The Spanish listed company Lleida.net (BME:LLN) (EPA:ALLN) (OTCQX:LLEIF) increased its number of active clients by 34.83% during the second quarter of 2025. Active clients are defined as those who have generated at least one invoice within the past 24 months.

The fastest-growing client segment was those invoicing less than €500 during the quarter, which increased by 46.18%. This was driven by the mandatory use of ADR (Alternative Dispute Resolution) services under Law 1/2025.

ADR services require proof that a conciliation attempt was made prior to filing legal action. In this context, Lleida.net's SaaS solutions — such as its Registered Email and Registered SMS services, along with Openum and Click & Sign — have proven essential for regulatory compliance.
