##### **Lleida.net secures patent in the United States for a new method of electronic contracting.**

Under the provisions of Article 17 of the Regulation (EU) No 596/2014 regarding market abuse and Article 228 of the modified text of the Spanish Stock Market Act, approved Article 228 of the Organic Law 6/2023, of 17 March and related provisions, as well as Circular 3/2020 the BME Growth segment of BME MTF Equity on information to be provided by Growing Companies, we are hereby informing you of the following information relating to LLEIDANETWORKS SERVEIS TELEMÀTICS, S.A.: (hereinafter “Lleida.net”, or the “Company” or the “Enterprise”) brings to your attention the following information that has been prepared under the exclusive responsibility of the issuer and its administrators:

The Spanish publicly traded company Lleida.net (OTC.US) (ALLLN.PA) (LLN.MA), a frontrunner in the registered electronic signature, notification, and contracting industry, has secured a patent from the United States Patent and Trademark Office (USPTO) under number 11,973,881 for its "METHOD FOR SIGNING CONTRACTS." This innovative method for contract signing incorporates encrypted data, mitigating the risk of internal data leakage from signed contracts.

This patent grant, with a duration of 20 years, bolsters Lleida.net's global patent portfolio to 310 and marks its eighth patent in the U.S. pertaining to its certification and notification methodologies, as well as digital witnessing in electronic contracts and notifications. Furthermore, it bestows upon Lleida.net exclusive rights to the described method.

The granting of this patent is expected to generate additional revenue for the company, estimated to be around 2 million euros over its lifetime, in the SaaS segment.

Lleida.net's growth strategy in the electronic signature, notification and contracting market is based on a solid growth policy in intellectual property, and R&D growth, as well as bolstering its internationalisation efforts.
