent differences	1.134.635,21	-	1.134.635,21
Taxable income (tax result)	1.224.625,27	(146.582,99)	855.121,07

Permanent differences mainly correspond to impairments of investments and loans.

The following are the calculations made with regard to the Company Tax to be paid, in Euros:

	2023	2022
Charge at 25 % of Taxable Income	-	213.780,27
Deductions	-	(123.790,20)
Net tax payable	-	89.990,07
Less: withholdings and payments	(140,43)	(129.857,55)
Tax payable	(140,43)	(39.867,48)

The main components of corporate income tax expense are as follows:

	2023	2022
Current tax	(40.761,82)	(121.727,91)
Deferred tax	104.399,12	142.293,41
Total	63.637,30	20.565,50

The movement of deferred taxes generated and cancelled during the year 2023 is detailed below in euros:

	Balance at 31/12/2022	Generated	Cancelled	Balance at 31/12/2023
Deferred tax assets:				
Tax credits	71.093,81	4.177,33	-	75.271,14
Credits for deductions	403.221,32	117.088,17	-	520.309,48
Total	474.315,13	121.265,50		595.580,62

The movement of deferred taxes generated and cancelled during financial year 2022 is detailed below in euros:

	Balance at 31/12/2021	Generated	Cancelled	Balance at 31/12/2022
Deferred tax assets:				
Tax credits	11.499,38	59.594,43	-	71.093,81
Credits for deductions	280.426,99	122.794,33	-	403.221,32
Total	291.926,37	182.388,76	-	474.315,13

Credits for Tax Losses Carry Forward

The Group has activated the amount of the credit for tax bases of its investees Lleidanet Peru, Lleidanet Colombia and Lleidanet Dominican Republic, since they meet the requirements established by current regulations for their registration, and since there are no doubts about the ability to generate future tax profits that allow their recovery.

At the end of the 2023 financial year, the Group has the following negative tax bases pending to be offset for an amount of 2,542,980.46 euros that have not been activated and correspond to the Dominant Company and Lleida.net PKI, S.L.U

Deductions Pending Application

As of December 31, 2023, the Group has the following deductions to apply:

Origin Year	Amount
2008	11.288,42
2009	172.071,08
2010	181.164,26
2011	214.961,29
2012	344.112,78
2013	428.680,64
2014	245.346,28
2015	369.824,03
2016	188.991,46
2017	180.537,92
2018	170.354,09
2019	163.214,66
2020	136.418,80
2021	236.841,13
2022	205.539,80
2023	154.119,56
	3.403.466,20

In view of the Group's good performance, the Board of Directors of Parent Company has decided to recognise the deductions pending to apply tax credits for the years 2022 and 2023 as assets of the Group. The deadline for the use of deductions is 15 immediate and successive years from their generation.

NOTE 15. INCOME AND EXPENSES**a) Income***1. Disaggregation of revenue from ordinary activities.*

The distribution of the net turnover corresponding to the Company's ordinary activities is shown below:

Business areas (figures in thousands of euros)	2023		2022	
	Euros	%	Euros	%
Contracts	3.073	18,63%	2.999	15%
Notification	1.640	9,94%	2.468	12%
Other SaaS	2.865	17,38%	3.115	15%
ICX Wholesale Solutions	5.583	33,85%	8.455	40%
SMS Solutions	3.330	20,19%	3.634	18%
Total	16.491	100,00%	20.671	100%

The distribution of revenue from the Company's ordinary activities by geographical market is shown below:

Geographic market description	2023		2022	
	Euros	%	Euros	%
National	8.659.086,03	52,51%	9.189.049,12	44,45%
European Union	3.510.498,57	21,29%	5.355.241,84	25,91%
Rest of the World	4.321.092,78	26,20%	6.126.400,48	29,64%
Total	16.490.677,38	100,00%	20.670.691,44	100,00%

The distribution of revenue from the Company's ordinary activities, by type of contract, is shown below:

	Financial Year 2023	Financial Year 2022
Type of contract		
Fixed price contracts (*)	14.523.366,15	19.499.516,12
Variable contracts (**)	1.968.311,23	1.171.175,32
Total	16.490.677,38	20.670.691,44

(*) The prices offered to customers for each SaaS product, as well as the Wholesale prices offered in a specific period of time for a destination in the SMS, are considered fixed prices. Please note that all invoices issued are based on customer consumption.

(**) There are agreements with customers where the selling price is variable depending on the number of transactions made.

The distribution of revenue from the Company's ordinary activities, by contract term, is shown below:

	Financial Year 2023	Financial Year 2022
Duration of contract		
Short-term contracts	-	-
Long-term contracts	16.490.677,38	20.670.691,44
Total (*)	16.490.677,38	20.670.691,44

(*) The contracts signed by Lleida.net with its clients are normally for a period of one year with tacit renewal. We are not aware of any clients who have asked us to terminate the contract in the first year.

The distribution of the net turnover corresponding to the Company's ordinary activities, by sales channels, is shown below:

	Financial Year 2023	Financial Year 2022
Sales channels		
Distributors or wholesalers	1.579.639,53	1.299.412,05
Retailers (*)	840.720,66	289.944,01
Direct sales	14.070.317,19	19.081.335,38
Total	16.490.677,38	20.670.691,44

(*) Retailers are customers who buy our products online.

There are invoices to be issued, mainly for interconnection customer consumption in December 2022, which are invoices issued in January 2023.

There are no significant payment terms. The usual method of collection is by transfer, either on demand or 30 days after the invoice date.

There are no returns as there is no tangible asset. As for guarantees, they are those inherent to the service established by standard contract.

b) Supplies

This heading in the Profit and Loss Account is composed as follows, in Euros:

	2023	2022
Consumption of merchandise		
Domestics	3.271.889,34	3.961.113,67
Intra-Community Acquisitions	2.694.525,75	4.073.073,54
Imports	1.353.291,24	1.890.421,53
	7.319.706,33	9.924.608,74

c) Staff expenses

The composition of social charges as in the Profit and Loss Account are composed as follows, in euros:

	2023	2022
Company Social Security contributions	1.364.251,18	1.296.833,96
Other welfare costs	121.455,69	130.018,88
	1.485.706,87	1.426.852,84

In the current exercise, the Parent Company has carried out a workforce reduction procedure that has affected seventeen employees, and its effect is recorded as indemnities within the heading of "Wages, salaries and similar". Additionally, there have been 5 layoffs between Colombia and Peru. The expenses for this concept had been paid at the end of the exercise. The breakdown of the heading "Wages, salaries and similar" is as follows:

Additionally, in staff expenses, include the severance payments that have been paid at the end of the fiscal year as a result of the labor force layoffs carried out by the company. The breakdown of wages and salaries expenses is as follows:

	2023	2022
Wages and Salaries	5.243.268,59	4.900.105,09
Several payments	259.053,22	13.174,39
	5.502.321,81	4.913.279,48

d) Financial Results

This heading in the Profit and Loss Account is composed as follows, in Euros:

	2023	2022
Financial incomes	3.363,64	559,58
Other financial incomes	3.363,64	559,58
Financial expenses	(198.186,27)	(166.415,99)
For debts with credit institutions	(198.186,27)	(166.415,99)
Exchange differences	(64.463,72)	(45.912,98)
Impairment and results on disposals	-	-
Financial Result Positive / (Negative)	(259.286,35)	(211.769,39)

NOTE 16. INFORMATION ON THE ENVIRONMENT

The Group has no assets, nor has it incurred expenses, aimed at minimizing the environmental impact and protecting and improving the environment. There are likewise no provisions for risks and expenses and no contingencies relating to protection and improvement of the environment.

NOTE 17. SUBSEQUENT EVENTS

There have been no significant events, except for those mentioned above, from December 31, 2023 to the date of formulation of these annual accounts that, affecting them, would not have been included in them, or whose knowledge could be useful to a user of the same.

NOTE 18. CONSOLIDATED EARNINGS

The following is the breakdown for the financial year 2023 of the Consolidated Earnings in Euros:

Subsidiary	Individual Earnings of the Companies	Shareholding	Earnings Attributed to Parent Company	Result attributed to External Partners
Lleidanetworks Serveis Telemàtics, S.A.	(2.748.268,37)		(2.748.268,37)	-

Fees of the auditor for rendering audit services (other group companies)	11.965	11.450
Audit fees for other services (*)	25.700	24.500
Total	70.140	66.950

(*) The amount of fees for other services corresponded to the verification corresponding to the limited review of the interim financial consolidated statements as at 30 June 2023 and 30 June 2022.

(**) The amount of fees from firms in the Statutory Auditor's network for other services other than transfer pricing reports.

The Group is hereby informed that during the year it has paid the premium corresponding to the civil liability policy that would eventually cover any damage caused to third parties by acts or omissions related to the performance of its duties. The premium amounted to 76.942,52 euros (72.904,77 euros in the previous year).

NOTE 22. GOODWILL ON CONSOLIDATION

Details of goodwill in consolidation at year-end 2023 are as follows, in euros:

	Cost 31/12/2023	Amortisation 31/12/2023	Impairment 31/12/2023	Net Value 31/12/2023
Cost:				
Lleidanet PKI SL (antes Indenova, S.L.)	4.668.429,58	(996.805,65)	(190.207,60)	3.501.416,33
Goodwill on consolidation	4.688.429,58	(996.805,65)	(190.207,60)	3.501.416,33

The detail of the existing consolidation goodwill at the end of the 2022 financial year is as follows, in euros:

	Cost 31/12/2022	Amortisation 31/12/2022	Impairment 31/12/2022	Net Value 31/12/2022
Cost:				
Indenova, S.L.	4.688.429,58	(546.983,45)	(190.207,60)	3.951.238,53
Goodwill on consolidation	4.688.429,58	(546.983,45)	(190.207,60)	3.951.238,53

The Parent Company's Board of Directors has performed the analysis of the recoverability of this consolidation goodwill mentioned above, using cash flows based on sales projections for the period 2023-2027. According to management, these projections are based on the budget for 2023, the degree of compliance with the budget at the date of formulation of these Consolidated Financial Statements and management's best expectations for the business until 2027 for the corresponding analysis of possible impairments at 31 December 2023. Sales growth has been estimated at 61%, 14%, 12%, 10% and 8% respectively for each of the next 5 years.

Cash flows have also been discounted using the average cost of funds after tax. The discount rate used was 15,3 and a perpetual income of 2% was estimated.

In view of the above, the Board of Directors of the Parent Company has decided not to impair the consolidation goodwill in the current financial year based on the expected cash flow generation in the coming years by the subsidiary company.

In the previous financial year, the Board of Directors of the Parent Company considered impairing the consolidation goodwill by an amount of 190 thousand euros (see Note 5).

GROUP LLEIDANETWORKS SERVEIS TELEMÀTICS, S.A.
AND SUBSIDIARIES

CONSOLIDATED DIRECTORS' REPORT FOR THE FINANCIAL YEAR 2023

GROUP LLEIDANETWORKS SERVEIS TELEMÀTICS, S.A.
AND SUBSIDIARIES

CONSOLIDATED DIRECTORS' REPORT FOR
THE FINANCIAL YEAR 2023

In compliance with the provisions of the Corporations Law, the directors present below the management report for the year, in order to complement, expand and comment on the balance sheet, the profit and loss account and the report corresponding to fiscal year 2023.

1. EVOLUTION OF RESULT AND NET TURNOVER

The year 2023 has been a year of transition for the Lleida.net group.

<u>Sales by business line thousand euros</u>	2022	2023	Var. Euros	Var.%
Contracts	2.999	3.073	74	2%
Notification	2.468	1.640	(828)	-34%
Other SaaS	3.115	2.865	(250)	-8%
SMS Solutions	3.634	3.330	(304)	-8%
ICX WHOLESALE Solutions	8.455	5.583	(2.872)	-34%
Total	20.671	16.491	(4.179)	-20%

The group's global sales have decreased by 20% due to two main factors:

- The SMS market, both wholesale and commercial, has declined due to market maturity, as well as the destinations where messages with lower termination prices are being sent.
- On the other hand, the reduction in the notification line was caused by the service cut to the Colombian customer, Correos Postales Colombianos, 472, due to non-payment of service invoices. They have been gradually paying off part of the outstanding invoices during the year, and new payments are expected in 2024. In Colombia, new agreements are being signed with customers to recover the lost revenue from this client.
- The notification line has grown by 2%. We are focusing on the use of standard products instead of custom developments for customers. The impact on sales is progressive, as these processes are simpler and have a lower price than custom development, but growth rates are higher.

- The line of other SaaS includes service licenses, as well as all email verification transactions, timestamp, phone number, and identity. This year, the profitability of public entity licenses has been analysed, and it was decided not to renew the contracts in order to allocate development hours to standard automation product development.

<i>Data in thousand euros</i>	2022	2023	Var. Euros	Var.%
Sales	20.671	16.491	(4.180)	-20%
Cost of sales	(9.925)	(7.320)	(2.605)	-26%
Gross Profit	10.746	9.171	(1.575)	-15%
Staff Expenses	(6.340)	(6.748)	408	6%
Other expenses	(3.682)	(3.202)	(480)	-13%
Capitalization	1.156	863	(293)	-25%
EBITDA	1.880	84	(1.796)	-96%
Other incomes	65	79	14	22%
Depreciation	(2.073)	(2.124)	51	2%
Results on disposals	(194)	(64)	(130)	-67%
Other results	(1)	(196)	195	19500%
Severance pay		(240)	240	
Operating Result	(323)	(2.461)	(2.138)	-662%
Financial income	(166)	(195)	29	17%
Exchange rate differences	(46)	(64)	18	39%
Profit before tax	(535)	(2.720)	(2.185)	-408%
Taxes	20	63	43	215%
Profit after tax	(515)	(2.657)	(2.142)	-416%

Sales have decreased by 20% and impact on a 15% decrease in gross profit. The increase in the relative weight of SaaS sales in the overall sales allows for an increase in the margin on sales.

In 2023, the Group made a staff adjustment in order to return to profitability. In the matrix, a labor force layoffs was carried out, affecting 17 people. Additionally, layoffs were carried out in the companies in Colombia and Peru. In February 2024, layoffs were also carried out in the company Lleida.net PKI S.L.U.

Cost reductions have also been made in the outsourced services section where physical offices, external advisory services, business trips, and fairs have been eliminated. The impact is starting to be seen in the closing of the 2023 exercise, where we have an 13% decrease compared to the same period in 2022.

The capitalization corresponding to R&D&I work carried out for the development of new products has decreased compared to the 2022 exercise by 293 thousand euros due to reasonableness with the sales figure.

The decrease in sales has led to an EBITDA of 84 thousand euros, which has forced the group to take the necessary cost measures mentioned above during the 2023 exercise.

The operating result is negative by 2.461 thousand euros, derived from the expenses of several pay for the layoffs made, as well as by the provision made for possible contingencies included within other results.

The net financial result is lower due to the increased use of short-term credit lines, as well as the rise in the Euribor, which is the reference index we have for these credit lines. The group's long-term financing is mainly at fixed rates, with monthly amortizations, and with interest rates lower than the current Euribor.

The negative result after taxes of 2.7 million reflects the exceptional situation the group has experienced in this fiscal year. To reverse this situation, cost-cutting corrective measures have been implemented in the market, as well as a product standardization and vertical strategy, and geographical focus on sales. The year 2024 will be the year to reverse the losses of the 2023 period.

2. SUBSEQUENT EVENTS

After December 31, 2023, and up to the date of preparation of this Management Report, there have been no subsequent events in addition to those already mentioned in the explanatory notes of the financial statements and the previous section, which reveal circumstances that already existed as of December 31, 2023 and which, due to the importance of their economic impact, should result in adjustments to the Financial Statements or modifications to the information contained in the explanatory notes.

There are also no other subsequent events, different from those already mentioned in the explanatory notes, that demonstrate conditions that did not exist as of December 31, 2023 and that are of such importance that they require additional information in the explanatory notes of the annual accounts.

3. PROBABLE EVOLUTION OF THE GROUP

After the expense adjustments that have been made in the group, both following the departures of staff due to the labor force layoffs carried out in December 2023 at the headquarters, as well as the layoffs made in the Latin American subsidiaries, and the review of all expense items, the company expects to return to a path of profit. Sales forecasts are optimistic, as evidenced by the latest contracts awarded by Santander bank at the beginning of the 2024 fiscal year, which will result in recurring sales over the next 3 years of 650 thousand euros per year. Sales increases will come from increases in consumption by recurring customers, the acquisition of new customers, as well as the marketing of new hybrid products that have been developed in collaboration with Lleida.net PKI, S.L.U. technology.

4. RESEARCH ACTIVITIES

In 2023, the Group invested 863 thousand euros in research activities primarily focused on the Group's certification line and hybrid products along with Lleida.net PKI, S.L.U. technology.

5. OPERATIONS WITH OWN SHARES

According to the regulations of BME Growth and Euronext Growth, the company signed a liquidity agreement with the placement bank for its market debut. This agreement establishes both the delivery of a certain amount of own shares, as well as the deposit of a cash amount. The objective of this contract is to allow investors to trade the company's shares, ensuring that anyone interested has the possibility to buy or sell shares.

As of December 31, 2023, the company had 526,398 shares with a valuation on that date of 414,102.07 euros, representing 3.3% of the shares of Lleidanetworks Serveis Telemàtics, S.A.

6. FINANCIAL INSTRUMENTS,

During 2023, the Group is not exposed to significant exchange rate risk, so it does not carry out operations with financial instruments of exchange rate.

The treasury department does a daily check-up of the actual treasury situation and compares it with the weekly forecasts that are made. The Group has a comfortable short-term financial capacity, as reflected by the positive balances in the credit accounts.

In the face of global uncertainty situations, such as the spread of COVID-19, the Group has managed to secure the collaboration of financial institutions for the signing of new financing agreements both in the short and long term.

The main exchange rate risks that the Group faces are with the dollar and the Colombian currency (COP). The group does not currently operate with exchange rate insurance, although this is a variable that is being analysed for the future. The risk is low in the group, as we have expenses and income in these currencies, so we use current accounts in these currencies to be able to meet payments in foreign currency with receipts in foreign currency. When we have a currency shortfall, we go to the spot market, always analysing the currency's evolution a month in advance to take advantage of the best time for the exchange.

7. DEFERMENT OF PAYMENT TO SUPPLIERS

Information concerning deferrals of payments to suppliers is shown in the Financial Statements in Note 10. During the year 2023, the Group has increased the payment term to its suppliers compared to the year 2022, negotiating in most cases the extensions of the term. The operations pending payment at the end of the year have a period of less than 30 days. To reduce the term, the Group has negotiated payment lines with banking entities, as well as longer payment terms with certain suppliers. The expected cash generation for 2024 will allow for a reduction in the payment terms in the new year.

8. EFFECTS DERIVED FROM THE CONFLICT IN UKRAINE

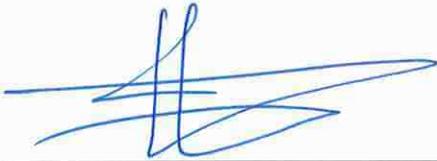

The information referring to the effects derived from the current situation caused by the conflict in Ukraine is shown in the Financial Statements, in Note 1.e

DIRECTOR'S REPORT FOR FINANCIAL YEAR 2023

LLEIDANETWORKS SERVEIS TELEMÀTICS, S.A.

**AUDIT REPORT ON THE ANNUAL ACCOUNTS
ISSUED BY AN INDEPENDENT AUDITOR**

**Audit report on the annual accounts
issued by an independent auditor**

To the Shareholders of **LLEIDANETWORKS SERVEIS TELEMÀTICS, S.A.:**

Opinion

We have audited the annual accounts of **LLEIDANETWORKS SERVEIS TELEMÀTICS, S.A.** (the Company), which comprise the balance sheet as of December 31, 2023, the income statement, the statement of changes in equity, the statement of cash flows and the notes to the annual accounts for the year then ended.

In our opinion, the accompanying annual accounts give, in all material respects, a true and fair view of the Company's equity and financial position as of December 31, 2023, as well as its results and cash flows for the financial year then ended, in accordance with the application of the regulatory framework of financial information (identified in note 2.a of the annual accounts) and, in particular, with the accounting principles and criteria contained therein.

Basis of opinion

We have performed our audit in accordance with the regulations governing the auditing of accounts in force in Spain. Our responsibilities under these standards are described below in the section on the *auditor's responsibilities for the audit of the annual accounts* in our report.

We are independent from the Company in accordance with the ethical requirements, including those of independence, which are applicable to our audit of the annual accounts in Spain as required by the regulations governing the activity of auditing accounts. Accordingly, we have not provided services other than those of the audit of accounts nor have concurred situations or circumstances that, in accordance with the provisions of the aforementioned governing regulations, have compromised the necessary independence.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Key audit matters

The key audit matters are matters that, in our professional judgment, were of most significance in our audit of the annual accounts of the current period. Our audit procedures relating to these matters were designed in the context of our audit of the annual accounts as a whole, and in the formation of our opinion on these and we do not express a separate opinion on those matters.

Key audit matters	Audit response
<p data-bbox="272 389 783 416">Valuation of capitalized research expenditures</p> <p data-bbox="272 465 783 864">As described in notes 4.a. and 5 to the accompanying notes, the Company presents in the balance sheet intangible assets for expenses on research and development projects amounting to 2.058 thousand. These expenses must be specifically individualised by project and have a sound basis for economic-commercial profitability, among other requirements in order to be capitalized in the Company's balance sheet. In addition, the evaluation by the Company's management and directors of their recoverable value and possible need for impairment involves value judgements and estimates. For these reasons, we have considered the valuation of these assets as a key audit matter in our audit.</p>	<p data-bbox="807 389 1318 439">We have carried out the following audit procedures, among others:</p> <ul data-bbox="807 461 1318 1462" style="list-style-type: none"><li data-bbox="807 461 1318 562">- Understanding of the policies and procedures applied by the Company for the capitalization of research and development expenses.<li data-bbox="807 584 1318 734">- We have analysed a sample of activations of the projects during the year, obtaining evidence such as the hours and cost of the same incurred by the workers in the different projects and the cost of external collaborations.<li data-bbox="807 757 1318 864">- We have obtained the certificates issued by an independent third party on the projects regarding the tax validity of the capitalised amounts.<li data-bbox="807 887 1318 1137">- We have obtained a breakdown of the carrying amount of research and development expenditure by project and have analysed the reasonableness of their recoverable value by reviewing the reasonableness of the assumptions, reviewing the arithmetic calculation, analysing the sales projections, their profitability and verifying the deviations that occurred in past estimates.<li data-bbox="807 1160 1318 1238">- We have verified the correct amortization of the different projects capitalised on the basis of their useful life.<li data-bbox="807 1261 1318 1462">- Finally, we have verified that the notes to the accompanying annual accounts include the disclosures of related information required by the applicable financial reporting framework. In this regard, Notes 4.a and 5 of the attached report include the aforementioned information breakdowns.

Valuation of investments, loans and balances with group companies

As described in notes 4.d, 8, 9 and 19 to the accompanying notes to the annual accounts, investments in group companies together with the balances of group customers and other investments represent, on an aggregate basis, 47,9% of the Company's total assets.

We focus on this area, due to the amount of its net book value over the total assets of said investments, credits and balances, and because the evaluation by the management and the Directors of the Company of its recoverable value implies the execution of value judgments and important estimates, mainly on the results, discount rate, calculation methodology, and future flows of the investee companies.

For these reasons, we have considered the valuation of investments and loans with group companies as a key matter in our audit.

We have carried out, among others, the following audit procedures:

- Understanding of the policies and procedures applied by the Company in respect of the valuation of investments and balances with group companies.
- We analysed the evolution of the investments in group companies, loans and balances of the various subsidiaries during the year.
- We have analysed the existence of signs of impairment of investments in group companies by comparing the net book value of the investment with the net book value of the subsidiaries' financial statements and, where appropriate, through the analysis of the business plan and discounted cash flows.
- We have reviewed the impairment test provided by analysing the assumptions contained therein, the methodology applied, the reasonableness of the discount rate used and the reasonableness of the calculations as well as the business plans of the different subsidiaries, to determine the reasonableness of future cash flows in the current forecasts.
- We have assessed whether events up to the date of the audit report provide audit evidence regarding the estimates made.
- Finally, we have verified that the notes to the accompanying annual accounts include the disclosures of related information required by the applicable financial reporting framework. In this regard, Notes 4 d), 8, 9 and 19 of the attached report include the aforementioned information breakdown.

Application of the going concern principle

Due to the fact that the Company has losses at year-end 2023 and 2022 amounting to 2,74 million euros and 222 thousand euros respectively, it has negative working capital at year-end 2023 and 2022 amounting to 2,57 million euros and 315 thousand euros respectively, and given the Company's level of debt at year-end, which represents 49% of its total liabilities and equity (42% in 2022), it is necessary for the Company to comply with its business plan and cash budget, as well as to obtain new financing in order to be able to continue with its operations. As described in note 2.d of the notes to the consolidated financial statements, the Company has obtained new sales contracts in 2024 with respect to 2023, which will allow it to increase sales in 2024. In addition, certain cost reduction policies were initiated in 2023 that will have their full impact in 2024.

These circumstances are factors causing and mitigating doubts regarding the application of the going concern principle in the preparation of the annual accounts, the assessment of which involves making value judgements and estimates. For these reasons, we have considered the application of the going concern principle as a key audit matter.

We have carried out, among others, the following audit procedures:

- Understanding of the policies and procedures applied by the Company in the process of estimating the Business Plan and Cash Budget.
- Obtaining the Business Plan and Cash Budget prepared by the Company's Management.
- Obtaining supporting documentation relating to the renewal of credit policies upon maturity.
- We have analysed the reasonableness of the estimates and assumptions of the Business Plan and the Cash Budget, made by the Company's directors, through meetings with management and verification of verifiable data.
- We have analysed the degree of compliance with the cash budget and the financial situation of the Company up to the date of this report.
- Finally, we have verified that the notes to the accompanying annual accounts include the related disclosures required by the applicable financial reporting framework. In this regard, note 2.d of the accompanying notes to the financial statements includes the aforementioned disclosures.

Other information: Directors' report

The other information comprises exclusively the directors' report for the financial year 2023, the draw up of which is the responsibility of the Board of Directors and does not form an integral part of the annual accounts.

Our audit opinion on the annual accounts does not cover the directors' report. Our responsibility for the directors' report, as required by the regulations governing the audit activity, is to assess and report on the consistency of the directors' report with the annual accounts, based on our knowledge of the Entity obtained in the course of the audit of the annual accounts, and to assess and report on whether the content and presentation of the directors' report are in accordance with the applicable regulations. If, based on the work we have performed, we conclude that there are material misstatements, we are required to report them.

Based on the work performed, as described in the preceding paragraph, the information contained in the directors' report agrees with that in the annual accounts for financial year 2023 and its content and presentation are in accordance with the applicable regulations.

The responsibility of the Board of Directors and the Audit Committee of the annual accounts

The Board of Directors are responsible for drawing up the accompanying annual accounts so that they give a true image of the equity, the financial situation and the results of the Company, in accordance with the regulatory framework on financial information applicable to the Entity in Spain, and of the internal control that they consider necessary to allow the preparation of the annual accounts free of material misstatement, due to fraud or error.

In the preparation of the annual accounts, the Board of Directors are responsible for assessing the Company's ability to continue as a going concern, revealing, as appropriate, the matters related with a company in operation and using the accounting principle of a going concern except if the Board of Directors intend to liquidate the Company or cease operations, or if there is no other realistic alternative.

The audit committee is responsible for supervising the preparation and presentation of the annual accounts.

The auditor's responsibility for the audit of the annual accounts

Our objectives are to obtain reasonable assurance that the annual accounts as a whole are free from material misstatement, due to fraud or error, and to issue an audit report that contains our opinion.

Reasonable assurance is a high level of assurance, but it does not guarantee that an audit conducted in accordance with the regulations governing the audit activity in force in Spain will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these annual accounts.

As part of an audit in accordance with the regulations governing the account auditing activity in Spain, we exercise professional judgment and maintain an attitude of professional scepticism throughout the entire audit. Also:

- We identify and assess the risks of material misstatement in the annual accounts, due to fraud or error, design and perform audit procedures to respond to those risks and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or circumvention of internal control.
- We obtain knowledge of the internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, and not for the purpose of expressing an opinion on the effectiveness of the internal control of the Entity.
- We evaluate the appropriateness of accounting policies used and the reasonableness of the accounting estimates and disclosures by the Board of Directors.
- We conclude whether the use, by the Board of Directors, of the accounting principle of the Company as a going concern is adequate and, based on the audit evidence obtained, we conclude on whether or not there is material uncertainty related to events or conditions that can generate significant doubts about the ability of the Company to continue as a going concern. If we conclude that there is material uncertainty, we are required to draw attention in our audit report to the corresponding information disclosed in the annual accounts or, if such disclosures are not adequate, we express a modified opinion. Our conclusions are based on the audit evidence obtained at the date of our audit report. However, future events or conditions may cause the Company to cease to be a going concern.
- We evaluate the overall presentation, structure and content of the annual accounts, including the disclosures and whether the annual accounts represent the underlying transactions and events in a manner that achieves fair presentation.

We are required to communicate with the audit committee regarding, amongst other matters, the planned scope and timing of the audit and significant findings, including any significant deficiencies in internal control that we identify during the course of the audit.

We also required the audit committee of the Company with a statement that we have complied with the relevant ethical requirements, including those of independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Among the matters that have been communicated to the audit committee, we determine those that have been of the greatest significance in the audit of the annual accounts for the current period and that are, consequently, the key matters of the audit.

We describe these matters in our audit report unless legal or regulatory provisions prohibit public disclosure of the matter.

Report on other legal and regulatory requirements

Additional report to the Audit Committee

The opinion expressed in this report is consistent with that expressed in our additional report to the Parent's Audit Committee dated April 29, 2024.

Contract period

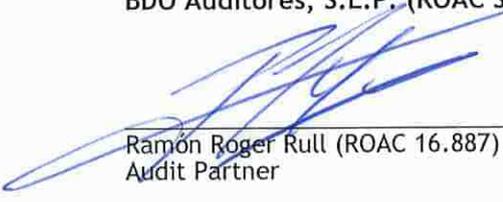

The Extraordinary General Shareholders' Meeting held on November 25, 2022 appointed us as auditors for a period of 3 years, starting from the year ended December 31, 2022.

Previously, we were appointed by resolution of the General Shareholders' Meeting for the three-year period and we have been auditing the accounts uninterruptedly since the year ended December 31, 2007, and the Company has been a Public Interest Entity (PIE) since 2015.

Services provided

The services, other than the audit of accounts, provided to the Company are detailed in Note 20 to the annual accounts.

LLEIDANETWORKS SERVEIS TELEMÀTICS, S.A.

NOTES TO THE ANNUAL ACCOUNTS FOR THE FINANCIAL YEAR 2023

NOTE 1. INCORPORATION, ACTIVITIES AND LEGAL SYSTEM OF THE COMPANY

a) Incorporation and Registered Office

LLEIDANETWORKS SERVEIS TELEMÀTICS, S.A. (hereinafter "Parent Company"), was registered in Lleida on January 30th, 1995. On October 7, 2017, the Parent Company approved the change of registered office, which is currently located at General Lacy, number 42, Ground Floor - Local I in Madrid. Previously its registered office was at the Parc Científic i Tecnològic Agroalimentari de Lleida, Edifici H1, Planta 2, Lleida. On 26 October 2021, the board of directors resolved to transfer the company's registered office to Calle Téllez, 56 Local C in Madrid.

On June 30, 2011, the General Shareholders' Meeting was held in which the transformation from a Limited Company to a Public Limited Company was agreed. On December 12, 2011, the agreement reached at the aforementioned meeting was notarized and deposited in the Mercantile Registry on February 17, 2012.

b) Activities

Its activity consists of acting as a teleoperator of short message service (SMS) management services via the Internet, notification and electronic contracting services, as well as any other activity related to the aforementioned corporate purpose.

c) Legal System

The Company is governed by its Articles of Association and by the Law Capital Companies.

d) Quotation in Stock Markets

On June 1st, 2015, the Parent Company approved at the Shareholders' Meeting the request for incorporation into the Alternative Stock Market, currently called BME Growth, of all the shares of the Parent Company.

On October 7th, 2015, the Board of Directors of Bolsas y Mercados Españoles, Sistemas de Negociación, S.A., approved the incorporation of 16.049.943 shares of 0,02 euros' nominal value each into the segment of companies in expansion of the Alternative Stock Market, effective as of October 9, 2015. On November 7, 2015, the Parent Company changed its Registered Advisor, appointing GVC GAESCO VALORES SV, S.A. On December 19, 2018, the Company was listed on Euronext Growth Paris under the dual listing system, with Invest Securities being the Listing Sponsor. On November 2, 2020, the Company was listed on the OTCQX market in New York. On 29 September 2021, the company changed its liquidity provider, appointing Solventis A.V., S.A.

e) Consolidated Annual Accounts

As indicated more extensively in Note 9, the Company holds majority interests in various companies. Therefore, in accordance with Royal Decree 1159/2010 of 17th September, Royal Decree 602/2016 of 2nd December and Royal Decree 1/2021 of 12th January, it is required to prepare and present Consolidated Annual Accounts, although this obligation does not exempt it from preparing and presenting Individual Annual Accounts. The attached Annual Accounts correspond exclusively to Lleidanetworks Serveis Telemàtics, S.L.

d) Effect of the conflict in Ukrania

Since February 2022, a conflict has arisen in Europe between the nations of Russia and Ukraine. In this sense, the possible effects on the economy in general and on society in particular that this conflict may have should be taken into account. The Board of Directors considers that the main effect that this event has had on the company's figures has been the increase in electricity prices, which has had an impact on the company's figures of an increase of 45 thousand euros on the expenses for the year 2022. However, the company has implemented corrective measures in the year 2023 that have allowed to reduce the amount by 37 thousand euros. Additionally, although the Board of Directors does not consider that there is a risk of discontinuity in its activity at the close of December 31, 2023, it is necessary to constantly monitor the evolution of these events and their economic effects in the assessment of future estimates, whose effects would be recorded prospectively.

NOTE 2. BASIS OF PRESENTATION OF ANNUAL ACCOUNTS**a) True and Fair View and applicable financial information regulatory framework.**

The Annual Accounts for the financial year 2023 have been taken from the Company accounting records and drawn up in accordance with the applicable commercial law currently in force and with the standards established in the General Accounting Plan approved by Spanish Royal Decree 1514/2007, of 16 November, applying the modifications introduced by Royal Decree 1159/2010, of 17 September, and Royal Decree 602/2016, of 2 December and Royal Decree 1/2021, of 12 January, to show a true and fair view of the Company assets and liabilities, financial position and earnings, as well as the accuracy of the cash flows included in the cash flow statement.

b) Accounting Principles Applied

The Annual Accounts have been drawn up by applying the accounting principles established in the Spanish Commercial Code and in the General Accounting Plan.

c) Presentation Currency

In accordance with the applicable laws and regulations on accounting, the annual accounts are expressed in Euros.

d) Critical Aspects of Uncertainties Valuation and Estimation

In preparing the accompanying annual accounts, estimates made by the Board of Directors of the Company have been used to assess some of the assets, liabilities, revenues, and expenses recorded in them. The estimates and criteria refer to:

- Evaluation of the going concern entity:
- o The Company, as of December 31, 2023, has a negative working capital of 2.57 million euros and a debt representing approximately 80% of its liabilities. To reverse this situation, in 2023 the Company undertook an intensive cost reduction policy that included:
 - Reduction of personnel expenses. In December 2023, the Company implemented an employment regulation file, leading to the reduction of 17 positions.
 - Reduction of external service costs by eliminating physical offices, foreign advisors, exhibitions, commercial travel, internal events.
 - Enhancement of standard product marketing for the year 2024, with lower development costs and higher margins.
 - Focus on international expansion territories, with a concentration in countries where we already have recurring business, specifically Spain, Europe, Colombia, Dominican Republic, and Peru.

The estimation of cost reduction on a consolidated level resulting from all cost adjustments was communicated through a press release, amounting to 1,380 thousand euros annually.

The company's Business Plan, considering all these reductions, is aimed at achieving a positive EBITDA. At the beginning of 2024, we published through a press release significant contracts that were not foreseen in the 2024 sales budgets, such as the awarding of contracts by Santander Global Technology & Operations S.L for an annual amount per year of 650 thousand euros for 3 years.

Additionally, on a financial level, the company has implemented the following measures:

- Renewal of short-term credit lines with banking entities. To date, the company has renewed 4 of the short positions that were expiring before the preparation of the annual accounts. Work is being done to renew the positions expiring in subsequent months.
- Request for loans from public entities for the financing of R&D projects being undertaken for the development of new products.

Furthermore, within the current liabilities, there is a debt of 378 thousand euros with former partners, which will be paid in the form of own shares that the Company has already acquired, reflected in the Company's equity.

At the end of the current fiscal year, the Company has incurred significant losses amounting to 2.7 million euros, due to a decrease in activity, as well as to impairment provision of investments in group companies, amounting to 1.5 million euros. This fact, together with the existence of a negative working capital, could indicate uncertainty regarding the application of the accounting principle of a going concern and, consequently, about the Company's ability to realize its assets, and settle its liabilities, in the amounts shown on the attached balance sheet. However, as described in this same note, the Company has implemented an intensive cost reduction policy in the 2023 fiscal year, which will have its full effect in 2024, and has additionally obtained new contracts compared to the previous year, which make it hopeful for a revenue recovery. As a result, the directors of the Company have prepared these Annual Accounts on a going concern basis, considering that the fulfilment of the business plan, as well as obtaining new financing, will allow the Company to face any cash flow tensions that may arise during the year 2024.

- Possible impairment of assets: investments, loans, and balances with group companies (Note 4.d):
 - o As of December 31, 2023, the Company maintains significant receivables and equity instruments with Group companies (Note 19.1), whose recovery will be linked to the residual value of the cash flow estimate. Based on the budgets set by Management, the Board of Directors of the Company estimates that the recovery of all receivables with Group companies listed on the Company's balance sheet will occur.
- Reasonableness of the activation and recoverability of research projects.
- Patent evaluation
- Recoverability of assets through deferred tax

In addition to the matters mentioned above, there are uncertainties and aspects about the future that may carry significant risks that could lead to significant changes in the value of assets and liabilities in the following fiscal year:

- Slower growth than planned in the Business Plan: slower maturation in some countries.
- Foreign exchange risk, although the Company has a natural hedge with revenues and costs in foreign subsidiaries denominated in the same currency.
- Highly fragmented and competitive market at the local level.

Although these estimates have been made based on the best available information at the end of the 2023 financial year, future events may require them to be modified (upward or downward) in the coming years, which would be done prospectively, recognizing the effects of the change in estimation in the corresponding income statement account.

e) Comparison of the Information

In accordance with commercial law, for comparison purposes, the Board of Directors presents, in addition to the figures for the financial year 2023, for each of the items in the Balance Sheet, Profit and Loss Accounts, the Statement of Changes in Equity and the Cash-Flow Statement, the figures for the previous financial year. The items for both financial years are comparable and homogeneous.

f) Correction of Errors

The 2023 Annual Accounts do not include related adjustments as a result of errors detected in the annual accounts of previous years.

g) Fair value

It is the price that would be received to sell an asset or paid to transfer or settle a liability in an orderly transaction between market participants at the measurement date. The fair value shall be determined without any deduction for transaction costs that might be incurred due to disposal or disposition by other means. In no case shall the fair value result from a forced or urgent transaction or as a consequence of an involuntary liquidation situation.

Fair value is estimated for a particular date and, because market conditions may change over time, that value may be inappropriate for another date. In addition, in estimating fair value, an enterprise should take into account the conditions of the asset or liability that market participants would take into account in pricing the asset or liability at the measurement date.

In estimating fair value, it is assumed that the transaction to sell the asset or transfer the liability is carried out:

- a) Between interested and duly informed parties, in an arm's length transaction,
- b) In the main market of the asset or liability, understood as the market with the highest volume and level of activity, or
- c) In the absence of a principal market, in the most advantageous market to which the company has access for the asset or liability, understood as the one that maximizes the amount that would be received for the sale of the asset or minimizes the amount that would be paid for the transfer of the liability, after taking into account transaction costs and transportation expenses.

In general, fair value is calculated by reference to a reliable market value.

For those items for which there is no active market, the fair value will be obtained, where appropriate, through the application of valuation models and techniques.

The fair value of a financial instrument must consider, among other things, the credit risk and, in the specific case of a financial liability, the company's default risk, which includes, among other components, its own credit risk. However, no adjustments for volume or market capacity should be made to estimate the fair value.

h) Responsibility for Information and Estimates Made

The information contained in these Annual Accounts is the responsibility of the members of the Company's Board of Directors. In these Annual Accounts, estimates have been used to value some of the assets, liabilities, income, expenses and commitments that are recorded therein, and that, basically, these estimates refer to the evaluation of impairment losses of certain assets, to the useful life of non-current assets and to the probability of occurrence of provisions (see section d) above).

Even though these estimates were made based on the best information available on the date of preparation of the annual accounts, it is possible that events that could take place in the future may force them to be modified in future years. In such a case, this would be done prospectively, recognizing the effects of the change in estimate in the corresponding profit and loss accounts.

i) Statement of Recognized Income and Expenses

In this year, as in the previous year, the Company has not recognized income or expenses directly in Equity, having recorded all of them in the Profit and Loss Account for the corresponding year. Therefore, these annual accounts do not include the Statement of Recognized Income and Expenses.

NOTE 3. DISTRIBUTION OF EARNINGS

The proposed distribution of 2023 and 2022, drawn up by the Board of Directors are shown below, in Euros:

	2023	2022
Distribution base:		
Profits obtained/ (Generated losses) in the financial year	(2.748.268,36)	(222.921,22)
Distribution to:		
Compensation of previous years losses	(2.748.268,36)	(222.921,22)
Distribution of dividends		-

There are no limitations on the distribution of dividends in the Company's bylaws.

NOTE 4. RECOGNITION AND VALUATION STANDARDS

The principal standards used by the Company in the drafting of its Annual Accounts for the 2023 financial year, in accordance with those established by the General Accounting Plan, were as follows:

a) Intangible Fixed Assets

Assets included in intangible fixed assets are valued by their cost, whether purchase price or production cost, reduced by the corresponding accumulated amortization and losses from any impairment which, where appropriate, has occurred.

The depreciable amount of an intangible asset is allocated on a systematic basis over its useful life. The amortization charge for each period is recognized in profit or loss account.

Research Costs

Capitalized research costs are specifically individualized for projects and their costs are clearly established so they can be spread over time. Similarly, Management the Group has substantial grounds for expecting the technical success and the financial and commercial profitability of these projects.

Research and development costs that appear as assets are amortized on a straight-line basis over their useful life, at an annual rate of 20%, and always within a period of 5 years.

As soon as there are reasonable doubts over the technical success or financial and commercial profitability of a project, the values recorded in the asset that apply to it are directly allocated to the financial year's losses.

Computer Applications

Licenses for computer applications purchased from third parties are capitalized on the basis of the costs incurred for purchasing.

Computer applications are amortized on a straight-line basis throughout their useful lives, at an annual rate of 33%.

Maintenance expenses for computer applications incurred during the financial year are recognized in the Profit and Loss Account.

Industrial Property

Corresponds to the capitalized development expenses for which the relevant patent or similar has been obtained and includes the registration and formalization costs for the industrial property, as well as the costs for purchasing the corresponding rights from third parties.

During all these years, the Company has been able to develop methods and unique technologies in its sector by continuous investment in research and development. The result of this effort has been the publication of patents at European, American and PCT levels, putting in value the effort developed during these last years. These patents allow the Group to license this technology to third parties and protect it against possible copies of other actors in the sector, less scrupulous when creating original models.

b) Tangible Fixed Assets

Tangible fixed assets are valued by their acquisition price net of the corresponding accumulated amortization and, where appropriate, of the accumulated value of the recognized allowances for impairment.

Repair and maintenance expenses incurred during the financial year are debited in the Profit and Loss Account. Costs for renovating, extending or improving intangible fixed assets, representing an increase in capacity, productivity or lengthening of useful life, are capitalized as a higher value of the corresponding assets, once the book values of the replaced items have been de-recognized.

Tangible fixed assets, net of their residual value, where appropriate, are amortized by a straight-line-basis distribution of the various items that constitute these fixed assets over the years of estimated useful life making up the period in which the Group hopes to use them, according to the following table:

	Annual Percentage	Estimated Years of Useful Life
Buildings	2,50	40
Technical facilities	8 - 10	10 - 12,50
Machinery	20 - 25	4 - 5
Transportation assets	10	10
Other installations	10	10
Furniture	10 - 15	6,67 - 10
Computer equipment	25 - 50	2 - 4
Other tangible fixed assets	15	6,67

The book value of a tangible fixed-asset item is de-recognized in the accounts through its alienation or disposal by other means; or where no future economic benefits or profits are expected to be obtained for its use, alienation or disposal by other means.

The loss or profit resulting from writing-off a tangible fixed-asset item is determined as the difference between the net values, where appropriate, of the sales costs resulting from its alienation or disposal by other means, where available, and the item's book value, and is allocated to the Profit and Loss Account for the financial year in which this occurs.

At the financial year's closure, the Company assesses whether there are signs of impairment in a tangible fixed-asset item or any cash-generating unit, in which case the recoverable amounts are estimated and the necessary allowances are made.

An impairment loss is deemed to have occurred in a tangible fixed-asset item where its book value exceeds its recoverable value, this being understood as the higher value between its fair value less the sales costs and its value in use.

Allowances for impairment in the tangible fixed-asset items, as well as their reversals where the circumstances producing them cease, are recognized as an expense or income respectively in the Profit and Loss Account.

c) Leases and Other Transactions of a Similar Nature

Operating-lease expenses incurred during the financial year are debited in the Profit and Loss Account.

d) Financial Instruments

The Company records under financial instruments those contracts that give rise to a financial asset in one company and, simultaneously, to a financial liability or equity instrument in another company.

A financial asset is any asset that is: cash, an equity instrument of another company, or involves a contractual right to receive cash or another financial asset (a debt instrument), or to exchange financial assets or liabilities with third parties on potentially favourable terms.

For valuation purposes, financial assets are classified in the following category:

- Financial assets at amortized cost.

Financial instruments issued, incurred or assumed are classified as financial liabilities, in whole or in part, provided that according to their economic reality they represent a direct or indirect contractual obligation for the Company to deliver cash or another financial asset, or to exchange financial assets or liabilities with third parties under potentially unfavourable conditions.

For valuation purposes, financial liabilities are classified in the following category:

- Financial liabilities at amortized cost.

This treatment applies to the following financial instruments:

a) Financial assets:

- Cash and cash equivalents.
- Trade receivables: trade accounts receivable and sundry accounts receivable.
- Loans to third parties: such as loans and financial credits granted, including those arising from the sale of non-current assets.
- Equity instruments of other companies acquired: shares, units in collective investment undertakings and other equity instruments.
- Other financial assets: such as deposits in credit institutions, loans to personnel, guarantees and deposits, dividends receivable and disbursements required on own equity instruments.

b) Financial liabilities:

- Trade accounts payable: suppliers and sundry creditors.
- Debts with credit institutions.
- Other financial liabilities: debts with third parties, such as loans and financial credits received from persons or companies other than credit institutions, including those arising from the purchase of non-current assets, guarantees and deposits received and disbursements required by third parties on participations.

Financial assets at amortized cost

A financial asset is included in this category, even when it is admitted to trading on an organized market, if the Company holds the investment with the objective of receiving cash flows from the execution of the contract, and the contractual terms of the financial asset give rise, at specified dates, to cash flows that are solely collections of principal and interest on the principal amount outstanding.

Contractual cash flows that are solely collections of principal and interest on the principal amount outstanding are inherent to an agreement that is in the nature of an ordinary or common loan, notwithstanding that the transaction is agreed at a zero or below-market interest rate.

In this category are classified:

- a) Trade receivables: financial assets arising from the sale of goods and the rendering of services in connection with trade transactions, and
- b) Receivables from non-trade operations: financial assets which, not being equity instruments or derivatives, do not have a commercial origin and whose collections are of a determined or determinable amount.

Financial liabilities at amortized cost

The following are classified under this category:

- a) Trade debts: financial debts arising from the purchase of assets and services through commercial transactions, and
- b) Nontrade debts: Financial liabilities which, not being derivative instruments, have no commercial origins, but arise from loans or credit operations received by the Company.

Initial assessment

Initially, financial assets and liabilities included in this category are measured at fair value, which is the transaction price, and which is equal to the fair value of the consideration given plus directly attributable transaction costs.

Notwithstanding the preceding paragraph, trade receivables and payables maturing in less than one year that do not have a contractual interest rate, as well as, if applicable, advances and loans to personnel, dividends receivable and disbursements required on equity instruments, the amount of which is expected to be received in the short term, and disbursements required by third parties on participations, the amount of which is expected to be paid in the short term, are valued at their nominal value when the effect of not discounting the cash flows is not significant.

Subsequent assessment

In subsequent valuations, both assets and liabilities are valued at amortized cost. Accrued interest is recorded in the income statement, applying the effective interest rate method. Notwithstanding the foregoing, receivables and payables maturing within one year that were initially valued at their nominal value continue to be valued at that amount, unless, in the case of receivables, they have been impaired.

Impairment of financial assets at amortized cost

At least at year-end, the necessary valuation adjustments are made whenever there is objective evidence that the value of a financial asset, or of a group of financial assets with similar risk characteristics valued collectively, is impaired as a result of one or more events that occurred after initial recognition and that cause a reduction or delay in the estimated future cash flows, which may be caused by the debtor's insolvency.

The impairment loss on these financial assets is the difference between their carrying amount and the present value of future cash flows, including, if applicable, those from the execution of real and personal guarantees, estimated to be generated, discounted at the effective interest rate calculated at the time of their initial recognition. For financial assets at variable interest rates, the effective interest rate corresponding to the closing date of the financial statements is used in accordance with the contractual conditions.

Impairment losses, as well as their reversal when the amount of such loss decreases due to a subsequent event, are recognized as an expense or income, respectively, in the income statement. The reversal of impairment is limited to the carrying amount of the asset that would have been recognized at the date of reversal had no impairment loss been recognized.

Financial assets at cost

This valuation category includes equity investments in group companies, jointly controlled entities and associates.

Initial valuation

Investments included in this category are initially measured at cost, which is the fair value of the consideration given plus directly attributable transaction costs, applying, where applicable, in relation to group companies, the criteria included in the specific rules of the standard on transactions between group companies, and the criteria for determining the cost of the combination established in the standard on business combinations.

However, if an investment existed prior to its classification as a group company, jointly controlled entity or associate, the cost of that investment is taken to be the carrying amount that it should have had immediately before the company was classified as a group company, jointly controlled entity or associate.

The initial valuation includes the amount of any pre-emptive subscription rights and similar rights that may have been acquired.

Subsequent valuation

Equity instruments included in this category are measured at cost less any accumulated impairment losses.

Where these assets are to be valued due to derecognition or otherwise, the weighted average cost method is applied for homogeneous groups, i.e., securities with equal rights.

Impairment

At least at year-end, the necessary value adjustments are made whenever there is objective evidence that the carrying amount of an investment is not recoverable.

The amount of the impairment loss is the difference between the carrying amount and the recoverable amount, the latter being the higher of fair value less costs to sell and the present value of future cash flows arising from the investment, which in the case of equity instruments are calculated either by estimating those expected to be received as a result of the distribution of dividends by the investee and the disposal or derecognition of the investment in the investee, or by estimating its share of the cash flows expected to be generated by the investee from its ordinary activities and from the disposal or derecognition of the investment.

Unless there is better evidence of the recoverable amount of investments in equity instruments, the estimate of the impairment loss on this type of asset is calculated on the basis of the equity of the investee and the discounted future cash flows expected to be obtained from these investments. In determining this value, and provided that the investee has in turn invested in another investee, the equity included in the consolidated annual accounts prepared by applying the criteria of the Commercial Code and its implementing regulations is taken into account.

The recognition of impairment losses and, where applicable, their reversal, are recognised as an expense or income, respectively, in the income statement. The reversal of impairment is limited to the carrying amount of the investment that would have been recognised at the date of reversal had no impairment loss been recognised.

Financial assets at fair value through equity

A financial asset is included in this category when the contractual terms of the financial asset give rise, at specified dates, to cash flows that are solely payments of principal and interest on the outstanding principal amount, and it is not held for trading or classified as financial assets at amortized cost.

For equity instruments that are not held for trading, or should not be measured at cost, the Company may make an irrevocable election at initial recognition to present the subsequent changes in fair value directly in equity.

Initial valuation

Financial assets included in this category are initially valued at their fair value, which, unless evidence to the contrary exists, is the transaction price, equivalent to the fair value of the consideration transferred, plus directly attributable transaction costs. The initial valuation also includes the amount of any preferential subscription rights and similar rights that may have been acquired.

Posterior valuation

Financial assets included in this category are valued at their fair value, without deducting transaction costs that may be incurred in their sale. Changes in fair value are recognized directly in equity, until the financial asset is derecognized from the balance sheet or impaired, at which point the amount recognized is charged to the income statement.

However, impairment value adjustments and gains and losses resulting from exchange rate differences in foreign currency monetary financial assets are recorded in the income statement.

The amount of interest, calculated using the effective interest rate method, and accrued dividends are also recorded in the income statement. When it is necessary to assign a value to these assets due to derecognition from the balance sheet or for other reasons, the weighted average method by homogeneous groups is applied.

Impairment of value

At least at the end of the financial year, necessary valuation adjustments are made whenever there is objective evidence that the value of a financial asset, or a group of financial assets included in this category with similar risk characteristics collectively valued, has deteriorated as a result of one or more events that have occurred after its initial recognition, and that cause:

- a) In the case of acquired debt instruments, a reduction or delay in estimated future cash flows, which may be caused by the debtor's insolvency; or
- b) In the case of investments in equity instruments, the lack of recoverability of the carrying amount of the asset, evidenced, for example, by a prolonged or significant decline in its fair value.

The impairment adjustment for the value deterioration of these financial assets is the difference between their cost or amortized cost less, if applicable, any impairment adjustment previously recognized in the income statement, and the fair value at the time of valuation.

Accumulated losses recognized in equity due to decrease in fair value, whenever there is objective evidence of impairment in the value of the asset, are recognized in the income statement.

If the fair value increases in subsequent years, the impairment adjustment recognized in previous years reverses with credit to the income statement for the year. However, in the event that the fair value of an equity instrument increases, the impairment adjustment recognized in previous years will not reverse with credit to the income statement and the increase in fair value is recorded directly against equity.

Reclassification of Financial Assets

When the Company changes the way in which it manages its financial assets to generate cash flows, it will reclassify all the affected assets in accordance with the criteria previously indicated. The reclassification of category is not a derecognition but a change in the valuation criteria.

Derecognition of Financial Assets

The Company derecognizes a financial asset, or part of it, when the contractual rights to the cash flows from the financial asset expire or have been transferred and the risks and rewards of ownership have been substantially transferred, in circumstances that are assessed by comparing the Company's exposure, before and after the transfer, to changes in the amounts and timing of the net cash flows of the transferred asset. It is understood that the risks and benefits inherent to ownership of the financial asset have been substantially transferred when its exposure to such variation ceases to be significant in relation to the total variation in the present value of the future net cash flows associated with the financial asset.

When the financial asset is derecognized, the difference between the consideration received net of attributable transaction costs, considering any new asset obtained less any liability assumed, and the carrying amount of the financial asset, determines the gain or loss arising on derecognition of the asset, and forms part of the profit or loss for the year in which the gain or loss arises.

The Company does not derecognize financial assets and recognizes a financial liability for an amount equal to the consideration received, in transfers of financial assets in which it has retained substantially all the risks and rewards of ownership, such as in bill discounting, factoring with recourse, sales of financial assets with repurchase agreements at a fixed price or at the sale price plus interest and securitizations of financial assets in which the transferor retains subordinated financing or other types of guarantees that absorb substantially all the expected losses.

Derecognition of Financial Liabilities

The Company derecognizes a financial liability, or part thereof, when the obligation has been extinguished, i.e., when it has been satisfied, cancelled or has expired. The Company also derecognizes its own financial liabilities that it acquires, even if it intends to relocate them in the future.

The difference between the carrying amount of the financial liability or part thereof that has been derecognized and the consideration paid, including any costs or commissions incurred, which also includes any asset transferred other than cash or liability assumed, is recognized in the income statement for the year in which it occurs.

In case of an exchange of debt instruments that do not have substantially different terms, the original financial liability is not derecognized. Any transaction costs or commissions incurred adjust the carrying amount of the financial liability. From that date, the amortized cost of the financial liability is determined by applying the effective interest rate that matches the carrying amount of the financial liability with the cash flows payable under the new terms.

Own equity instruments

An equity instrument is any legal transaction that evidences, or reflects, a residual interest in the assets of the issuing company after deducting all its liabilities.

In the event that the company enters into any transaction with its own equity instruments, the amount of these instruments is recorded in equity, as a change in shareholders' equity, and in no case may they be recognised as financial assets of the company and no profit or loss is recorded in the profit and loss account.

Expenses arising from these transactions, including the costs of issuing these instruments, such as lawyers', notaries' and registrars' fees; printing of reports, bulletins and securities; taxes; advertising; commissions and other placement expenses, are recorded directly in equity as a reduction in reserves.

Bonds delivered and received

Deposits or guarantees provided as security for certain obligations are valued at the amount actually paid, which does not differ significantly from their fair value.

In case of deposits given or received for operating leases or for the provision of services, the difference between their fair value and the amount paid (due, for example, to the fact that the deposit is long-term and is not remunerated) is considered as an advance payment or collection for the lease or provision of the service, which is charged to the income statement over the period of the lease, in accordance with the standard on leases and other transactions of a similar nature, or over the period in which the service is rendered, in accordance with the standard on revenue from sales and services provisioned.

When estimating the fair value of the bonds, the remaining period is taken as the minimum contractual term committed during which the amount cannot be returned, without taking into account the statistical behaviour of return.

When the bond is short-term, it is not necessary to discount cash flows if its effect is not significant.

e) Transactions in foreign currencies

Transactions in foreign currencies are recognized by their exchange value in Euros, by using the spot exchange-rate for the dates on which they occur.

On the close of each financial year, monetary items are valued by applying the average spot exchange-rate on that date. Exchange differences, both positive and negative, which result from this process, as well as those generated on selling off equity items, are recognized in the Profit and Loss Account for the financial year in which they arise.

f) Profit Tax

Profit tax is recognized in the Profit and Loss Account or directly in the Equity depending on where the gains or losses giving rise to it are found. Profit tax for each financial year includes both current and deferred taxes, where appropriate. The income tax for each year includes both current and deferred taxes, if applicable.

The current tax amount is the sum to be paid by the Company as a result of the assessment notices for the tax.

Differences between the book value of assets and liabilities, and their tax base, generate the deferred tax asset or liability tax balances which are calculated using the expected tax rates at the time of their reversal, and under the method in which it can be reasonably expected to recover or pay the asset or liability.

Variations arising during the financial year in deferred tax asset or liability taxes are recognized either in the Profit and Loss Account or directly in the equity, as appropriate.

Deferred tax assets are only recognized insofar as it is probable that the company will have future tax gains that allow these assets to be applied.

In each closing balance sheet, the book value of the recognized deferred tax assets is analysed and the necessary adjustments are made insofar as there are doubts over their future tax recoverability. Likewise, in each closing non-recognized deferred taxes are assessed in the balance sheet and these are subject to recognition to the extent that their recovery with future tax benefits is probable.

g) Income and Expenses

The main services offered by the Company consist of notification, signature and electronic contracting services.

Revenue recognition for sales and services delivered

The Company recognizes revenue in the ordinary course of business when (or as) control of the committed goods or services is transferred to the customer. At that time, the Company values the revenue at the amount that reflects the consideration to which it expects to be entitled in exchange for those goods or services.

Control of a good or service (an asset) refers to the ability to decide fully on the use of that item of property, plant and equipment and to obtain substantially all of its remaining benefits. Control includes the ability to prevent other entities from deciding on the use of the asset and obtaining its benefits.

In order to apply this fundamental criterion for revenue recognition, the Company follows a complete process consisting of the following successive stages:

- a) Identify the contract (or contracts) with the client, understood as an agreement between two or more parties that creates enforceable rights and obligations for them.
- b) Identify the obligation or obligations to be fulfilled in the contract, representative of the commitments to transfer goods or provide services to a customer.
- c) Determine the transaction price, or contract consideration to which the company expects to be entitled in exchange for the transfer of goods or provision of services committed to the customer.
- d) Allocate the price of the transaction to the obligations to be fulfilled, which should be based on the individual sales prices of each different good or service committed to in the contract, or, if applicable, following an estimate of the sales price when the same is not independently observable.
- e) Recognize revenue from ordinary activities when (as) the company fulfils a committed obligation through the transfer of a good or the rendering of a service; fulfilment that takes place when the customer obtains control of that good or service, so that the amount of revenue recognized will be the amount allocated to the contractual obligation satisfied.

For each obligation to be fulfilled (delivery of goods or provision of services) identified, the Company determines at the beginning of the contract whether the commitment undertaken is fulfilled over time or at a specific point in time. As specified in note 16, the invoicing issued by the Company is based on customer consumption of each product. In this regard, for all of the Company's business lines, revenues are also recognised on a monthly basis according to the consumption made by each customer during corresponding month.

Fulfilment of the obligation at a given time

In cases where the transfer of control over the asset does not occur over time, the Company recognizes revenue following the criteria established for obligations that are fulfilled at a specific point in time. In order to identify the specific time at which the customer obtains control of the asset (generally an asset), the Company considers, among others, the following indicators:

- a) The customer assumes the significant risks and benefits inherent to the ownership of the asset. In assessing this point, the Company excludes any risk that gives rise to a separate obligation, other than the commitment to transfer the asset.
- b) The Company has transferred physical possession of the asset.
- c) The customer has received (accepted) the asset in accordance with the contractual specifications.
- d) The company has a collection right for transferring the asset.
- e) The customer has ownership of the asset.

Valuation

Revenue from the sale of goods and the rendering of services is measured at the monetary amount or, where appropriate, at the fair value of the consideration received or expected to be received, which, unless there is evidence to the contrary, is the price agreed for the assets to be transferred to the customer, less: the amount of any discounts, price rebates or other similar items that the Company may grant, as well as interest included in the face value of the receivables.

However, the interest incorporated in trade receivables with a maturity not exceeding one year that do not have a contractual interest rate is included, when the effect of not discounting the cash flows is not significant. If applicable

Taxes levied on the delivery of goods and provision of services that the company must pass on to third parties, such as value added tax and excise taxes, as well as amounts received on behalf of third parties, do not form part of income.

In cases where variable consideration exists, the Company takes into account in the valuation of the revenue the best estimate of the variable consideration if it is highly probable that there will not be a significant reversal of the amount of revenue recognized when the uncertainty associated with the aforementioned consideration is subsequently resolved.

h) Provisions and Contingencies

Debentures existing at the close of the financial year, resulting from past events which may occasion loss in equity for the Group, and whose value and time of cancellation are indeterminate, are recognized on the balance sheet as provisions and are valued by the current value of the best possible estimate for the amount necessary to cancel the obligation or transfer it to a third party.

i) Grants, Donations and Legacies

Non-refundable capital grants, as well as donations and legacies, are valued by the fair value of the amount granted or of the goods received. They are initially allocated directly as income in the equity and recognized in the Profit and Loss Account in proportion to the amortization undergone over the period by the assets financed through these grants, unless these are non-depreciable assets, in which case they will be allocated to the earnings of the financial year in which their alienation or de-recognition takes place.

Grants intended for cancelling debts are allocated as income for the financial year in which the cancellation occurs, unless they are received for a specific financing, in which case the allocation is made according to the item that is financed.

Refundable grants are recognized as long-term debt convertible into subsidies until they become non-refundable.

Operating grants are credited to the earnings of the financial year when they accrue.

j) Related-Party Transactions

In general, items forming the subject matter of a related-party transaction are initially recognized by their fair value. The subsequent valuation is made in accordance with the provisions laid down in the corresponding regulations.

k) Cash-Flow Statements

Cash-flow statements use the following expressions according to the meanings given below:

Cash and Equivalents: Cash is both cash in hand and demand deposits. Cash equivalents are financial instruments forming part of the Group's normal cash management, are convertible into cash, have initial maturities no greater than three months and are subject to little significant risk of change in their value.

Cash Stream-flows: inflows and outflows of cash or other equivalent resources, with the latter being understood as investments having terms under three months, high liquidity and low risk of changes in value.

Operating Activities: these are the activities that make up the principal source of the Group's ordinary income, as well as other activities that cannot be classified under investment or financing.

Investment Activities: acquisition, alienation or disposal by other means of long-term assets and other investments not included in cash or cash equivalents.

Financing Activities: activities that lead to changes in the size and composition of the equity and financial liabilities.

NOTE 5. INTANGIBLE FIXED ASSETS

Details of and changes in intangible fixed assets throughout the financial year 2023 are as follows:

	31/12/2022	Additions	De-Recognition	Transfers	31/12/2023
Cost:					
Research	13.187.257,56	554.672,85	-	-	13.741.930,41
Industrial Property	1.159.207,97		-	161.785,86	1.320.993,83
Computer applications	544.009,63	44.212,83	-	-	588.222,46
Advances for intangible fixed assets	554.801,82	192.349,94	-	(161.785,86)	585.365,90
	15.445.276,98	791.235,62	-	-	16.236.512,60
Accumulated amortization:					
Research	(10.870.120,40)	(813.479,41)	-	-	(11.683.599,81)
Industrial Property	(475.182,52)	(87.899,68)	-	-	(563.082,20)
Computer applications	(342.268,54)	(113.567,76)	-	-	(455.836,40)
	(11.687.571,46)	(1.014.946,95)	-	-	(12.702.518,41)
Intangible Fixed Assets, Net	3.757.705,52	(223.711,33)	-	-	3.533.994,19

The additions in the year mainly relate to the R&D developments the Company has made in its SaaS product lines as well as the investments made in patents to register the methodology of these new products. The amount of work carried out by the company for its intangible assets amounted to 554 thousand in the current fiscal year (817 thousand in the previous year).

During the current fiscal year, the Company has conducted a valuation of some of its patents, which has not resulted in impairment at the close of the year.

Details of and changes in intangible fixed assets throughout the financial year 2022 are as follows:

	31/12/2021	Additions	De-Recognition	Transfers	31/12/2022
Cost:					
Research	12.372.277,80	817.779,59	(2.799,83)	-	13.187.257,56
Industrial Property	1.054.272,10	49.568,26	-	55.367,61	1.159.207,97
Computer applications	341.188,03	177.766,70	-	25.054,90	544.009,63
Advances for intangible fixed assets	587.442,81	80.105,22	(32.323,70)	(80.422,51)	554.801,82
	14.355.180,74	1.125.219,77	(35.123,53)	-	15.445.276,98
Accumulated amortization:					
Research	(10.095.241,70)	(775.487,76)	609,06	-	(10.870.120,40)
Industrial Property	(389.147,55)	(86.034,97)	-	-	(475.182,52)

Lleida.net PKI S.L.U	100%	7.100.000,00	(2.311.208,96)	4.788.791,04	1.205.969,36
Pending disbursements Lleidanet USA		(2.349,36)	-	(2.349,36)	-
Pending disbursements Lleidanet Honduras, SA		(659,05)	-	(659,05)	-
Pending disbursements Lleidanet Dominica, SRL		(10.127,97)	-	(10.127,97)	-
Pending disbursements Lleida Chile SPA		(3.256,83)	-	(3.256,83)	-
Pending disbursements Lleida Information Technology Network Services		(34.141,19)	-	(34.141,19)	-
Affiliated companies:					
Lleida Networks India Private Limited	25%	6.575,00	(6.575,00)	-	-
Total		7.926.744,82	(2.917.479,54)	5.009.265,28	346.111,26

The difference between the investment that is maintained in the company Lleida.net PKI S.L.U, and its theoretical book value is due to the fact that the Company expects to obtain future profits and cash flows in the subsidiary company that allow the recoverability of the investment. In this regard, the Board of Directors of the Company has carried out an analysis of the recoverability of the investment in Lleida.net PKI, S.L.U, S.L. For this analysis, cash flows based on sales projections for the period 2024-2028 have been used. According to management, these projections are based on the budget for 2023, the degree of compliance with the budget at the date of preparation of these financial statements and management's best expectations for the business until 2028 for the corresponding analysis of possible impairment at 31 December 2023. Sales growth has been estimated at 13,2%, 20%, 17,5%, 15% and 13% respectively for each of the next 5 years. Cash flows have also been discounted using the average cost of funds after tax. The discount rate used was 15,3% and a perpetual income of 2% was estimated. As a result of the foregoing, the Company's Board of Directors has considered impairing the holding in Lleida.net PKI, S.L.U. in the current year by 1.400 thousand euros on the basis of the expectations of cash flow generation forecast for the coming years by this investee company.

Valuation Corrections

In previous years, the Company fully impaired the interests held in Lleidanet USA, Inc, in Lleida Networks India Private Limited, Lleidanet Perú and partially in Lleidanet Dominicana and Lleida.net PKI, S.L.U. In the current year the Company has impaired its shareholdings in Lleida.net Costa Rica for an amount of 16,06 euros and partially Lleida.net PKI S.L.U for an amount of 1,4 million euros.

The registered offices and the activities carried out by the investees are shown below:

Credit Lines

As of December 31, 2023, the Group has credit policies granted with a total limit amounting to 1.815.000 euros (1.715.000 euros at the end of the previous year), which amount drawn at the aforementioned date is 1.684.719,91 euros (544.946,68 euros at the end of the previous year).

Lines of Effects and Import Advances

As of December 31, 2023, the Company has discount policies granted with a total limit amounting to 700.000 euros (500.000 euros at the end of the previous year), which amount drawn at the aforementioned date is 149.297,31 euros (0,00 euros at the end of the previous year).

10.1.2) Other Financial Liabilities

Deferred payment for the acquisition of Lleida.net PKI, S.L.U

On 30 November 2022 the Company acquired 100% of the shares of Lleida.net PKI, S.L.U. for a price of 7.100.000,00 euros, making a first payment of 4.010.387,67 euros, with the remaining amount, i.e. 3.089.612,33 euros, being deferred. A payment schedule has been established, with dates of November 30, 2022, 2023, 2024 and 2025 in cash and another payment schedule with dates of November 30, 2023, 2024 and 2025 consisting of a fixed amount which will be paid by delivery of shares of Lleidanetworks Serveis Telemàtics, S.A. (own actions). At the end of the 2023, there are pending payments amounting to 1.695 thousand euros, of which 486 thousand euros have been included with a due date of 2028. Within the purchase contract with the sellers, the Company included the option of payment retentions for incidents that could be identified once the purchase was formalized.

Due to incidents identified in previous financial statements, the Company has notified and withheld payments from the buyers for an amount of 486 thousand euros. The Company believes it has substantial grounds for not paying these amounts. However, as a precautionary measure, it has decided to keep them on the balance sheet and will reverse these amounts when it has sufficient evidence that there are no future adjustments.

On January 5th 2024, the Company will proceed to pay 209 thousand euros of the payment corresponding to November 30th, 2023, through the delivery of company shares

Other debts

% of total invoices	60,27%	69,10%

NOTE 12. INFORMATION ON THE NATURE AND LEVEL OF THE RISK FROM FINANCIAL INSTRUMENT

Company activities are exposed to various types of financial risk, most especially credit, liquidity and market risks (exchange rate, interest rate and other price risks).

12.1) Credit Risk

The Company's main financial assets are cash and cash balances, trade and other receivables and investments, which represent the Company's maximum exposure to credit risk in relation to financial assets.

The Company's credit risk is attributable mainly to its commercial debts. The amounts are reflected in the net balance of provisions for bad debts, estimated by the management of the Company based on the experience of previous years and its assessment of the current economic environment.

12.2) Liquidity Risk

As specified in note 2.d of these notes to the consolidated financial statements, the Company has a negative working capital at year-end. The treasury department has a daily overview of the actual cash position which is compared with weekly forecasts. In this respect, as stated in note 2.d, the Company does not expect to have short-term financing problems thanks to the fulfilment of its business plan and the obtaining of new financing. In the face of global uncertainty, the Company has secured the cooperation of financial institutions to sign new short and long-term financing agreements.

12.3) Market Risk

Possible market risks are described in note 1.e.

12.4) Exchange Rate Risk

The Company is not exposed to a significant exchange rate risk and therefore does not trade in hedging instruments. In the case of loans to Group companies, the reference currency is the euro, so that the exchange rate risk is borne by these Group companies.

12.5) Interest Rate Risk

Changes in interest rates modify the fair value of assets and liabilities bearing a fixed interest rate as well as the future flows of assets and liabilities referenced to a variable interest rate.

The objective of interest rate risk management is to achieve a balance in the debt structure that will minimize the cost of debt over the multiannual horizon with a reduced volatility in the Profit and Loss Account.

NOTE 13. EQUITY**13.1) Share Capital**

As of December 31, 2023, and December 31, 2022, the share capital amounts to 320.998,86 euros and is represented by 16.049.943 registered shares of 0,02 euros nominal each, fully subscribed and paid up. These holdings enjoy equal political and economic rights.

As of December 31, 2023 as well as of December 31, 2022, there are no companies with a direct or indirect stake equal to or greater than 10% of the share capital.

Capital Increase

By virtue of the admission to trading on the Alternative Stock Market, the Parent Company carried out the following transactions in its share capital:

- On June 1, 2015, a General Shareholders' Meeting resolved to split the shares of the Parent Company by reducing the par value of the shares by 60,10 euros at a nominal value of 0,02 euros per share. In this operation, 3.005 shares were generated for each old share, with the capital stock being formed by 11.812.655 shares with a nominal value of each share at nominal 0,02 euros each.
- On June 1, 2015, it was agreed by the General Shareholders' Meeting to modify the system of representation of the shares, transforming the nominative securities representing the shares in which the Parent Company's capital is divided into account entries.
- On June 1, 2015, it was resolved by means of a General Meeting of Shareholders to modify the transmission regime of the shares of the Parent Company, passing this transfer of shares to be free and not subject to consent or authorization by the Company nor by shareholders
- On June 1, 2015, it was agreed by the General Meeting of Shareholders to request the incorporation in the segment of Companies in Expansion of the Alternative Stock Market of all the shares representing the Parent Company.
- On September 30, 2015, it was agreed to increase the Parent Company's Capital Stock by 84.745,78 euros through the issuance of 4.237.288 shares with a nominal value of 0,02 euros and an issue premium of 1,16 euros per share. This extension is fully subscribed and disbursed.

13.2) Reserves

The breakdown for Reserves is as follows, in euros:

	31/12/2023	31/12/2022
Legal Reserve	64.199,77	64.199,77
Voluntary Reserves	2.564.603,88	2.966.327,13
	2.628.803,65	3.030.526,90

a) Legal Reserve

The Legal Reserve is restricted with regard to its use, which is determined by a variety of legal provisions. In accordance with the Law Capital Companies, trading companies which obtain profits under this legal form are obliged to provide the reserve with 10% of these, until the constituted reserve fund reaches one fifth of the subscribed share capital. The purposes of the legal reserve are the compensation of losses or the increase of capital by the exceeding part of the 10% of the capital already increased, as well as its distribution to the shareholders in case of liquidation. At December 31, 2023 the Legal Reserve was fully endowed.

13.3) Issue Premium

This reserve amounted to 5.244.344,28 euros, of which 329.090,20 euros arose as a result of the capital increase carried out in 2007 and 4.915.254,08 euros arose as a result of the capital increase carried out in the 2015 exercise for the departure of the Parent Company to the Alternative Stock Market. It has the same restrictions and can be used for the same purposes as voluntary reserves, including their conversion into share capital.

13.4) Own Shares

On 1 June 2015, the Company's shareholders' meeting resolved to authorise the Board of Directors to derivatively acquire treasury shares under the terms provided for in current legislation. These acquisitions of treasury shares were made through the liquidity provider GVC Gaesco Valores SV, S.A. At the shareholders' meeting on 7 June 2022, the allocation of funds for the treasury stock programme is approved. ANDBANK SAU was appointed as manager for the acquisition of the first 500.000 euros, to allocate it to Lleidanet contractual obligations with respect to the acquisition of Indenova, whereby it was agreed to pay part of the deferred purchase price in shares of the parent company. Subsequently, on 23 July 2021, a new allocation of a further 500 thousand euros was made, and all in all, 175.534 shares were purchased at an average price of 5,53 euros per share.

On 29 September 2021, the company changed its liquidity provider, appointing Solventis A.V., S.A. in which 30 thousand shares were transferred from the former liquidity provider Gaesco, and an additional 150 thousand euros were allocated for the management of the company's treasury stock.

As of December 31, 2023, the Parent Company holds own shares for an amount of 1.448.058,19 euros (1.731.481,07 euros at the end of the previous year) at an average cost price of euros 2.75 per share (3,93 euros per share in the previous year). As a result of the sale of shares in the current year, there has been a negative impact on the Company's reserves amounting to EUR 402 thousand euros, which is explained by the decrease in the share price during 2023.

At the end of the financial year, the Company owned 526,398 treasury shares with a unit nominal value of 0.02 euros per share. During the year 2023, the Company acquired 1,127,067 shares for a value of 1,738,382.87 euros and sold 1,034,026 shares for a value of 1,608,955.45 euros in the markets where it is listed. The purpose of the treasury shares is to provide liquidity through contracts with liquidity providers, as well as to meet deferred payments for the purchase of Lleida.net PKI, S.L.U in shares.

NOTE 14. FOREIGN CURRENCY

The most significant foreign currency balances as of December 31, 2023, totaled in euros and broken down into their foreign currency equivalent, are as follows:

	EUROS	USD	CLP	GBP
CURRENT ASSETS				
Trade debtors and other accounts	38.571,00	38.596,43	-	1.375,57
CURRENT LIABILITIES				
Trade creditors and other payable accounts	2.860,71	302,28	1.096.136,00	557,94

The most significant foreign currency balances as of December 31, 2022, totaled in euros and broken down into their foreign currency equivalent, were as follows:

	EUROS	USD	CLP	GBP
CURRENT ASSETS				
Trade debtors and other accounts	67,93	-	-	57,39
CURRENT LIABILITIES				
Trade creditors and other payable accounts	5.633,05	3.081,77	2.403.886,00	-

The most significant transactions carried out during the financial year 2023 totalized in euros and broken down into the equivalent in foreign currency, are as follows:

	EUR	USD	GBP	CLP	MXN	ZAR	PLN	JPY	AED	CAD	AUD
Purchases and services received	1.047.270,33	924.129,60	65.359,46	8.030,47	17.873,42	14,34	17.780,60	11.037,79	1.004,15	781,21	1.259,03
Sales and services given	134.791,24	143.050,76	1.375,57	-	4.004,96						

The most significant transactions carried out during the financial year 2022 totalized in euros and broken down into the equivalent in foreign currency, are as follows:

	EUR	USD	GBP	CLP	COP	MXN	ZAR	PLN	JPY	AED	PEN
Purchases and services received	1.353.322,58	1.326.770,66	34.416,78	9.144.292,00	860.692,00	320.328,68	9.234,50	37.191,18	471.300,00	46.130,00	33.814,62
Sales and services given	425.114,93	442.295,30	57,39	-	-	2.792,00	-	-	-	-	-

NOTE 15. TAX SITUATION

The following is the breakdown of the balances with the Tax Authorities as of December 31, 2023 and 2022 in Euros:

	31/12/2023		31/12/2022	
	Active	Payable	Active	Payable
Non Current:				
Deferred tax assets	520.309,48	-	403.221,32	-
Total Non Current	520.309,48	-	403.221,32	-
Current:				
Value Added Tax	-	173.344,52	3.257,82	83.745,59
Grants to be paid (*)	1.089,00	-	1.089,00	-
Income Tax retentions	-	86.585,48	-	68.311,37
Social Security bodies	40.007,92	-	39.867,49	-
Income tax	3.470,00	101.895,36	12.080,90	87.860,96
Total Current	44.566,92	361.825,36	56.295,21	239.917,92

Tax Matters

In accordance with current legislation, tax payments cannot be considered final until they have been inspected by the tax authorities, or until the statute barring period of four years has passed.

At December 31, 2023, the Company has all the taxes to which it is subject from 2019 to 2023 open for inspection by the tax authorities. Consequently, on the occasion of possible inspections, additional liabilities may arise to those recorded by the Company. However, the directors of the Company and its tax advisers consider that any such liabilities would not be material to the annual accounts taken as a whole.

Corporate Income Tax

The conciliation of the net amount of income and expenses for the year 2023 with the tax base of the profit tax is:

Profit and Loss Account			
Financial year's earnings (After taxes)			(2.748.268,36)
	<i>Increases</i>	<i>Decreases</i>	<i>Net effect</i>
Profit Tax	-	(104.399,12)	(104.399,12)
Permanent differences	1.738.964,65	(132.840,74)	1.606.123,91
Taxable income (tax result)	1.738.964,65	(237.239,86)	(1.246.543,57)

Permanent differences mainly correspond to impairments of investments and loans held with group companies.

The conciliation of the net amount of income and expenses for the year 2022 with the tax base of the profit tax is:

Profit and Loss Account			
Financial year's earnings (After taxes)			(222.921,22)
	<i>Increases</i>	<i>Decreases</i>	<i>Net effect</i>
Profit Tax	89.990,06	(146.582,99)	(56.592,93)
Permanent differences	1.134.635,21	-	1.134.635,21
Taxable income (tax result)			855.121,07

Permanent differences mainly correspond to impairments of investments and loans held with group companies.

The following are the calculations made with regard to the Company Tax to be paid, in Euros:

	2023	2022
Charge at 25 % of Taxable Income	-	213.780,27
Deductions	-	(123.790,20)
Net tax payable	-	89.990,06
Less: withholdings and payments	(140,43)	(129.857,55)
Tax payable	(140,43)	(39.867,49)

The main components of corporate income tax expense are as follows:

	2023	2022
Current tax	-	89.990,06
Deferred tax	(104.399,12)	(146.582,99)
Total	(104.399,12)	(56.592,93)

The movement of deferred taxes generated and cancelled during financial year 2023 is detailed below in euros:

	Balance at 31/12/2022	Generated	Balance at 31/12/2023
Deferred tax assets:			
Tax credits	403.221,32	117.088,16	520.309,48

The movement of deferred taxes generated and cancelled during financial year 2022 is detailed below in euros:

	Balance at 31/12/2021	Generated	Balance at 31/12/2022
Deferred tax assets:			
Tax credits	256.638,33	146.582,99	403.221,32

Tax Loss Carry forwards

At the end of the 2023 fiscal year, the company has the following negative taxable bases pending to be offset 1.246.543,57 euros generated in fiscal year 2023

Deductions pending to apply

As of December 31, 2023, the Group has the following deductions to apply:

Year of Origin	Amount
2008	11.288,42
2009	172.071,08
2010	181.164,26
2011	214.961,29
2012	251.779,01
2013	90.887,05
2014	127.371,20
2015	369.824,03
2016	188.991,46
2017	180.537,92
2018	170.354,09
2019	163.214,66
2020	136.418,80
2021	131.964,53
2022	163.483,06
2023	117.088,16
	2.671.399,02

In view of the Company's good performance, the Board of Directors has decided to recognise the deductions pending to apply tax credits for the years 2022 and 2023 as assets of the Company. The deadline for using the deductions is 15 immediate and subsequent years from their generation.

NOTE 16. INCOME AND EXPENSES**a) Revenues***1. Disclosure of revenues from ordinary activities.*

The distribution of the net sales corresponding to the Company's ordinary activities is shown below:

Business Areas (figures in thousands of euros)	2023		2022	
	Euros	%	Euros	%
Notification	1.208	21,21%	1.946	10,91%
Contracts	2.898	8,84%	2.890	16,21%
Other SaaS	824	6,03%	1.002	5,62%
SMS Solutions	3.312	24,23%	3.639	20,41%
ICX Wholesale Solutions	5.423	39,68%	8.355	46,85%
Total	13.665	100,00%	17.832	100,00%

The distribution of the net sales from the Company's ordinary activities, by geographic market, is shown below:

Geographic market description	2023		2022	
	Euros	%	Euros	%
National	8.332.353,45	60,97%	8.958.214,38	50,24%
European Union	3.532.282,28	25,85%	5.265.346,44	29,53%
Rest of the world	1.800.900,63	13,18%	3.607.950,22	20,23%
Total	13.665.536,36	100,00%	17.831.511,04	100,00%

The distribution of the net sales corresponding to the Company's ordinary activities, by type of contract, is shown below:

	2023 Financial Year	2022 Financial Year
Type of contract		
Fixed price contracts (*)	8.174.908,62	16.245.107,90
Variable contracts (**)	5.490.627,74	1.586.403,14
Total	13.665.536,36	17.831.511,04

(*) Fixed prices are the prices offered to customers for each SaaS product, as well as the wholesale prices offered in a specific period of time for a destination in the SMS. Please note that all invoices issued are based on customer consumption.

(**) There are agreements with customers where the selling price is variable depending on the number of transactions made.

The distribution of the net sales corresponding to the Company's ordinary activities, by contract term, is shown below:

	2023 Financial Year	2022 Financial Year
Contract duration		
Short-term contracts	-	-
Long-term contracts	13.665.536,36	17.831.511,04
Total (*)	13.665.536,36	17.831.511,04

(*) The contracts signed by Lleida.net with its clients are normally for a period of one year with tacit renewal. We are not aware of any client who has asked us to terminate the contract in the first year.

The distribution of the net sales from the Company's ordinary activities, by sales channel, is shown below:

	2023 Financial Year	2022 Financial Year
Sales channels		
Distributors or wholesalers	621.156,82	519.627,55
Retailers (*)	261.605,39	265.377,98
Sales channels	12.782.774,15	17.046.505,51
Total	13.665.536,36	17.831.511,04

(*) Retailers are the customers who buy our products online.

There are invoices to be issued, mainly for interconnection customer consumption in December 2023, which are invoices issued in January 2024.

There are no significant payment terms. The usual method of collection is by transfer, either on demand or 30 days after the invoice date.

There are no returns as there is no tangible asset. As for guarantees, they are those inherent to the service established by standard contract.

b) Supplies

This heading in the Profit and Loss Account is composed as follows, in Euros:

	2023	2022
Consumption of merchandise		
National	3.210.338,39	3.389.341,92
Intracommunity acquisitions	2.915.685,33	4.731.320,77
Imports	1.056.734,20	1.762.652,65
	7.182.757,92	9.883.315,34

c) Social Security

This heading in the Profit and Loss Account is composed as follows, in Euros:

	2023	2022
Social Security paid by the Company	3.500.163,10	892.921,38
Other social expenses	240.333,71	128.973,26
Employee welfare expenses	3.740.496,81	1.021.894,64

Additionally, in staff expenses, the several pay expenses that have been paid at the end of the fiscal year as a result of the labor force layoffs file carried out by the company are included. The breakdown of the wages and staff expense is as follows:

	2023	2022
Wages and salaries	3.500.165,10	3.196.831,74
Several Pay	240.333,71	-
	3.740.498,81	3.196.831,74

d) Financial Results

This heading in the Profit and Loss Account is composed as follows, in Euros:

	2023	2022
Financial incomes		
Financial incomes from group companies	43.194,36	26.008,08
Other financial incomes	3.149,38	442,63
	46.344,04	26.450,71
Financial expenses		
Due to debts with group companies and associates	(1.909,03)	(683,38)
For debts with credit institutions	(138.640,90)	(82.233,23)
	(140.549,93)	(82.916,61)
Change in fair value of financial instruments	-	(769,53)
Exchange differences	7.259,31	(52.422,00)
Gains (losses) on disposals and other	(1.509.464,65)	(1.096.364,52)
Financial Result Positive / (Negative)	(1.596.411,23)	(1.206.021,95)

NOTE 17. LONG-TERM PROVISIONS

The Society has opened an administrative file that is in the initial phase, a provision of 200 thousand euros has been included which we consider will be sufficient to face the outcome once the corresponding resources are completed.

NOTE 18. INFORMATION ON THE ENVIRONMENT

The Company has no assets, nor has it incurred expenses, aimed at minimizing the environmental impact and protecting and improving the environment. There are likewise no provisions for risks and expenses and no contingencies relating to protection and improvement of the environment.

NOTE 19 TRANSACTIONS WITH RELATED PARTIES**19.1) Balances between Related Parties**

Below is the breakdown of the balances held with related parties as of December 31, 2023 in Euros:

19.3) Balances and Transactions with the Directors of the Parent Company and Senior Executives

The remuneration accrued during the financial year 2023 by the Board of Directors amounted to 99.000,00 euros (100.500 euros in the previous year).

The Senior Management tasks are performed by two members of the same Board of Directors, with compensation for salaries and wages amounting to 307.314,06 euros (284.955,68 euros in the previous year). The detail of this amount is as follows, in euros:

	2023	2022
Wages and salaries	278.572,62	274.274,29
Payment in kind	28.741,44	10.681,39
	307.314,06	284.955,68

The heading for remuneration in kind includes both vehicle rentals and life insurance for the company's executive directors.

As of December 31, 2023, and 2021, there are no credits or advances with the Board of Directors of the Parent Company, as well as commitments for pension supplements, guarantees or guarantees granted in its favour.

Other Information Regarding the Board of Directors

Pursuant to the Capital Companies Law, it is reported that the members of the Management Body do not hold interests in other companies with the same, similar or complementary corporate purpose.

In accordance with the above-mentioned Law Capital Companies, it is also reported that the members of the Board have carried out no activity, on their own behalf or on behalf of others, with the Company, which may be considered to be not in accordance with normal trading and not carried out under normal market conditions.

NOTE 20. OTHER INFORMATION

The average number of people employed during fiscal years 2023 and 2022, distributed by category, is as follows:

	2023	2022
Senior Executives	3	3
Administration	7,08	7
Commercial	15,52	15,75
Production	44,54	44
Maintenance	0,50	0,5
Reception	8,17	8
Business development	8,47	8,74
Compliance	5,94	5
Human Resources	3,5	3
Intellectual Property	1	1
TOTAL	97,73	95,99

The number of employees at the end of the fiscal years 2023 and 2022, broken down by category and sex, is as follows:

	2023				2022			
	Men	Women	Total	Disability greater than or equal to 33%	Men	Women	Total	Disability greater than or equal to 33%
Senior Executives Administration	1	2	3	-	1	2	3	-
Commercial	2	4	6	1	3	4	7	1
Production	4	8	12	1	6	10	16	1
Maintenance	33	7	40	-	38	7	45	-
Reception	-	1	1	-	-	1	1	-
Business development	1	6	7	-	1	7	8	-
Compliance	2	4	6	-	4	7	11	-
Human Resources	-	4	4	-	-	5	5	-
Intellectual Property	-	2	2	-	-	3	3	-
	1	-	1	-	1	-	1	-
TOTAL	44	38	82	2	54	46	100	2

The breakdown of the audit fees for the financial years 2023 and 2022 is as follows:

	2023	2022
Fees of the audit accountant for providing audit services (individual and consolidated)	32.475	31.000
Fees of the auditor for the provision of audit services (other companies of the group)	11.965	11.450
Fees of the accountant for other related services (*)	25.700	24.500
Total	70.140	66.950

(*) The amount of fees for other services corresponded to the verification corresponding to the limited review of the consolidated interim financial statements as of June 30, 2023 and June 30, 2022.

It is reported that during the year the Company has paid the premium corresponding to the civil liability policy that would eventually cover damages caused to third parties due to acts or omissions related to the performance of its duties. The premium amounted to 31.363,50 euros (31.363,50 in the previous year).

NOTE 21. EVENTS AFTER THE BALANCE SHEET DATE

There have been no significant events from December 31, 2023 to the date of formulation of these annual accounts that, affecting them, would not have been included in them, or whose knowledge could be useful to a user of the same.

LLEIDANETWORS SERVEIS TELEMÀTICS, S.A.
DIRECTOR'S REPORT FOR FINANCIAL YEAR 2023

LLEIDANETWORKS SERVEIS TELEMÀTICS, S.A.

DIRECTOR'S REPORT FOR FINANCIAL YEAR 2023

In compliance with the provisions of the Spanish Companies Act, the Board of Directors hereby submits the directors' report for the year in order to complement, expand and comment on the balance sheet, the profit and loss account and the report corresponding to fiscal year 2023.

1. EVOLUTION OF BUSINESS

In the 2023 financial year, sales have decreased by 23%, reaching 13,7 million euros.

Sales by business line thousand euros	2022	2023	Var. Euros	Var. %
Notification	1.946	1.208	-738	-38%
Contracts	2.890	2.899	8	0%
Other SaaS	1.002	824	-178	-18%
SMS Solutions	3.639	3.312	-327	-9%
ICX WHOLESALE Solutions	8.355	5.423	-2.932	-35%
Total	17.832	13.665	-4.167	-23%

Wholesale sales have experienced a 35% decline, stemming from the mature market's downturn. In this context, the destination price to which SMS messages are sent directly impacts sales. During this period, we observed both a decrease in transit units and a reduction in destination prices.

Similarly, the second line of business also faced a decline in 2023. This decrease was primarily due to the termination of services to Colombian client Correos Postales Nacionales, 472, resulting from unpaid invoices. This termination directly affected the intragroup billing to the Colombian subsidiary.

On the other hand, the contracting segment remained relatively stable compared to the previous year.

The sales margin stands at 47.4%, compared to 44.5% in 2022, driven by the increased share of SaaS sales in the overall sales volume.

The recurring personnel expenses during the year 2023 have increased by 9%. Within the personnel expenses, we have broken down the indemnities derived from the corresponding ERE exits as exceptional expenses, amounting to 240 thousand euros. Due to the workforce adjustments made in the offices of Lleida and Madrid, the company will return to a cost structure in 2024 that will allow it to return to profitability.

During fiscal year 2023, the company made cost adjustments, as evidenced by the evolution of external service costs, resulting in a decrease of 455 thousand euros. They eliminated expenses related to office rentals abroad, cut advisory costs, significantly reduced in-person trade fairs, and limited business travel. Additionally, they implemented rigorous cost control measures and renegotiated contracts with all suppliers. These cost-cutting measures continue into fiscal year 2024, always with the goal of maximizing profitability in all activities.

Despite the 23% decline in sales, the EBITDA has remained positive at 227 thousand euros. Within the extraordinary results, we have included provisions for possible sanctions amounting to 200 thousand euros, as well as the corresponding amount for severance payments due to the employment regulation procedure, which totals 240 thousand euros. The operating result is negative at 1.256 thousand euros, a situation the company expects to reverse in 2024 due to the cost-cutting measures it has implemented.

The pre-tax result shows a loss of 2,9 million euros, reflecting an increase in financial expenses due to rising interest rates on short-term policies referenced to the Euribor, as well as greater utilization of these policies.

Regarding disposals and impairments, this includes the reversal of provisions for balances held in the Irish subsidiary, which has been collected by the parent company, and provisions for positions in group companies made prudently. Specifically, the most significant item is the provision for the investment in Lleida.net PKI, S.L.U for 1.4 million euros as we have explained in the notes to the financial statements.

In 2023, the company focused on aligning costs with current business figures while maintaining innovation and introducing new products to the market. The current cost situation, along with sales projections, sets budgetary objectives for 2024, where we expect to return to profitability and reduce our financial debt.

Data in thousand euros	2022	2023	Var. Euros	Var. %
Sales	17.832	13.666	(4.167)	-23%
Cost of sales	(9.883)	(7.183)	(2.700)	-27%
Gross Profit	7.949	6.482	(1.467)	-18%
Staff Expenses	(4.219)	(4.586)	367	9%
Other expenses	(2.753)	(2.297)	(456)	-17%
Other incomes	241	73	(168)	-70%
Capitalization	818	555	(263)	-32%
EBITDA	2.036	227	(1.809)	-89%
Depreciation	(1.107)	(1.146)	39	4%
Impairment losses	(2)	103	105	5250%
Other results	0	(200)	200	-
Indemnities		(240)	240	-
Operating Result	927	(1.256)	(2.183)	-235%
Financial income	(59)	(95)	36	61%
Impairment and results on disposals	(1.096)	(1.509)	413	38%
Exchange rate differences	(52)	7	59	113%
Profit before tax	(280)	(2.853)	(2.573)	-919%

2. SUBSEQUENT EVENTS

After December 31, 2023, and until the preparation date of this Management Report, no additional subsequent events have occurred beyond those already mentioned in the Explanatory Notes to the financial statements, which would reveal circumstances that already existed as of December 31, 2023, and which, due to their significant economic impact, should result in adjustments to the Financial Statements or changes in the information contained in the explanatory notes.

There are also no other subsequent events, other than those already mentioned in the Explanatory Notes, that demonstrate conditions that did not exist as of December 31, 2023, and that are of such importance that they require additional information in the Explanatory Notes to the financial statements.

3. SUSCEPTIBLE EVOLUTION OF SOCIETY

After the expense adjustments that have been made in the company, both after the labor force layoffs completed in December 2023 and by the review of all expense items, the company expects to return to profit. Sales forecasts are optimistic, as demonstrated by the latest contracts granted by Santander bank at the beginning of the 2024 fiscal year, which will result in recurring sales over the next 3 years of 650 thousand euros per year. Sales increases will come from increased consumption by existing customers, the acquisition of new customers, as well as the commercialization of new hybrid products developed in conjunction with Lleida.net PKI, S.L.U technology.

4. R&D ACTIVITIES

In the 2023 exercise, the Society has invested 556 thousand euros in research activities primarily focused on the company's certification line.

5. OPERATIONS WITH OWN SHARES

In accordance with the regulations of BME Growth and Euronext Growth, the company signed a liquidity agreement with the placing bank in connection with its market listing. This agreement involves both the delivery of a certain amount of the company's own shares and the deposit of a cash amount. The purpose of this contract is to allow investors to trade the company's shares, ensuring that any interested party could have the opportunity to buy or sell shares.

As of December 31, 2023, the company had 526,398 shares with a valuation of 414,102.07 euros on that date, representing 3.3% of the shares of Lleidanetworks Serveis Telemàtics, S.A.

6. FINANCIAL INSTRUMENTS

During 2023, the Company has not used instruments related to financial derivatives.

The treasury department has a daily check-up of the actual cash position and compares it with the weekly forecasts that are carried out. The Company is renewing the short-term credit lines held with banking entities, and thanks to the projected cash generation, it will reduce its debt.

In the face of global uncertainty situations, such as the spread of COVID-19, the Company has managed to secure the collaboration of financial institutions for the signing of new financing agreements both in the short and long term.

The Company is not significantly exposed to currency risk, so it does not engage in operations with financial hedging instruments. In the case of loans to group companies, the reference currency is the euro, so the exchange rate risk falls on these group companies.

7. DEFERRALS OF PAYMENT TO SUPPLIERS

Information on deferrals of payment to suppliers is shown in the annual accounts in Note 11. During the 2023 fiscal year, the Company has increased the payment term to its suppliers compared to the 2022 fiscal year, negotiating in most cases for extended terms. The outstanding payments at the end of the fiscal year have a period of less than 30 days. To reduce the payment term, the Company has negotiated payment lines with banking entities, as well as longer payment terms with certain suppliers. The expected cash generation for 2024 will allow the Company to reduce payment terms in the new fiscal year.

8. EFFECTS DERIVED FROM THE CONFLICT IN UKRAINE

The information referring to the effects derived from the current situation caused by the conflict in Ukraine is shown in the annual accounts, in note 1.e.

REPORT ON THE ORGANIZATIONAL STRUCTURE AND INTERNAL CONTROL SYSTEM FOR THE FINANCIAL INFORMATION OF LLEIDANETWORKS SERVEIS TELEMÀTICS, S.A

Under the provisions of Article 17 of Regulation (EU) No 596/2014 on market abuse and Article 227 of the amended Spanish Stock Market Act, as approved by Spanish Royal Legislative Decree 4/2015 of October 23 and related provisions, along with Circular 3/2020 of BME Growth Market on information requirements for Expansion Companies, we hereby present the report on the Organizational Structure and Internal Control Systems for Financial Information of Lleidanetworks Serveis Telemàtics, SA and its subsidiaries (referred to as "Lleida.net," "Lleida Group," or the "Company"). This report was published and approved by the Audit Committee and subsequently ratified by the Board of Directors during its meeting on March 25, 2021..

Lleida, April 29 2024

FRANCISCO SAPENA SOLER

Chairman and Chief Executive Officer of Lleidanetworks Serveis Telemàtics, S.A

1. **BRIEF DESCRIPTION OF THE COMPANY:**

Lleidanetworks Serveis Telemàtics, S.A. is a limited liability company with an indefinite duration and with a registered office located in Madrid (Spain) Calle General Lacy 42, ground floor according to the agreement of the Board of Directors dated 7 October 2017, with VAT number A25345331. On 26 October 2021, the Board of Directors, Relocate the registered office of the company to calle Téllez, 56 local C in Madrid.

Previously, it was established as a Limited Liability Company indefinitely, under the name of Lleidanetworks Serveis Telemàtics, SL, through a document authorised by the Public Notary of Lleida, Mr. Antonio Rico Morales, Notary of the Barcelona Bar Association, on January 30, 1995, under number 547 of its protocol.

The Company was registered in the Mercantile Registry of Lleida on March 13, 1995, volume 355, Folio 137, section 1 sheet L6657.

Adapted its By-laws to the current Law of Limited Liability Companies through a document dated June 12, 2000, amended by another on November 3, 2000, all authorised by the Notary of Lleida, Mr. Antonio Rico Morales. Furthermore, the company increased its capital through a document authorised by the Notary of Lleida, Mr. Pablo Gómez Clavería, on October 21, 2004. Subsequently, another increase in capital was carried out through a document authorised by the aforementioned Notary of Lleida, Mr Gómez, on August 16, 2006. These changes were registered in the Mercantile Registry of Lleida, Volume 355, Page 141, Page number L-6.657.

On 30 June 2011, the Extraordinary General Shareholders' Meeting unanimously agreed to transform the Company into a Public Limited Company, is formalised in a public document by virtue of a public deed dated 12 December 2012 through a document issued by the Public Notary of Catalonia, Mr Pablo Gómez Clavería with the number 3357 of his protocol and registered on 17 February 2012 in the Mercantile Registry of Lleida in Volume 355, Page 145, Sheet L6.657 and registration 8th on 17 February 2012.

On 1 June 2015, the Company approved the request for incorporation into the former Alternative Stock Market (MAB) at the shareholders' meeting, which is currently BME growth of all the Company's shares.

On October 7, 2015, the Board of Directors of Bolsas y Mercados Españoles, Sistemas de Negociación, S.A., approved the incorporation of 16.049.943 shares of 0,02 euros nominal value each into the segment of companies in expansion of the Alternative Stock Market, effective as of October 9, 2015.

On 14 December 2018, the Euronext Admission Committee accepts incorporating the shares of Lleida.net in Euronext Growth as of 19 December 2018.

On October 30, 2020, FINRA gave its favourable decision for the listing of the Company on the New York OTCQX market, where the shares entered into trading as of November 2, 2020-

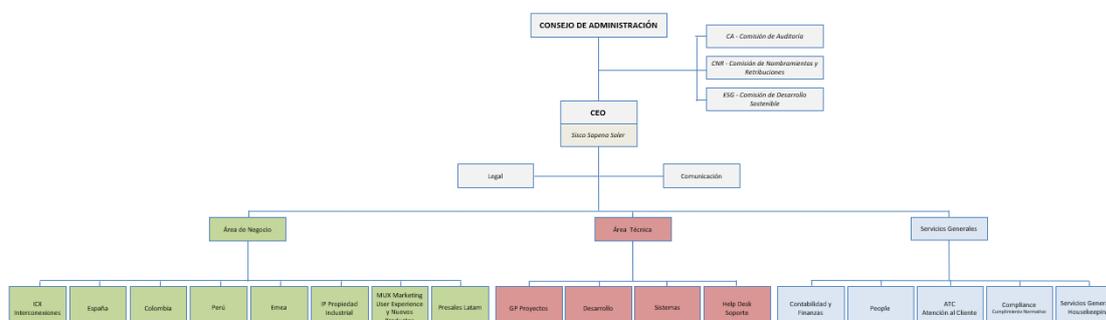

The corporate purpose of Lleida.net is expressed in article 2 of its By-laws, the text of which is literally transcribed below:

Article 2º: Corporate purpose

- a) *Electronic and information technology consulting on different matters through professionals and electronic and computing mechanisms for companies and services.*
 - b) *Electronic systems will be disseminated through activities and publications.*
- The provisions of telecommunication services ."*

2. ORGANIZATIONAL STRUCTURE

The departments that make up the company are detailed below. All Chief Officers meet monthly to discuss the company's action plans and propose approval from the Board of Directors.

The financial information is prepared by the Financial Department and reviewed by the Executive Director, with the ultimate responsibility for its preparation resting with the Board of Directors.

The various bodies and functions responsible for implementing and maintaining a proper and effective Internal Information Control System are detailed below.

a) Board of Directors:

The management and representation of the company, both in court and out of court, as well as in all actions included in the corporate object, are the responsibility of the Board of Directors. The Board shall collaborate without prejudice to any delegations or powers of attorney granted.

In addition to the powers mentioned in the preceding paragraph, it is the responsibility of the members of the Board of Directors to demonstrate the requisite commitment to ensure the Company is headed in the right direction and effectively controlled. This includes overseeing and comprehending the financial information disclosed to the markets and shareholders, as well as internal control measures within the Company.

The Board of Directors comprises the following individuals.

Francisco Sapena Soler Executive Director

He holds a degree in Technical Agricultural Engineering, with a specialisation in Horticulture and Gardening from the University of Lleida and a postgraduate degree in Telematics from the UPC. He is deeply passionate about new technologies and the Internet. With a tenure of 9 years, he served as President of IRC Hispano. Currently, he serves as the Chief Executive and Principal Shareholder of Lleida.net. He is widely regarded as the driving force behind the company's success.

Beatriz García Executive Director

She brings over 12 years of experience in Telecommunications to her role. She holds a Bachelor of Science in Telecommunication Engineering and Computer Science from the Polytechnic University of Catalonia and TU Delft (The Netherlands). Additionally, she completed the Management Development Program at IESE Munich-Barcelona. Previously, Beatriz worked at Orange España and later at Deloitte as an IT auditor. She joined Lleida.net in 2008, initially in the Routing Department, and expanded her responsibilities in 2014 when she was appointed Chief Interconnection Officer to develop and execute Interconnection strategies. Currently, she serves as the Chief Executive Officer of Lleida.net's business division.

Marcos Gallardo- External director

Founder and managing partner of Lexing Spain in Barcelona. Admitted to the Barcelona Bar Association in 1998. President of the Committee on Privacy and Rights of the Digital Person (International Association of Lawyers / Union International des Avocats). Vice-President of the Lexing[®] network, the first global network of law firms specialising in advanced technology law, is currently composed of 22 offices located in 25 countries in Europe, America, Africa, and Asia. Vice-President of the Committee on Intellectual Property (Barcelona Bar Association - ICAB).

Member of the Board of Directors of several multinational companies in the telecommunications and Internet industry.

Ranked by Who's Who Legal in 2012, 2013 and 2014 as being among the world's leading Internet & e-commerce & Data protection lawyer

Arrate Usandizaga- Executive Director

She serves as the Chief Financial Officer. She holds a degree in Administration and Business Management and a Master's in Finance and Accounting from the University of Deusto. With prior experience at PricewaterhouseCoopers, where she worked as a supervisor in the Assurance division, focusing on financial statement audits, Arrate joined Lleida.net to oversee the audit and risk department. Presently, she holds the position of Chief Executive Officer of the General Services division for the entire Lleida.net group.

Miguel Pérez Subias - Independent director

Senior Telecommunications Engineer, ETSIT at the Polytechnic University of Madrid and Master in Business Management, INESE. He reconciles his position as President of the Internet Users Association- AUI. with an intense professional activity as a consultant specialising in the Internet and new technologies.

In 1993, he edited and promoted the first magazine published in Spain dedicated to the Internet (Click Magazine). Two years later, he founded the Association of Internet Users, a non-profit organisation for which he is president.

Among the most relevant initiatives were the Internet World Conference (Madrid 1996-2005) and ExpoInternet (Barcelona 1997-2001), the launch of World Information Society Day: Internet Day (Tunisia 2005), the Spanish neutral node EspaNIX (Madrid 1997) and the creation of the Spanish Internet Governance Forum (Madrid 2008).

Antonio López del Castillo - Independent Director

Consultant in Telecommunications and sourcing with long experience as Director of Purchases at Telefónica de España and Vivo, Telefonica Group's in Brazil.

During his tenure at Telefónica, he contributed to significant projects, including the telecommunications planning for the Barcelona 1992 Olympics, the establishment of the first High-Speed Metropolitan Area Network connecting university institutions and hospitals in Barcelona, and the implementation of the Advanced Procurement System at the Rigograndense Company of Telecommunications (CRT) in Sao Paulo after privatisation. Notably, he was responsible for awarding contracts totalling over 30,000 million Reales from 1998 to 2002

Technical Director of the Spanish versions of the magazines Tele.Com, Data Communication, LAN Times and founder of Global Telecommunications.

Director of the New Technologies course at Instituto Catalan, director of Summer University Sitges courses at UNTEC, as well as Director of the Postgraduate Course in Multimedia and Telecommunications conducted by the Universitat Autònoma de Barcelona.

Jordi Carbonell i Sebarroja Independent Director

Counsel and Advisor of the Parque Científico y Tecnológico Agroalimentario de Lleida (PCiTAL). Representative in the Spanish Association of Technological Parks (APTE) and in the World Association (IASP). Business advisor of the Park and Clusters of Lleida.

From 2005 to 2006, he was Secretary of Industry and Energy of the Department of Labour and Industry of the Generalitat of Catalonia and, in the elections of the Parliament of Catalonia of 2003, was chosen deputy for the province of Lleida.

From 1996 to 2003, Director General of ACTEL, S.C.L, Cooperative of second degree of which 130 Cooperatives of Lleida are part, receiving in 2003 the Award for Business Innovation of the Generalitat of Catalonia.

Between 1993 and 1996, he was the Civil Governor of Lleida and a member of the negotiating team for the entry of Spain into the European Economic Community (1984-1986). He was also General Technical Secretary of the Ministry of Agriculture, Fisheries and Food (1982-1988).

Jorge Sainz de Vicuña Barroso was appointed to the Board by co-option.

He serves as the Manager of investee companies. With extensive experience as a General Manager/CEO in affiliated companies, Jorge specialises in remediation and enhancement strategies. His expertise encompasses negotiations and sales processes, from drafting sales notes to finalising contracts, including NDA management, offer handling, and due diligence coordination with legal, tax, and labour advisors.

b) The Audit Committee

Per the Company's By-laws and the Board of Directors regulations, the Audit Committee is tasked with evaluating the accounting verification system of the Company, ensuring the independence of the external auditor, and reviewing the internal control systems of the Company's financial information.

In addition to any other duties assigned by the Board of Directors at any given time, the Audit Committee shall fulfil the following fundamental responsibilities.

Report to the General Meeting of Shareholders on matters raised by shareholders within its jurisdiction.

Recommend to the Board of Directors, for submission to the General Shareholders' Meeting, the appointment of external account auditors as stipulated in Article 264 of the Capital Companies Act. This includes proposing their contracting conditions, the scope of their professional mandate, and, if necessary, their revocation or non-renewal. Notifying the governing company of any changes in auditors to ensure the independence of the external auditor.

Oversee the internal auditing systems to ensure their independence and effectiveness.

Review the Company's accounts to ensure compliance with legal requirements and accounting principles, collaborating directly with external and internal auditors.

Supervise the preparation and integrity of financial information related to the Company and its group, ensuring compliance with regulatory requirements and accounting standards, and review the appointment or replacement of responsible personnel.

- Periodically review internal risk control and management systems to identify, manage, and disclose significant risks.

- Manage relationships with external auditors to receive information on any issues that may jeopardise their independence and any other matters related to the audit process, as well as any other communications required by audit legislation and technical auditing standards.

- Oversee compliance with the audit contract, ensuring that the opinions of the annual accounts and the main content of audit reports are written clearly and accurately. Additionally, evaluate the results of each audit

- Review any periodic financial information that the Board should provide to the markets and its supervisory bodies, ensuring all mid-term accounts are prepared under the same accounting criteria as annual accounts.

Provide the Board of Directors, prior to its decision-making, with comprehensive information on all matters stipulated by law, the Articles of Association, and the Board's Regulations, mainly focusing on the following issues: (i) The financial information the Company is required to disclose periodically; (ii) The establishment or acquisition of stakes in unique entities or entities registered in offshore jurisdictions, as well as any other transaction or operation of a similar nature that could compromise the group's transparency due to its complexity; and (iii) Related-party transactions.

The Audit Committee currently consists of two independent directors, convening at least biannually and as needed upon the call of its chairman. In 2020, the Committee met twice.

c) Board of Directors

The Board consists of the Chief Executive Officer and the directors of the three business lines.

Meetings are convened at least once a month to coordinate key activities of Lleida.net. Action plans are defined for both the short and medium term to achieve the Board's objectives and address any setbacks or issues.

Reports from all areas of the company are presented at meetings, covering pertinent topics. If any information requiring disclosure to the market is identified, the Executive Director communicates it to the Board promptly for timely dissemination.

d) Finance Department

The Finance Department is tasked with implementing a robust control system for financial information on a daily basis. It oversees the accounting processes of the parent company and supervises the reporting of subsidiary companies. Its responsibilities include generating reports essential for decision-making by the Board of Directors and publishing information required by the markets.

e) External audit

BDO auditors, a renowned, prestigious auditing firm, review the annual accounts, both individual and consolidated, of Lleida.net. Since 2016, a limited review of the period from January 1 to June 30 has also been performed, and the same audit company has reviewed it.

3. COMPANY CONTROL SYSTEMS

The Internal Control and Risk Management mechanisms pertaining to financial information fall under the purview of the Audit Committee. As per the regulations established by the Board of Directors, these mechanisms undergo additional review and supervision by the Board of Directors. The primary control mechanisms include:

3.1 Annual budgets implementation:

The executive team implements the group's annual budgets, which are subject to review and approval by the Board of Directors.

Subsequently, monthly monitoring of deviations and adherence to budgetary targets is conducted, with oversight from the Board of Directors, who are responsible for implementing necessary measures and strategic actions.

3.2 Internal control measures:

Lleida.net has identified the following financial processes as key control areas to ensure compliance with internal control systems for financial information:

- Sales, customer billing and collection management
- Consolidation and reporting of group companies
- Research and Development (R&D) investments
- Investments in Property, Plant and Equipment
- Treasury management
- Purchases and accounts payable
- Taxes
- Human Resources
- Annual closings

The primary control measures by risk area are outlined as follows:

a) Sales, customer billing and recovery management.

A monthly detail of the invoices to be issued is generated and reviewed by the Billing Manager, and the automatic process is launched, which allows:

- Generate sales entries in the accounts
- Send invoices to customers
- Create files for sales managers, Chief Officers, and the Chief Financial Officer to monitor monthly figures

Supervision of customer collections by the Head of Treasury, with relevant invoices insured by a credit insurance company to mitigate non-payment risks
Weekly discussions on collection status with sales managers.

Weekly reconciliation of collections by the Financial Department.

Utilisation of a management system with defined user profiles, ensuring access to appropriate information for each use

b) Consolidation and reporting:

The company engages accounting and tax advisors in each country where subsidiaries are registered. These advisors are tasked with providing monthly figures for the subsidiaries for review by the parent company's department. They do not have access to subsidiary bank accounts and possess limited authority for administrative procedures with public administrations.

c) R+D Investment

The company allocates an annual budget for R&D projects, overseen by both the Chief Technical Officer and the Financial Department. All R&D activities must align with the yearly action plan, with any extraordinary collaborations requiring approval from the Chief Technical Officer.

d) Investment in tangible fixed assets:

The bulk of investments in this area are directed towards servers and other IT equipment. An annual budget is collaboratively established by the technical and financial departments, assessing yearly requirements. The execution process is monitored monthly to ensure adherence to budgetary allocations.

e) Treasury:

The Treasury manager is responsible for daily monitoring of the company's financial instruments' balances. The Executive Director is authorised to initiate wire transfers. The Treasury Department prepares payment files, which the Chief Financial Officer reviews before being executed by the Executive Director.

Parent company staff oversee the bank accounts of subsidiary companies.

Weekly, the Treasury department provides a summary of instrument balances, principal payments, and income transactions from each account to the Financial Director and Executive Director for review.

Bank account reconciliation is performed by the Financial Department, separate from the Treasury staff responsible for payment file preparation.

f) Purchases and payable accounts:

Supplier transactions are directly integrated into the ERP system. Supplier rates are automatically updated whenever pricing changes occur. The Financial department typically conducts monthly verifications to ensure that invoices align with recorded consumptions in the ERP. Validated consumptions trigger automatic accounting entries for purchases. In case of discrepancies, the company follows a protocol where the issue is communicated to the supplier, and causes are analysed and reported to the interconnection department responsible for purchases.

Payments with significant providers, usually operators, are settled through netting, and Purchase and sale invoices are reconciled.

The system autonomously generates this netting, which is subsequently dispatched to the supplier for approval. Upon supplier acceptance, it becomes part of the ensuing payment batch.

Other payments, such as commercial expenses, are covered by employee credit cards. A monthly expense sheet is compiled with supporting documents and approved by the relevant Chief Officer and the Financial department before wire transfer payments are initiated.

The company also maintains direct debits for lease and supply payments, reconciled weekly with bank account debits. Such charges are reconciled weekly with the debits in the bank account.

f) Taxes:

The Company internally handles monthly tax filings, which are automatically downloaded from the ERP. The Financial Department prepares these documents for digital signature by the Executive Director, who holds the authority to submit them.

Moreover, the company consults with global advisors to stay informed of any regulatory changes that may impact its tax obligations.

g) Human Resources:

The workforce stands as a pivotal element in Lleida.net's success. The Human Resources department oversees both current staff and new hires, with the Chief HR Officer steering individual development and career progression. Collaborating with departmental heads, the desired employee profile is defined. Job descriptions are disseminated across the company's social media platforms and job portals, with initial screening based on provided training and experience. Following this, candidates undergo a first interview with the Chief Human Resource Officer, followed by a performance assessment. The top three candidates proceed to final selection interviews.

Furthermore, the Chief HR Officer manages salary compensations and, in conjunction with department heads, evaluates employee compensation, ensuring alignment with the annual budget and final approval from management.

l) Financial closing:

- Regulation: Lleida.net adheres to the regulations outlined in the general accounting plan for recording its activities. It seeks guidance from advisors in case of uncertainty or for updates on regulations that may impact the company's procedures.

- Monthly financial closing: The company conducts monthly financial closings to verify compliance with the budget established by the Board of Directors.

- System lockdown: Once all entries for the period have been entered and reviewed, the accounting period is locked to prevent new entries from being recorded.

- Financial closing review: The profit and loss account is reviewed alongside the balance sheet monthly to identify significant variations, inconsistencies, or errors compared to previous periods. The Financial department generates the information, which its Chief Officer then reviews. Summary reports are prepared and sent to the Executive Director for verification before being forwarded to the Board of Directors for analysis.

- Reporting financial information: To enhance transparency, key financial figures are published quarterly on BME Growth as a relevant event, as outlined in point 5.1.

- Annually, the general meeting of shareholders approves the audited annual accounts prepared by the Board of Directors, along with the management report and information required by BME Growth, following established guidelines and formats. Interim financial statements as of June 30 are also audited and submitted in accordance with BME Growth regulations.

Periodic financial and management information is primarily presented through face-to-face meetings or conference calls. The Chief Executive Officer and the Financial Director are responsible for these communications.

3.3 Internal Code of conduct in Stock markets

LLEIDA.NET Board has approved the Internal Code of Conduct in the Stock Market of Directors held on 26 July 2016 and in compliance with Article 225.2 of the revised text of the Law on Stock Market, approved by Royal Legislative Decree 4/2015, of 23 October. Specifically, the Code incorporates the provisions contained in Chapter II of Title VII of the consolidated text of the Securities Market Law, applicable to the Company by virtue of the provisions of Page 13 of 15, article 322.3 of said consolidated text, as well as in its development regulations, which includes Royal Decree 1333/2005, of November 11, which develops the Securities Market Law on market abuse and Circular 4/2009, of November 4, of the CNMV on communication of relevant information. The objective of the Code is to establish a set of conduct rules governing LLEIDA.NET and its stakeholders to ensure transparency and investor protection. The Audit Committee oversees compliance with this Code.

4 RISK ASSESSMENTS:

The Group faces various financial risks, notably credit, liquidity, and market risks (including exchange rate, interest rate, and other price risks).

4.1) Credit Risk

The Group's main financial assets include cash balances, trade and other receivables, and investments, representing its maximum exposure to credit risk. Credit risk mainly stems from commercial debts. The amounts are reflected in the net balance of provisions for bad debts, estimated by the management of the Parent Company, which are based on the experience of previous years and on its assessment of the current economic environment.

4.2) Liquidity Risk

The general situation of the financial markets, especially the banking market, has been particularly unfavourable for credit applicants. The Group consistently monitors the evolution of various factors that could address liquidity challenges, mainly focusing on financing sources and their attributes.

4.3) Market Risk

The general market situation over the last few years has been unfavourable due to the challenging global economic crisis.

4.4) Exchange Rate Risk

The Group is not exposed to a significant exchange rate risk and, therefore, does not trade in hedging instruments.

4.5) Interest Rate Risk Changes in interest rates modify the fair value of those assets and liabilities that accrue a fixed interest rate, as well as the future flows of assets and liabilities referenced to a variable interest rate. The objective of interest rate risk management is to achieve a balance in the debt structure that allows for the minimisation of the cost of debt over the multi-year horizon with reduced volatility in the profit and loss account.

5. COMUNICACION OF INFORMATION

The Company differentiates the information to be communicated to the market into three basic types: Financial information.

Strategic information

Technical Information

The procedures according to the type of information are detailed below.

5.1 Communication of financial information

The Company conducts monthly and quarterly closings and prepares interim financial statements in accordance with the General Accounting Plan, following a "going concern" approach. Financial data is generated by the Financial Department, initially reviewed by its Chief Officer and subsequently by the Executive Director. The information is prepared for the Board of Directors by the Financial Department, and it is sent to the chief officers so they can formulate the annual accounts and the

interim financial statements. These financial statements undergo review by the Audit Committee, are prepared by the Board of Directors, and are made accessible to shareholders for examination.

The main milestones achieved by the company are showcased during the Shareholders' Meeting, where votes are cast regarding the approval of the annual accounts.

Data published on BME Growth is derived from consolidated financial statements sourced directly from the company's ERP system. However, for overseas subsidiaries, data may be obtained from their respective local advisors. The financial information undergoes a standardisation process for both regulations and currency. The Chief Financial Officer reviews the information.

Upon obtaining relevant financial data, the Chief Financial Officer collaborates with the Registered Advisor to draft the relevant event.

The relevant event is then reviewed by both the Executive Director and the Registered Advisor before being presented to the Board of Directors for potential comments.

Lleida.net uploads the event to the BME Growth website, where it must receive approval from the registered advisor. After publication on the BME Growth website, the information is also shared on Lleida.net's website under the Investors section.

5.2 Strategic information:

Strategic information, such as negotiations for acquisitions or new business ventures, is directly overseen by the company's executive director.

These matters are included on the agenda for discussion during Board of Directors meetings, the decision-making body.

The relevant event is reviewed by both the Executive Director and the Registered Advisor. It is reported to the members of the Board of Directors, should they want to provide comments.

Lleida.net uploads the event to the BME Growth website, where it must receive approval from the registered advisor. Once loaded and published on the BME Growth website, it is then published on Lleida.net's website within the investor section.

5.3 Technical information

Due to the relevance of the technical developments of our products, Lleida.net secures patents for all developments and trademarks. The patent submission process is internally monitored by the Intellectual Property department, with external firms overseeing deadlines under the Chief IP Officer's supervision.

To ensure communication accuracy, the Financial Department quarterly queries the IP Department on patent statuses.

Upon patent approval, the Chief Intellectual Property Officer, alongside the Executive Director and registered advisor, records the milestone. This information is then shared with the Board of Directors for any potential input. Lleida.net uploads the event to the BME Growth website, where it must receive approval from the registered advisor. Once loaded and published on the BME Growth website, it is then published on Lleida.net's website within the investor section.

6.-MONITORING AND SUPERVISION CONTROL ACTIVITIES:

The audit committee has conducted the following activities throughout 2023 to oversee the proper functioning of the internal control system for financial information:

- Assessment of the parent company's consolidated interim financial statements for the period from January 1, 2023, to June 30, 2023.

- Examination of the financial statements, individual, and consolidated annual accounts of the Group for the fiscal year 2023.
- Examine the audit plan and the independence of the external auditors from BDO.
- Work closely with the external audit team to track the progress of audit procedures and identify risk areas within the audit work.
