Wholesale is a mature market whose turnover figures are highly predetermined by the termination price.

(Thousands of euros)

PERSONNEL EXPENSES EVOLUTION
(Thousands of euros)

Lleida.net group has increased its workforce due to InDenova's staff. Indenova comprises technicians and R&D developers who add innovative value in creating new products for Lleida.net's portfolio.

Furthermore, it will provide skilled personnel in Colombia, strengthening ties with our customers, thereby increasing our commercial expansion in Latin America.

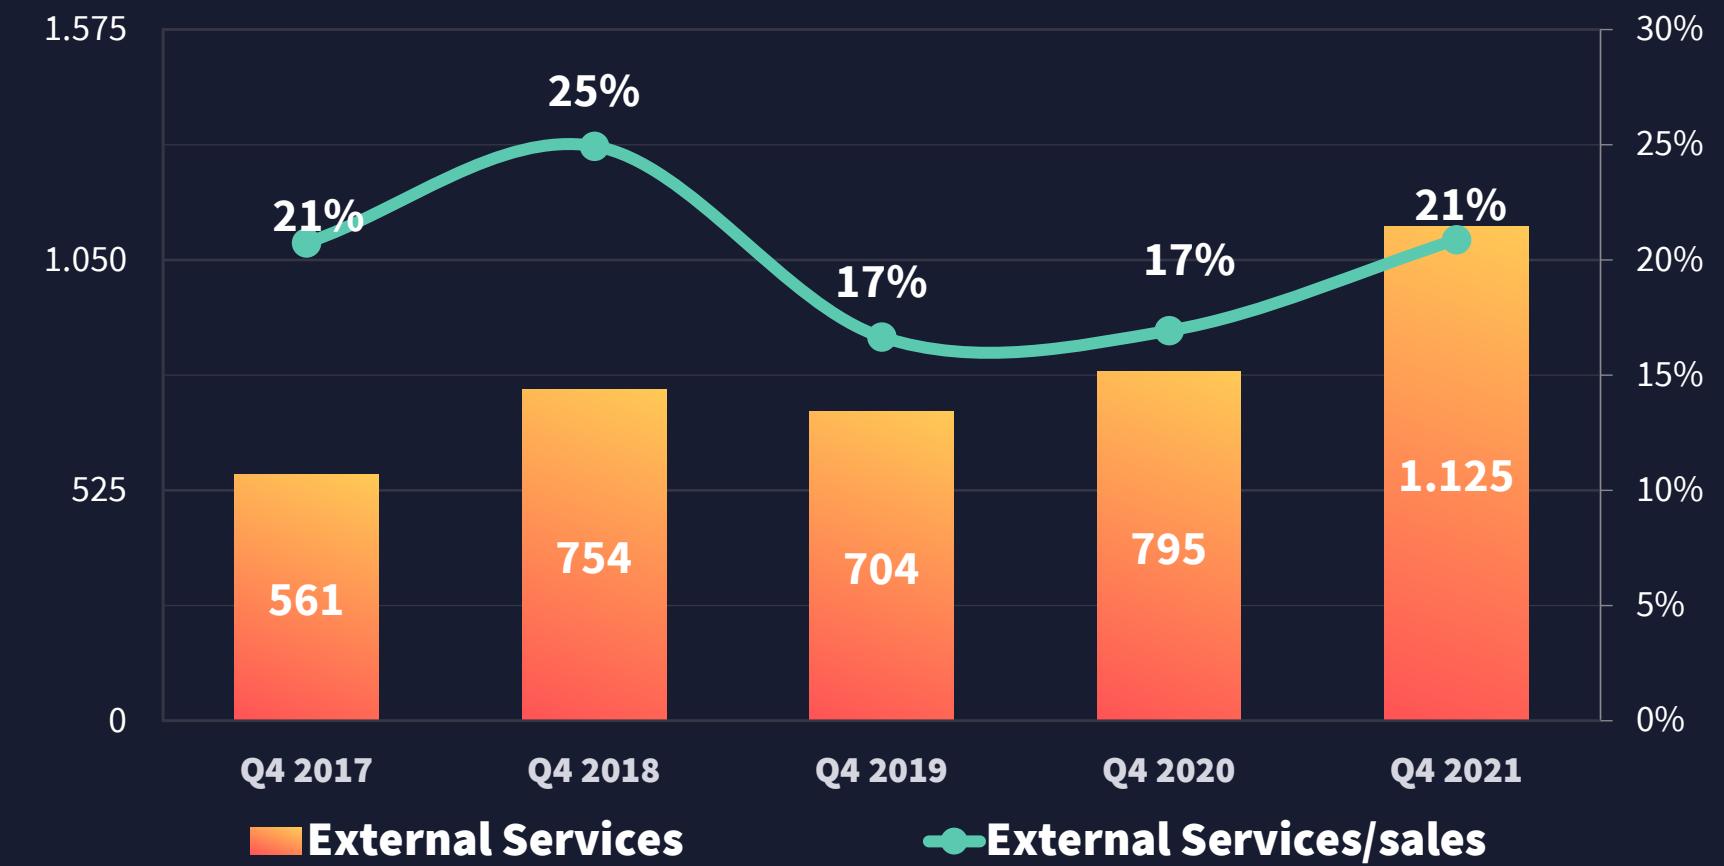

The workforce at the end of the year stood at 179 employees.

EXTERNAL SERVICES EXPENDITURES

EXTERNAL SERVICES EVOLUTION
(Thousands of euros)

EXTERNAL SERVICES EVOLUTION
(Thousands of euros)

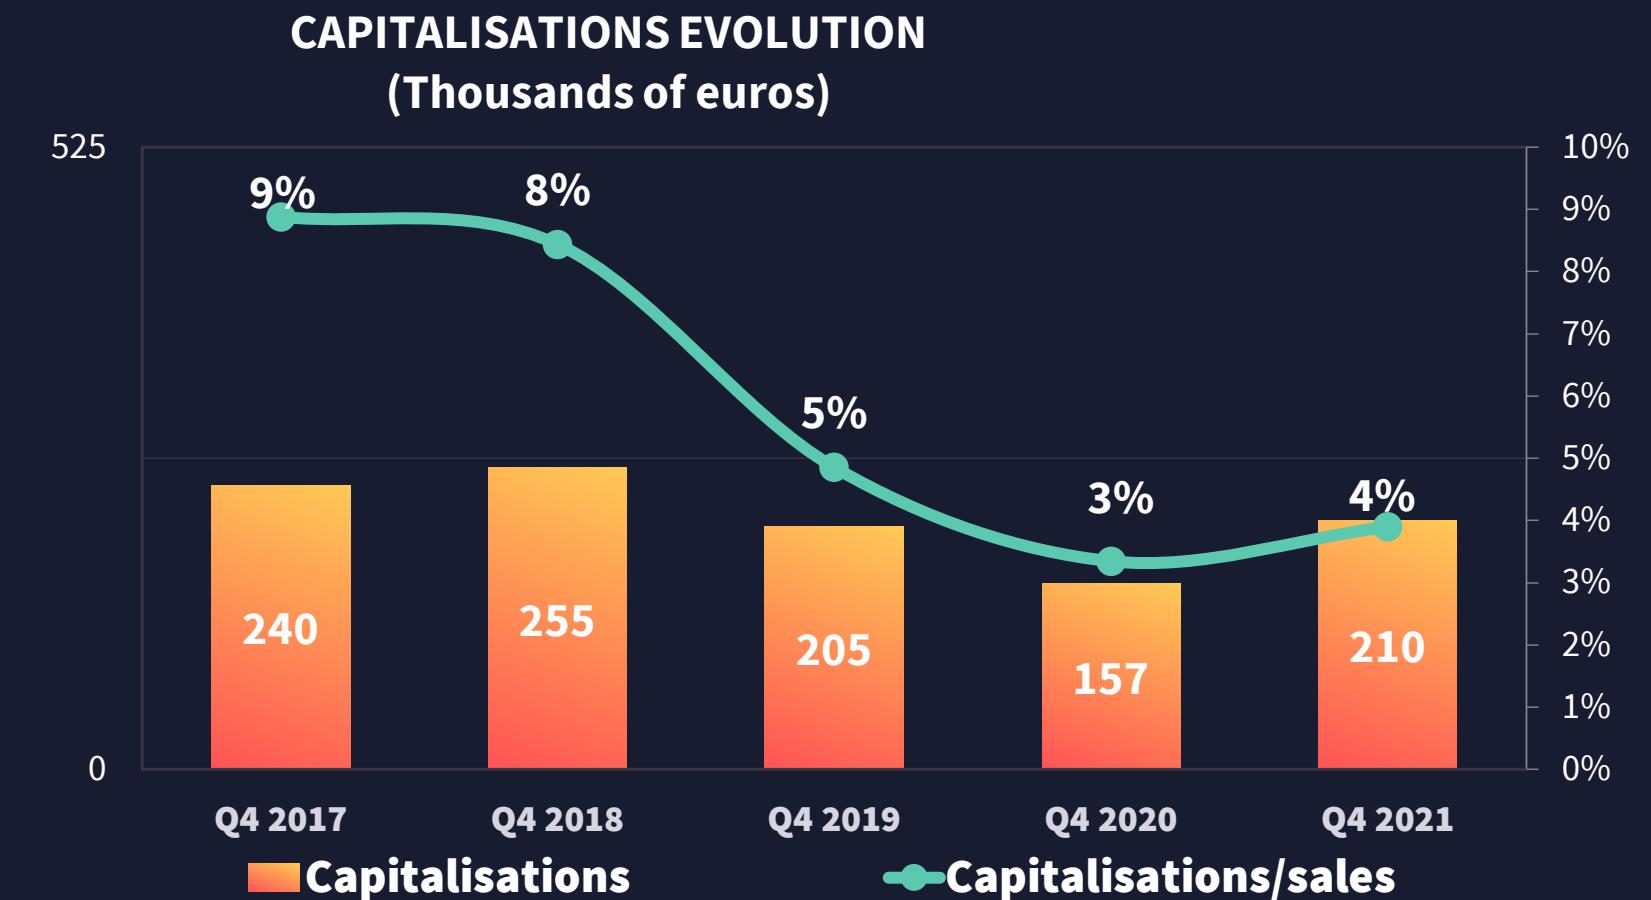

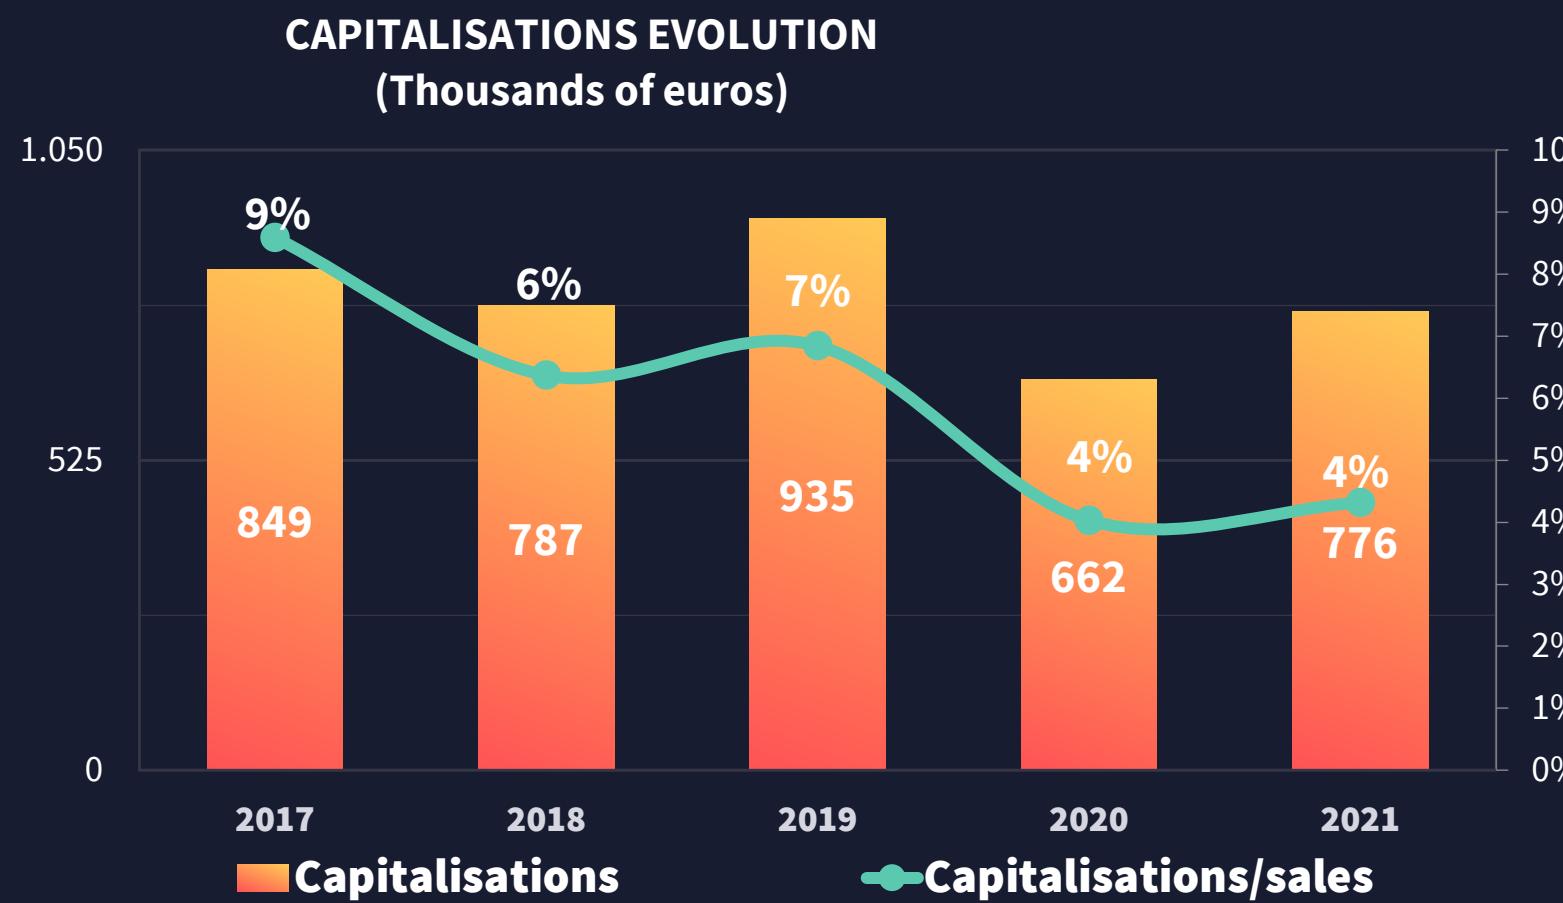

The increase in external services is accounted for by:

- Indenova cost increase of 65 thousand euros.
- Costs resulting from the acquisition of Indenova (due diligence, advisors, lawyers).
- Other expenses are due to face-to-face business visits and events. Over Q4, we attended Trustech in Paris and Municipalia, with our stand .

Annual expenditure on external services is once again 18% of sales. We have not removed duplicated expenses between Indenova and Lleida.net in Q4 2021; cost optimisation will start to be seen in Q1 2022.

EVOLUTION OF CAPITALISATIONS

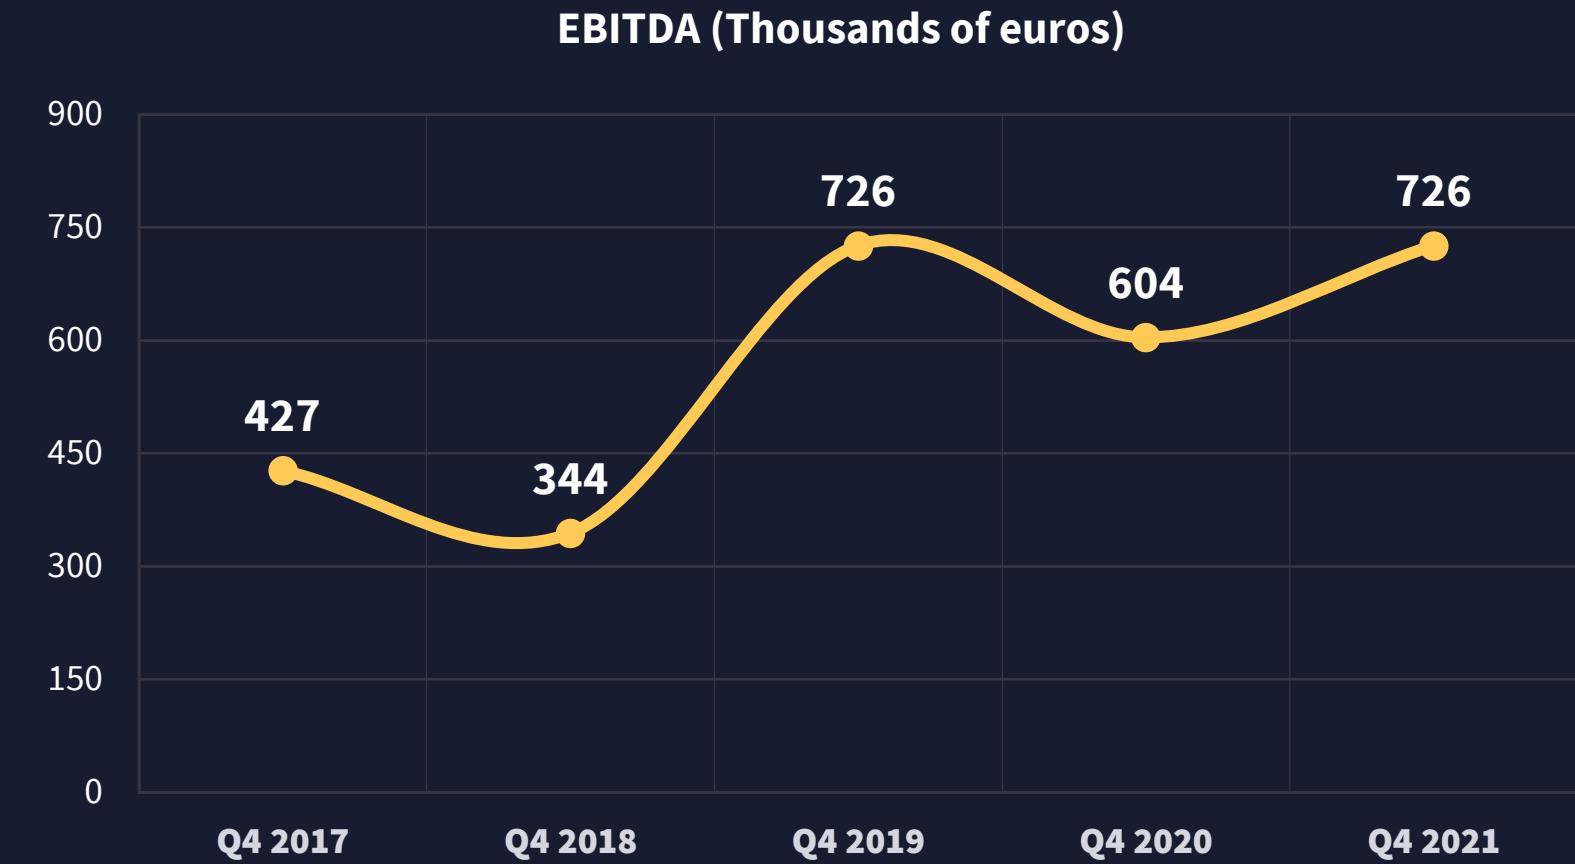

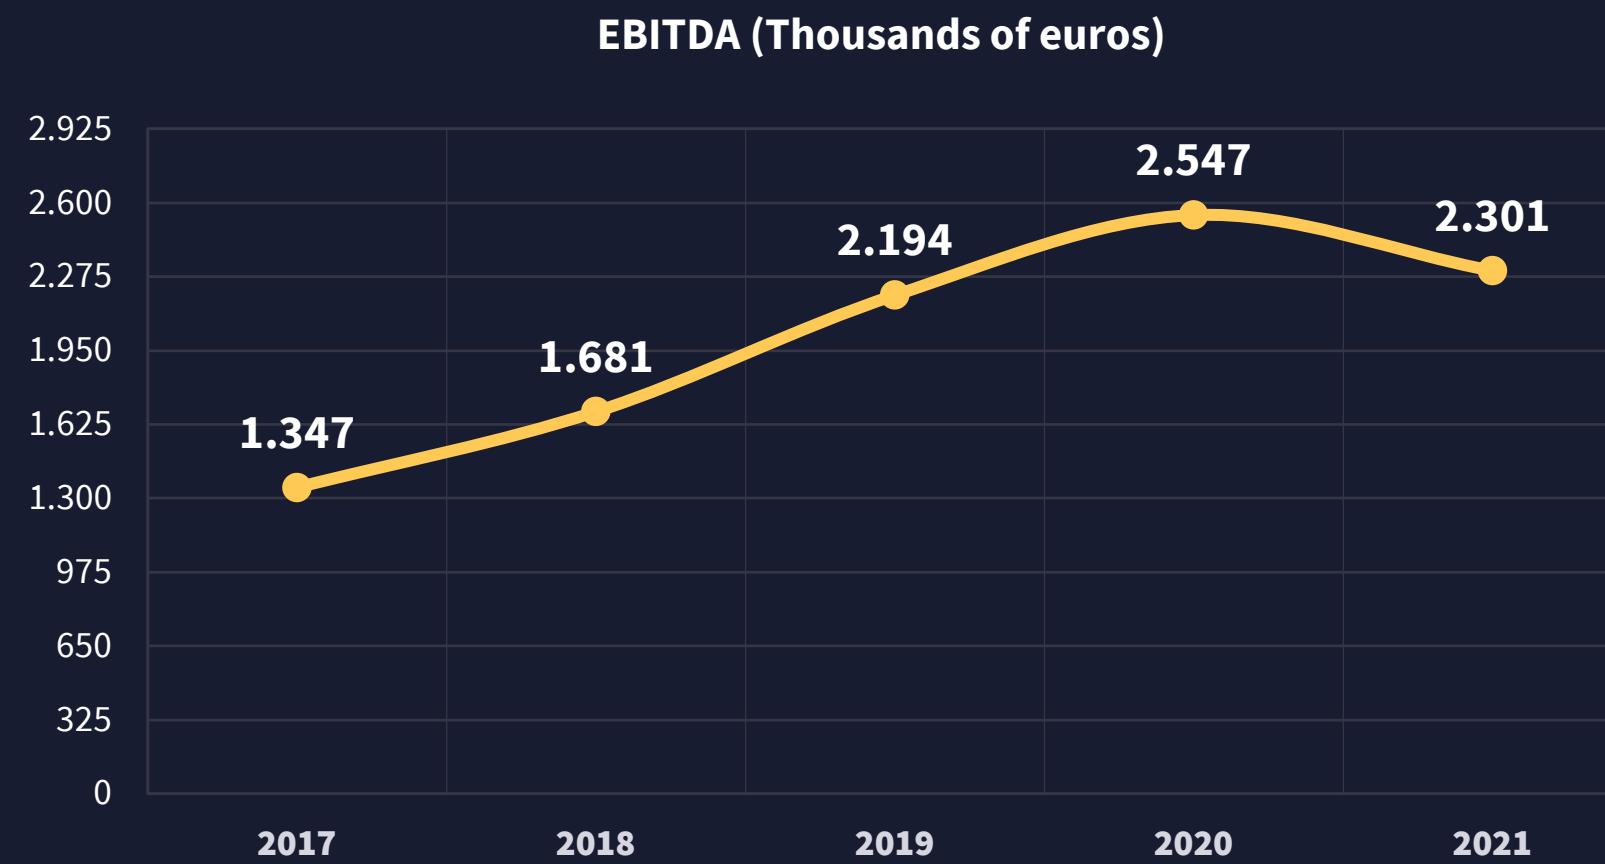

Applying a criterion of maximum prudence, the income recorded in the profit and loss account for the financial year 2021 remains at 4% of sales in line with 2020.

Product innovation is an essential part of the group's long-term strategy.

InDenova's entry brings a new range of products and a lab for research into new lines of business. In 2021, we incorporated an income of 53 thousand euros from InDenova's work in these two months, which explains the increase between the fourth quarter of 2020 and 2021.

EBITDA EVOLUTION

EBITDA at FY 2021 year-end stands at EUR 2.3 million (24.5% of the consolidated gross margin). The EBITDA of the last years, over 2 million euros, consolidates the company's organic growth and generates the necessary liquidity to continue investing in the group's cornerstones of growth.

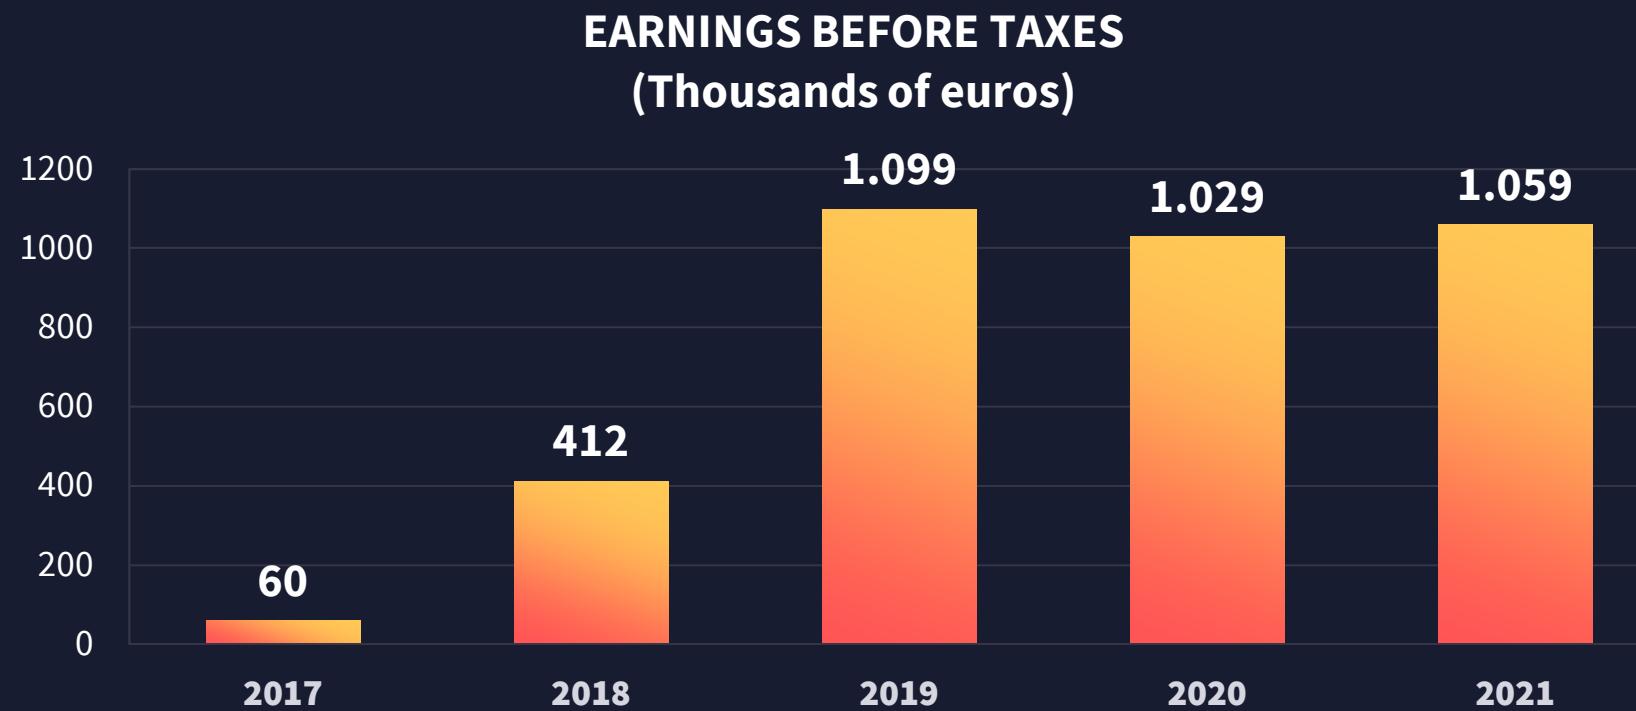

EBITDA EVOLUTION WITHOUT CAPITALISATIONS

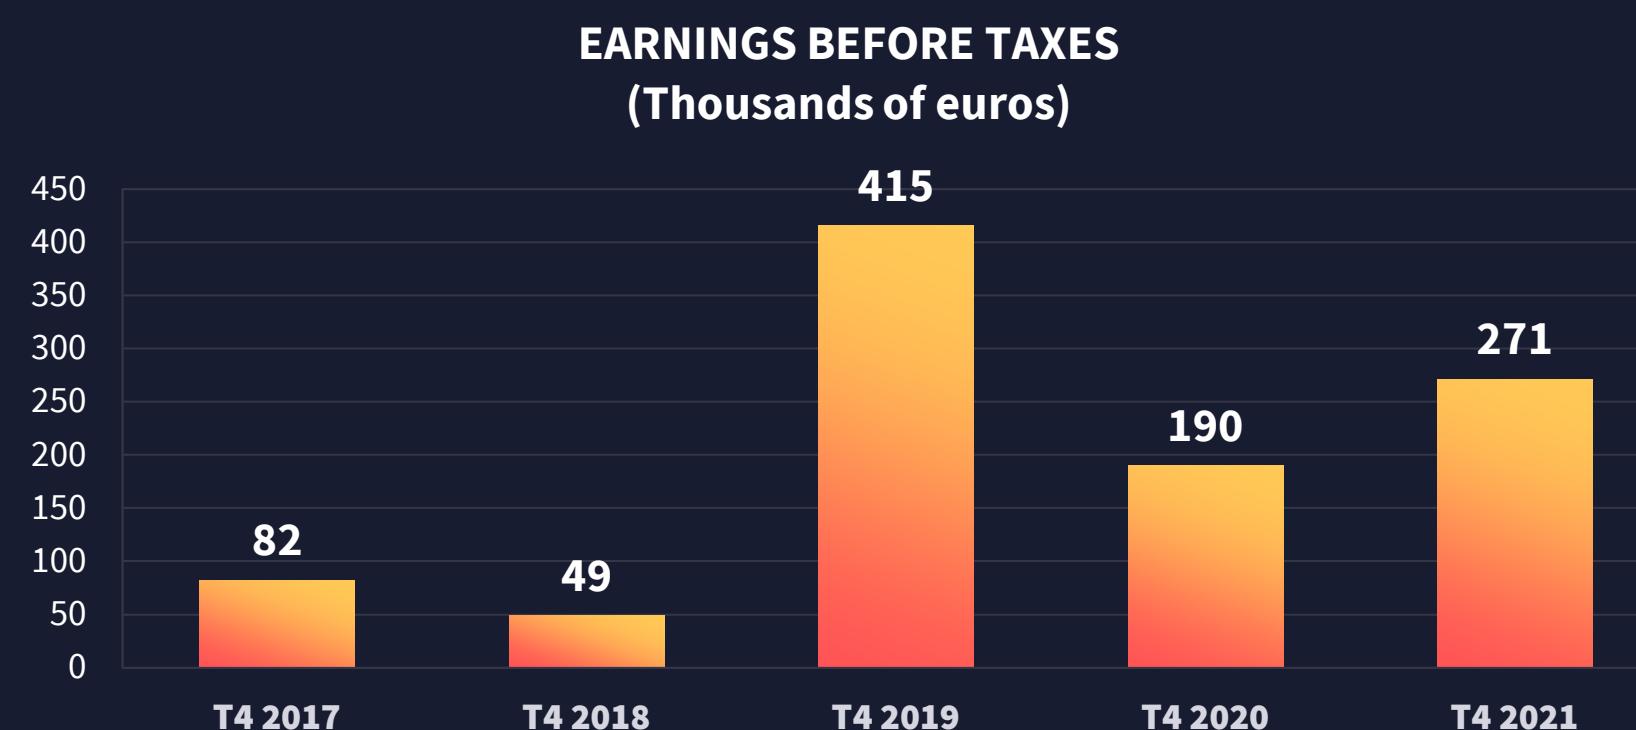

EBIDTA Cash generated by the group amounted to 1.5 million euros in the financial year and 500 thousand euros in the last quarter.

The group has invested in the inherent costs of the acquisition and in recruiting talented staff for the future strategy.

EVOLUTION OF EARNINGS BEFORE TAXES

Profit before tax exceeded EUR 1 million for the 3rd year in a row, thanks to the group's gross margin increase.

The quarterly result is 43% higher than the same quarter of 2020, where the evolution of the Colombian peso led to exchange rate losses of 50 thousand euros.

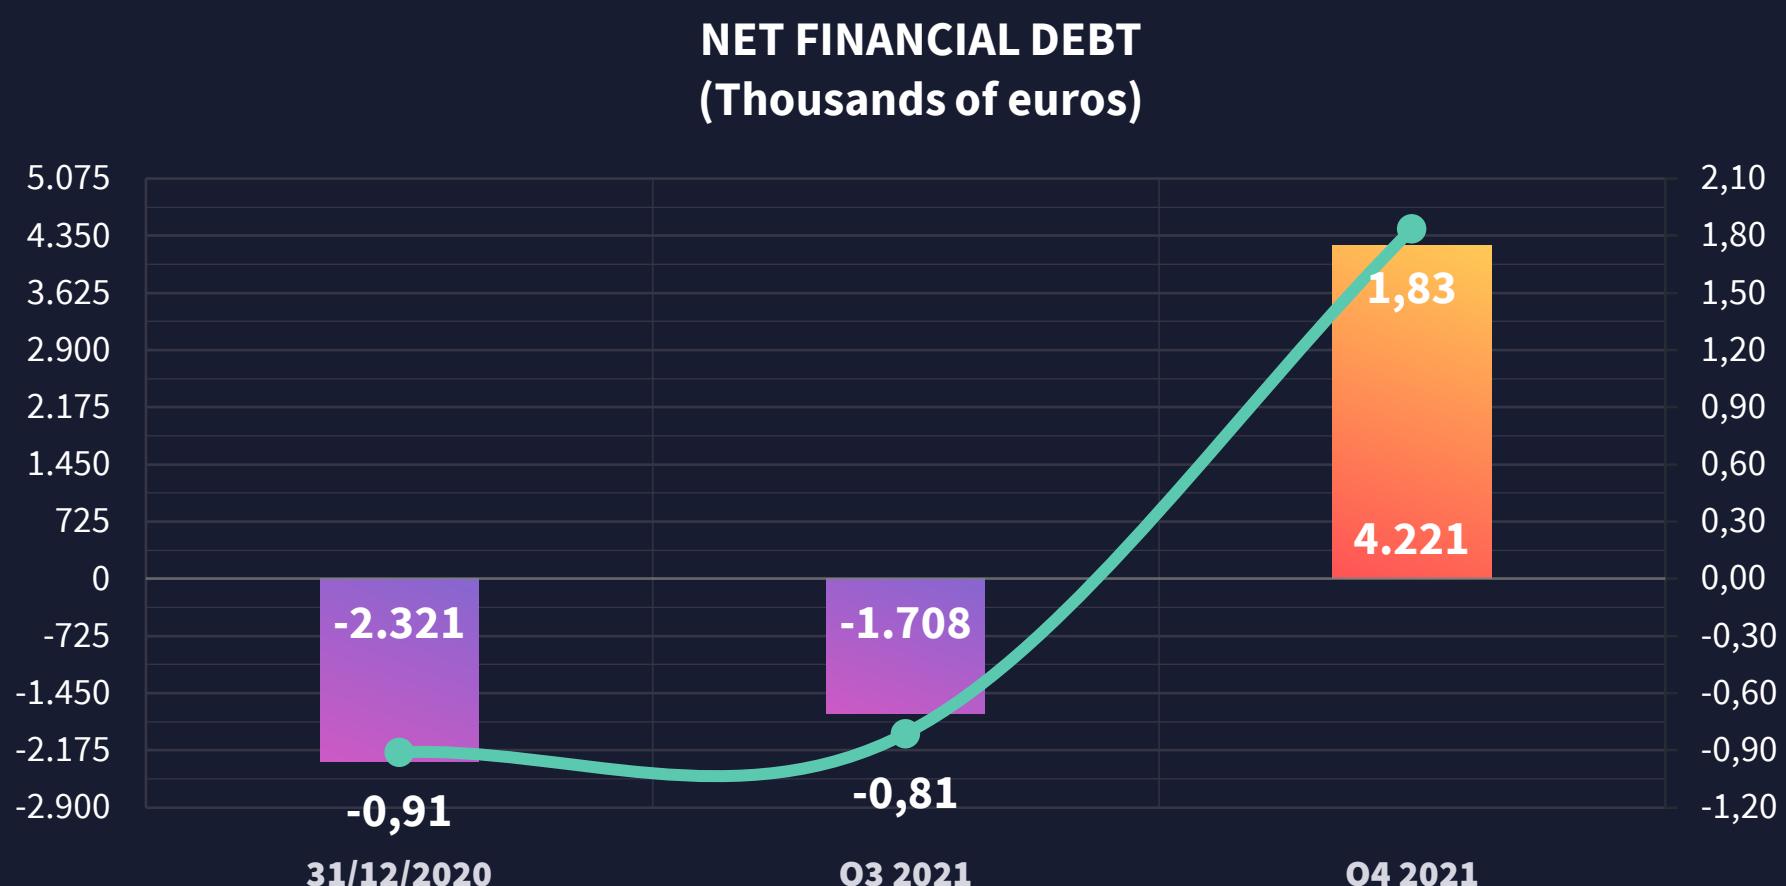

The increase in the financial cost is due to the incorporation of InDenova's debt, having loans with partners at a higher interest rate than the average interest rate of the group.

Similarly, during this quarter, the amortisation of InDenova goodwill was included for the first time, generating an expense of 78 thousand euros in these two months.
