OTHER RELEVANT INFORMATION

LLEIDANETWORKS SERVEIS TELEMÀTICS S.A.

Lleida.net and Lleida.net PKI awarded ENS certification in the high category.

Under the provisions of Article 17 of Regulation (EU) No. 596/2014 on market abuse, Article 227 of the consolidated text of the Securities Market Act, Law 6/2023 of 17 March, and related provisions, as well as BME MTF Equity Circular 3/2020 on information to be provided by companies in the Growth segment, LLEIDANETWORKS SERVEIS TELEMÀTICS S.A. (hereinafter “Lleida.net” or the “Company”) hereby discloses the following information, prepared under the sole responsibility of the issuer and its directors:

Lleida.net has been awarded National Security Scheme (ENS) certification in the high category for the information systems that support electronic notification, e-signature and contracting, identity verification and authentication, signature validation, email and phone verification, SMS, RCS and WhatsApp services, as well as numbering and voice services.

In addition, Lleida.net PKI has also achieved ENS certification in the high category for information systems underpinning e-signature and contracting services, process automation, digital intermediation, issuance of digital certificates, signature validation, timestamping and electronic notification.

The National Security Scheme (ENS) certification in the high category represents the most stringent security standard within the Spanish regulatory framework. It is designed to safeguard information systems handling sensitive or critical data, particularly in the context of public administration and its providers.

This certification enables the Company to participate in public tenders with institutions such as ministries, law enforcement agencies, defence, hospitals managing sensitive medical records, and technology companies handling classified information.

Sincerely,

Madrid, 17 September 2025

Francisco Sapena Soler

CEO and Chairman of the Board
